Kendall's Treatise on the Horse, Scribner's Lumber Book, Scribner's Grain Tables; Horses, their Feed and their Feet, and to such as will add 50 cents extra to the amount due, we will send a dollar book, entitled "*Palliser's Model Homes.*" For our lady subscribers we have, if desired, that admirable treatise "*Every Woman her own Flower Gardener.*" Such premiums will reduce the price of the FARMER to almost nothing."

 By sending \$1.00 the MARYLAND FARMER will be sent promptly for one year and either one of the above Books you may select, all free of postage.

TO THE FARMERS.

We desire each and every subscriber who is connected with Agriculture, in any of its branches, to consider the MARYLAND FARMER as HIS paper—making inquiries for information, giving facts and results of experiments, statement of crops and mode of culture of those crops, and in fact to use the columns of the MARYLAND FARMER to impart information or to seek knowledge from brother farmers by questions. It would thus become a pleasant means of communication between intelligent agriculturists and practical men, by which each would be benefitted. On our part, we shall be diligent and anxious to reply to all inquiries to the best of our information, or through others who may be competent to give correct replies. There is nothing more calculated to advance the spread of useful knowledge among men in any avocation, than the general interchange of opinions and views of scientific and plain practical men engaged in the same pursuit.

Farmers, let us in the future have no lack of correspondence. Every man will be welcome to our columns to express his views on any subject relating to agriculture. Commune one with another, just as if in private talk, and let every man contribute his mite to swell the heap of agricultural riches, and the ball of progress will roll on until the clods of ignorance or mistaken prejudices are crushed, and good seeds in well cultivated ground will bear a rich harvest for the present and future generations.

Having enlarged and greatly improved our Office the past year, we bid our friends a hearty welcome to it, where we can have friendly chats, and where the Planter, Farmer, Gardner, Stock-raiser and all our rural friends can meet and interchange sentiments, form new acquaintance and cement old friendships.

To Our Correspondents.

We feel greatly indebted to our corps of correspondents for the energy and zeal manifested during the past year in aiding the circulation of the FARMER by their practical and able contributions. We trust they will continue them during the coming year, and thus “speed the plow,” until agriculture is placed upon the high pinnacle of honor where nature intended the sons and daughters of toil to be placed, it being the grandest and most essential of all the occupations of mankind.

To Our Subscribers.

The reading matter in the MARYLAND FARMER will never be lessened by advertisements. We feel called upon to make this statement, as the large increasing circulation of our paper naturally increases the amount of advertisements, therefore we wish to say most positively to our subscribers, that the

reading matter in the **FARMER** will always contain not less than 32 full pages, monthly, and often 36 to 40; and should our advertisements reach 100 pages, it will not lessen the reading matter, but likely to increase it. By reference to our volume for the past year, it will be seen that during the year we published many illustrations of fine Stock, Flowers, Farming Implements and Machines, Poultry, Household Ornaments, besides the Portraits of several leading Agriculturists, with sketches of their lives and accounts of their farming operations. In our volume for 1884, we propose to increase the number of such illustrations, and add to the list of correspondents, that our readers may profit by the acts of practical men, who have devoted their time or leisure moments to the theory and practice of agriculture, and that our young farmers, and inexperienced men may see and judge from the appearance of the animal, machine or flower, what it is in looks, and whether or not it comes up to the promise of the seller of such articles,

TO THE PRESS.

We return grateful thanks to our brothers of the Press for their many unsolicited compliments, and are happy to have them clip from our Journal when they give us due credit.

To our Advertisers.

All that seemed to be necessary a few years ago to make and conduct a successful business, was to have sufficient capital, commodious stores, work-shops or ware-houses conveniently located, well-filled with good stocks, and managed by honest, agreeable and gentlemanly proprietors, and you were certain of success; but now you may have all the above requisites, and if you do not **ADVERTISE** they are as "sounding brass and tinkling cymbals." The one thing needed *now* to a successful business is to **ADVERTISE**, or else you cannot compete with others who do. There are various mediums by which a merchant or manufacturer may advertise his wares. If he is dealing in a kind of goods or stocks, the prices of which are daily changing, then the daily papers are the proper medium for him to advertise in; but for the largest part of all business done in this country, a Journal like the **MARYLAND FARMER**, with its immense circulation, neatly printed on good, durable paper, attractive in appearance, with a convenient index, arranged for advertisers, and more or less copies of which are to be found in the hands of nearly every farmer in the country, preserved and kept for reference, is the best medium for advertisers.

Breeders of Fine Stock should look to their interest, and set forth their claims in this Journal, which seeing the growing importance of this great branch of agriculture, has devoted a large portion of its reading columns to the history and varied qualities of the different breeds of all sorts of domestic animals, and birds, with apt illustrations of the subject treated. Advertising brings the seller into contact, at the same moment with thousands who wish to buy, and every monthly issue of our Journal, he tells the crowd what he has for sale, and the value of his stock or wares, whatever it may be he advertises. It is also a cheap way to let thousands of people know what one *wants*, and to select from the offers and descriptions he will receive in reply to his advertisement.

Why Business Men should Subscribe and Advertise in the "Maryland Farmer."

Because it admits no political discussions in its columns, is independent, opposed to class-legislation and all schemes which would advance one interest to the detriment of another and uniformly adhering to the great principal of human justice to all, striving to help the progress of Agriculture, looking upon it as the great source from which all other employments of man must draw the means of prosperity.

Because during its long career, it has received the kindest consideration from the Press Agriculturists, Manufacturers, Merchants, and all men of high standing in the country.

Because the Proprietor and Editor of the MARYLAND FARMER has been engaged in the interest of Agriculture for fifty years, forty of which have been spent in Baltimore, and during this long time has become personally acquainted with the most prominent agriculturists live stock breeders and inventors of agricultural machinery and devotes his whole time in fostering this great interest of the country.

Because having reduced the subscription to only one dollar per year, its circulation has rapidly increased and the MARYLAND FARMER is read by more Farmers, Planters, and others engaged in rural pursuits, than any other agricultural journal published south of Mason and Dixon's line

Because, being devoted to all branches of Agriculture, Live Stock, Horticulture and Domestic Economy, its contents are valuable to its subscribers, and being necessarily kept and bound, as a means of reference, it presents to the Merchant, Farmer, Mechanic, and all others, the most valuable medium for advertising whatever each one has to offer for sale.

TEN

Reasons why Business Men should advertise in the MARYLAND FARMER.

1. Because it publishes valuable information in such form that subscribers have it bound, to add a desirable volume to their library and keep it for reference.
2. Because it is the oldest and most popular Agricultural Paper in Maryland, and for ten years the only one.
3. Because it is the cheapest Magazine published in the United States, making a volume of nearly 1,000 pages during the year, at the low price of \$1.00, post paid.
4. Because it has been regularly issued every month without any change since it was first started by its present Publisher and Editor, and has a larger circulation in the Middle and Southern States than any other Agricultural Journal.
5. Because it has the ablest class of practical and scientific correspondents of any Agricultural paper in Maryland.
6. Because it admits no political discussions, in its columns, is independent, opposed to class-legislation and all schemes which would advance one interest to the detriment of another and uniformly adhering to the great principle of human justice to all, striving to help the progress of Agriculture, looking upon it as the great source from which all other employments of man must draw the means of prosperity.
7. Because during its long career, it has received the kindest consideration from the Press, Agriculturists, Manufacturers, Merchants, and all men of high standing in the country.

Salt and Salt-petre on Meat.

The manner in which salt operates in its preservative functions is obvious. Salt, by its strong affinity, in the first place, extracts the juices from the substance of meat in sufficient quantity to form a saturated solution with the water contained in the juice and the meat then absorbs the saturated brine in the place of the juice extracted by the salt. Thus, matter incapable of putrefaction takes the place of that portion of the meat which is most perishable. Such, however, is not the only office of salt as a means of preserving meat; it also acts by its astringency in contracting the fibers of the muscles, and so excludes the action of air on the interior of the substance of the meat. The last mentioned operation of salt as an antiseptic is evinced by the diminution of the volume of meat to which it is applied.

The astringent action of salt-petre on meat is much greater than that of salt, and thereby renders the meat to which it is applied very hard; but in small quantities it considerably assists the antiseptic action of salt, and it also prevents the destruction of the florid (or red) color of the meat by the application of salt and salt-petre on meat, it will be perceived that the application of the matters deteriorates in a considerable degree, the nutritive and to some extent the wholesome qualities of meat; and therefore, in their use, the quantity applied should be as small as possible consistent with the perfect preservation of the meat.

The Largest Flower.

What is supposed to be the largest flower in the world has lately been exhibited in the Botanical Garden of Berlin. It is the great flower of Sumatra known in science as the *Rafflesia Arnoldi*, and is peculiar to Java and Sumatra. It measures nearly ten feet in circumference, and more than three in diameter.

Farmers, Merchants, and others interested in agriculture, should not fail to send in their subscriptions to the MARYLAND FARMER for 1883, as we intend to make it excel any previous years.

Save the Expense of Building a Brick Chimney

Our Fire Clay Chimney Pipe does not rust nor crack by heat nor crumble from frost. It has been used 10 years for Dwellings, Schools, Churches, &c. No danger from fire as it does not communicate heat to wood. Insurance Companies have decided it to be a safer Chimney than brick. It is equally as solid and no bricks nor brick-layer are required; any one can put it up. Each section is two feet long and rests in the bowl of the next. We show four forms of construction. A complete chimney to use in 2 stories can be furnished for about \$5.

RARE OFFER

\$1 Worth of SHEET MUSIC FREE

Buy fifteen bars of Dobbins' Electric Soap of any grocer; cut from each wrapper the picture of Mrs. Foggy and Mrs. Enterprise, and mail to us, with full name and address, and we will send you free of all expense, your own selection from the following list of Sheet Music, to the value of One Dollar. We absolutely GUARANTEE that the music is unbridged, and sold by first-class music houses at the following prices:

INSTRUMENTAL.		Price
Artist's Life Waltzes, (Kunster Leben),	op 316, Strauss	75
Ever or Never Waltzes, (Foujours en Jambais),	Waldteufel	75
Chasse Infernale, Grand Galop, Brilliant,	op. 23, Kolling	75

Only be True,	Vickers	35
Under the Eaves,	Winner	35
Free Lunch Cadets,	Sousa	35

If the music selected amounts to just \$1, send only the 15 pictures, your name and address. If in excess of \$1, postage stamps may be enclosed for such excess. We make this liberal offer because we desire to give a present sufficiently large to induce everyone to give Dobbins' Electric Soap a trial long enough to know just how good it is. If, after trial, they continue to use the soap for years, we shall be repaid. If they only use the fifteen bars, retaining the dollar's worth of music gratis, we shall lose money. This shows our confidence. The Soap can be bought of all grocers—the music can only be got of us. See that our name is on each wrapper. Name this paper. A box of this Soap contains sixty bars. Any lady buying a box, and sending us sixty cuts of Mrs. Foggy, can select music to the amount of \$4.50. This Soap improves with age, and you are not asked to buy a useless article, but one you use every week.

ROLAND CHILLED PLOWS.

Every farmer in Maryland should use the "Roland." The Mouldboard is harder than steel. They will do more work than any other Plow with the same amount of draft. They run level and easy to the plowman. They will scour in any soil. Having the reversible slip point, sloping landside and chilled shares, they cost less for repairs than any other plow in the market. Made in Baltimore, the repairs can always be obtained without delay. The workmanship, material and finish is of the best. There are fourteen sizes and kinds, and they are suited to all kinds of soil. Send for descriptive circular.

CHAMPION GRAIN DRILL.

This Drill has force feed distributors for both wheat and grass seed, and has the only fertilizer distributor that will not clog, and will evenly distribute wet and sticky phosphate. It will sow grain, grass seed and fertilizer more satisfactorily than any other drill in America. It is the simplest and strongest drill made. It is more easily managed and less liable to get out of order than any drill in the market. As it is the leading drill in this market, and several thousands have been sold during during the past few years, a large stock of repairs is always on hand. Send for circular.

BRITISH MIXTURE.

The popularity of this celebrated fertilizer is not due alone to the price, but to the fact that its effects are uniformly good, and that it has been found the equal of the highest priced and best phosphates in the market. It gives more value for each dollar paid than any other fertilizer in the land. Send for circular and price list.

The Roland Chilled Plow.

There is no farm implement which has been so greatly improved during the past five years as THE PLOW, and the Roland Chilled stands pre-eminent amongst the best, as

THE BEST PLOW IN AMERICA.

Its superiority over common cast plows is so great that hundreds of farmers have thrown aside their entire stock of old fashioned Plows, being convinced that they would save money by doing this and replacing with the "Roland Chilled." The Sedgwick STEEL WIRE FENCE.

Is the only general purpose wire fence in use. Being a strong net work without bars; it will turn dogs, pigs, poultry, as well as the most vicious stock, without danger to either fence or stock. It is just the fence for farmers, gardeners, stockraisers, and railroad crossings. Very desirable for lawns, parks or cemeteries. As it is covered with a protective paint, it will last a life time. It is superior to boards in every respect, and it will wear itself into favor. We ask for it a fair trial, stock and fence, and you will see the utility of self-opening gates are more and more appreciated. The Sedgwick Gates, made of wrought iron and steel, are the best competition in neatness, lightness, strength and durability. KENDALL'S SPAVIN CURE!

It cures Spavins, Splints,
Ringbones, Curbs and all
similar blemishes and re-
moves the bunch without

blistering. For man it is
now known to be one of
the best if not the best lin-
iment ever discovered.

THE MOST SUCCESSFUL REMEDY ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

KENDALL'S SPAVIN CURE.

B. J. KENDALL & Co.,—Gents:—This is to certify that I have used Kendall's Spavin Cure and have found it to be all it is recommended to be, and in fact more too; I have removed by using the above, Callous, Bone Spavins, Ring Bones, Splints, and can cheerfully testify and recommend it to be the best thing for any bony substance I have ever used, and I have tried many, as I have made that my study for years.

HAMILTON, Mo., June 14th, 1881.

Respectfully yours,

P. V. CRIST.

KENDALL'S SPAVIN CURE.

The following letter was written to our agent in Louisville, Kentucky, by the owner of the stag route from Lebanon, Ky., to Campbellsville, who is well known throughout the State,

CAMPBELLVILLE, KY., Jan. 30th, 1878.

J. W. Morrill & Co., Louisville, Ky.—Gents:—The Kendall's Spavin Cure you sent me some time ago has proved invaluable in all cases for which I used it: sprains, sore back, galled shoulders, windgalls and scratches. Fortunately, I did not have any stock with spavins at the time.

Yours respectfully,

GEORGE BORDERS.

KENDALL'S SPAVIN CURE.

Dr. B. J. KENDALL & Co.,—Gents:—Enclosed please find 25 cents for which send me one of your new horse books and oblige. I have tried your Kendall's Spavin Cure in a case of Rheumatic Gout and find it an excellent remedy.

SAVANNAH, GA., Dec. 23, 1880.

Yours, &c., &c.,

J. W. HUNT.

KENDALL'S SPAVIN CURE.

B. J. KENDALL & Co.,—Gents:—Having got a horse book of you, by mail, a year ago, the contents of which persuaded me to try Kendall's Spavin Cure on the hind leg of one of my horses, which was badly swollen and could not be reduced by any other remedy. I got two bottles of Kendall's Spavin Cure, of Preston & Luddeth, druggists of Waseca, which completely cured my horse. About five years ago I had a three year old colt sweenied very bad, I used your remedy as given in your book, without rowelling, and I must say to your credit that the colt is entirely cured, which is a surprise not only to myself, but also to my neighbors. You sent me the book for the trifling sum of 25 cents, and if I could not get another like it, I would not take twenty five dollars for it.

Yours truly,

GEO. MATHEWS.

KENDALL'S SPAVIN CURE ON HUMAN FLESH.

WEST ENOSBURGH, VT., Feb. 15th, 1881.

Dr. B. J. KENDALL & Co.,—Gents:—Several months ago I injured my knee joint, which caused an enlargement to grow, the size of a large walnut, and caused me very severe pain all the time for four or five weeks, when I began to use Kendall's Spavin Cure, with the most satisfactory results. It has completely removed the enlargement and stopped the lameness and pain. I have long known it to be excellent for horses, but now I know it to be the best liniment for human flesh that I am acquainted with.

Yours truly,

T. P. LAWRENCE.

Send address for Illustrated Circular, which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price \$1 per bottle, or 6 bottles for \$5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, Dr. B. J. KENDALL & Co., Enosburgh Falls, Vt.

Full of NEW LIFE! More Vigorous than Ever!

Our corps of writers includes all the leading authorities on Agriculture, Horticulture, Floriculture, Stock Raising, &c., and many leading popular writers have been engaged for 1883.

Rev. E. P. ROE, the widely known author and successful grower of SMALL FRUITS, will be a regular contributor, while MARY CLEMMER, the famous Washington correspondent, MRS. E.

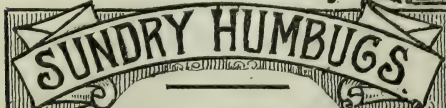

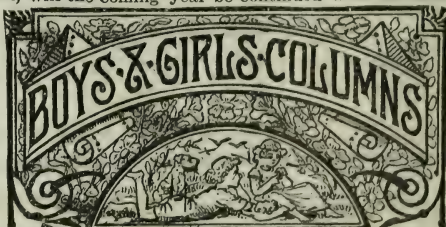

H. LELAND, author of "FARM HOMES," "FAITH ROCHESTER," "THE DOCTOR," "TIMOTHY BUNKER, Esq.," "H. E. ALVORD, SAMUEL PARSONS, and Col. F. D. CURTIS will add largely to its interest and usefulness everywhere.

One interesting feature of the AGRICULTURIST—so popular during the past, will the coming year be continued with increased interest—namely, **The Household.**

We have always paid special attention to the Boys and Girls, and 1883 will far exceed previous years in this respect.

Our exposure of HUMBUGS and SWINDLERS has saved our readers hundreds of thousands of dollars. This feature will be continued and extended.

"Your 'Humbug' columns are worth thousands of dollars to farming communities. H.T. FLETCHER, Lawrence, Ind."

Another prominent feature will be RURAL ARCHITECTURE, HOUSE PLANS AND SPECIFICATIONS, to which special attention will be devoted the coming year.

AMONG OUR REGULAR CONTRIBUTORS WILL BE

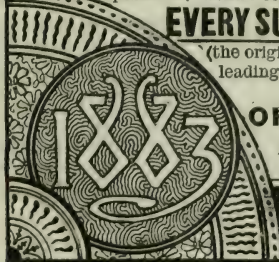

Pres. JOHN BASCOM, LL.D., Wis. University.
Prof. G. C. CALDWELL, Agr. Dep. Cornell Univ.
Sir J. B. LAWES, Rothamsted, England.

PERFECTION ATTAINED!

THE PATENT IMPROVED

SPRING TOOTH HARROW.

Tried and tested successfully, and gave general satisfaction. Pronounced by competent judges to be far superior to any heretofore offered on the market.

Farmers can save the price of one of these Harrows in a very short time, in time and labor saved in going over the ground, as once going over prepares and mellows it up in such condition to receive the seed as would not be obtained in going over three or four times with any of the ordinary harrows. It is also the best seed-coverer in the world.

Ground prepared by this Harrow will yield a larger crop than by any other agricultural implement, because it pulverizes the ground thoroughly, cuts the soil from the bottom, shakes it up, and leaves it in a loose condition; in so doing it shakes out all grass, thistles and weeds, leaving them on the surface in the sun, where they die much quicker than if half covered up.

We are now entering upon the third year as manufacturers of Spring-Tooth Harrows. We have made several important improvements this last season, whereby our Harrows do better work, and with lighter draft than last season.

WARRANTEE.—Any Teeth broken or bent by fair usage, the first season, will be replaced. Broken or bent Teeth to be returned to the place where the Harrow was purchased.

TO FARMERS.—The teeth are set right (cut four inches) for nearly all kinds of work. To change the depth, place on floor or level surface, points down; frame resting on skids, joist or blocks, to the desired depth. Loosen bolt, place Tooth, in position and tighten. On new broken sod, drive diagonally over the furrows. Hitch team far enough away to make harrow run level. A few hours experience will prove to you that you have one of the best implements ever manufactured.

FOUR POINTED STEEL BARB WIRE.

THE BEST AND THE CHEAPEST.

MERITS OF BARB FENCE

It is the cheapest fence made; the most durable; is not affected by fire, wind or flood; does not cause snow drifts; takes fewer fence posts; stock cannot push it down; it protects itself—acts on the defensive; it takes but little room; you can cultivate close to it; weeds are easily kept out of it; requires but little labor to put it up; you can draw at one load enough to fence a farm; and can fence a good sized farm in a day; it is the greatest practical invention of the age, and has come to be the farm and railroad fence of the country.

Sheep culture presents a striking example of the inefficiency of the fencing now in use. No branch of farming is more profitable if sheep could be protected. But no fence heretofore tried, except this, will keep sheep in, and dogs and wolves out.

It is easily seen, thus overcoming one of the main objects to plain fence wire. Its length is not effected by heat or cold. The wire is put up on spools in lengths of about one hundred rods, weighing 100 to 110 lbs., so as to be easily handled. One pound measures 15 feet in length; 352 lbs. measures a mile. Send for circulars and special prices.

TO COTTON GROWERS. J. J. TURNER & CO., "EXCELSIOR,"

1858

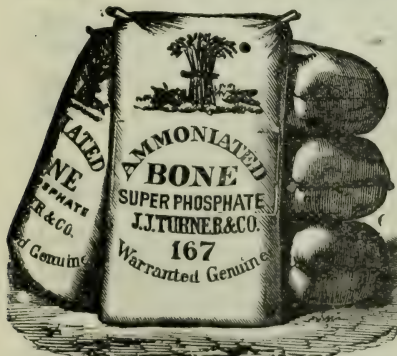

1882

Forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvian Guano, and the ever durable fertilizing properties of Bones. In fine dry powder, prepared expressly for drilling.

After twenty-four Years' experience by the Planters of Maryland and Virginia in the use of "EXCELSIOR," it is their unanimous opinion that an application of 100 pounds of "EXCELSIOR" is equal to from 200 to 300 pounds of any other fertilizer or guano, and, therefore, fully 100 per cent cheaper.

Farmers should see that every bag is branded with the Analysis, and our name, in red letters, which we hope will prove sufficient protection against counterfeit articles. All further abuse of our name being disclaimed for the future. A large supply of Peruvian Guano for sale, Feb-1y

To Cotton Growers. J. J. TURNER & CO., AMMONIATED BONE SUPER PHOSPHATE,

Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other Fertilizer sold, except our "Excelsior," and is made with the same care and supervision; uniform quality guaranteed; in excellent order for drilling.

Farmers should see that every Bag is branded with the analysis and our name in red letters, which we hope will prove sufficient protection against counterfeit articles. ALL FURTHER ABUSE OF OUR NAME BEING DISCLAIMED FOR THE FUTURE.

PROPRIETORS.

This RESTAURANT is the oldest and most extensive in its accommodations of any in the city.

The BAR is filled with the finest of all kinds of LIQUORS. The TABLES are covered with the best substantial food the markets afford, besides, at the earliest moment they can be procured in the different seasons, every variety of delicacy that land and water furnish, in

BIRDS, GAME, FISH, FRUITS & VEGETABLES.

Prices moderate. The crowds, which lunch and dine daily, attest public approbation of the superior management of the house.

It is a convenient place for travellers, who stop only a few hours or a day in the city, to get their meals. It is the popular resort of country gentlemen from the counties, particularly from Southern Maryland, being convenient to Railroads and Steamboats, and in the midst of the business portion of the city.

The Proprietors will be grateful for the continuance of the extensive patronage they now enjoy, and will do their best to give entire satisfaction to all visitors.

The New York Sun.

If you already know THE SUN, you will observe that in 1883 it is a little better than ever before. If you do not already know THE SUN, you will find it to be a mirror of all human activity, a storehouse of the choicest products of common sense and imagination, a mainstay for the cause of honest government, a sentinel for genuine Jeffersonian Democracy, a scourge for wickedness of every species, and an uncommonly good investment for the coming year.

Terms to Subscribers:

The several editions of THE SUN are sent by mail, postpaid as follows:

DAILY—55 cents a month, \$6.50 a year; with Sunday edition, \$7.70.

SUNDAY—Eight pages, \$1.20 a year.

Testimonials on Corn Mills and Mill Stones.

E. G. Thuring, Conway, Masc., writes—I set mill up next day from its receipt and it works to a charm. I think it is the best built mill I ever saw.

Adams & Co., Laurel, Del., write—The 48-inch stones we bought from you are better than any we have ever used for grinding fine corn meal.

J. O. Adair, Harmony Grove, Ga., writes—I ground one bushel of corn and made 1 bushel and 14 quarts of fine table meal.

S. J. Darby, Dadeville, Ala., writes—The 30-inch mill makes six bushels of first-class table meal per hour. My custom has greatly increased since I bought your mill.

Testimonials on Engines and Saw Mills.

Extract from letter of J. W. Roper, Sawyer for Dry & Upton, Callahan, Fla., who are running our 40-Horse Dry Steam Engine, and our No. 1 Saw Mill with Patent Set Works and Patent Gauge Roller:

"I have no hesitation in saying this is the best Portable Saw Mill I have ever sawed with, after 13 years' experience. I have been running this mill four months and our daily average is about 20,000 feet."

Moore, Clary & Co., Alapachicola, Fla., say the 16x24 Engine, Boilers, and our New Patent Saw Mill cannot be surpassed for workmanship, simplicity, and fast sawing. "After 16 years' experience in the lumber business, we do not hesitate to recommend your work to men who want a first-class job in all particulars."

HEALTH, CLEANLINESS, COMFORT, ECONOMY AND DURABILITY.

Over 30 years' use of the WOVEN WIRE MATTRESS has demonstrated that it is the most comfortable, healthy, cleanly and economical bed in use. It has been adopted by most of the Hospitals, Asylums, Public Institutions, Leading Hotels, and many families.

Composed entirely of METALS and HARD WOOD, they cannot become infected with impurities arising from the body, lodgment of fibrous matter, dust or dirt, or harboring of vermin.

Clean, Noiseless and Vermin Proof.

Requires less than one-half the weight of mattress of other Spring Beds. For summer use a light blanket is sufficient for a comfortable and cool bed. When the cost of hair or other Mattress that must be used with all other Spring Beds is added to their cost, it will be found that the WOVEN WIRE MATTRESS is the CHEAPEST as well as the BEST AND MOST COMFORTABLE BED IN USE.

How We Test Seeds.

Probably from the fact that our long experience as Practical Gardeners, made us realize the necessity more strongly than most seed dealers, we very early in our career as seedsmen inaugurated the practice of testing all seeds before selling. From the small tests begun in 1872, this practice has extended and become so systematized that the past season it required the entire use of one of our largest greenhouses for our seed tests during the fall and winter, and afterwards in spring in the open ground we had set out many thousand plants, representing the stock in vegetable seeds alone of over 200 growers. All these tests are carried on under the personal supervision of PETER HENDERSON, and as the author of "Gardening for Profit" has had long and as varied an experience as most men in operations connected with the soil, it will be seen that we are placed in a position to judge, not only as to the germinating properties, but what is of far more importance, the purity of the seeds and the kinds of seeds best suited for all gardening purposes. If therefore you can buy seeds as cheaply from us, and we think if you will compare prices you will find that our Catalogue for 1883 of **Everything for the Garden** is now ready, and will be mailed free on application.

A HOME DRUGGIST

TESTIFIES.

Popularity at home is not always the best test of merit, but we point proudly to the fact that no other medicine has won for itself such universal approbation in its own city, state, and country, and among all people, as

Ayer's Sarsaparilla.

The following letter from one of our best-known Massachusetts Druggists should be of interest to every sufferer:—

RHEUMATISM. "Eight years ago I had an attack of Rheumatism, so severe that I could not move from the bed, or dress, without help. I tried several remedies without much if any relief, until I took AYER'S SARSAPARILLA, by the use of two bottles of which I was completely cured. Have sold large quantities of your SARSAPARILLA, and it still retains its wonderful popularity. The many notable cures it has effected in this vicinity convince me that it is the best blood medicine ever offered to the public. E. F. HARRIS."

River St., Buckland, Mass., May 13, 1882.

SALT RHEUM.

GEORGE ANDREWS, overseer in the Lowell Carpet Corporation, was for over twenty years before his removal to Lowell afflicted with Salt Rheum in its worst form. Its ulcerations actually covered more than half the surface of his body and limbs. He was entirely cured by AYER'S SARSAPARILLA. See certificate in Ayer's Almanac for 1883.

AYER'S Cherry Pectoral.

No other complaints are so insidious in their attack as those affecting the throat and lungs: none so trifled with by the majority of sufferers. The ordinary cough or cold, resulting perhaps from a trifling or unconscious exposure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

A Terrible Cough Cured.

"In 1857 I took a severe cold, which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried AYER'S CHERRY PECTORAL, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the PECTORAL a permanent cure was effected. I am now 62 years old, hale and hearty, and am satisfied your CHERRY PECTORAL saved me.

HORACE FAIRBROTHER."

Rockingham, Vt., July 15, 1882.

Croup.—A Mother's Tribute.

"While in the country last winter my little boy, three years old, was taken ill with croup; it seemed as if he would die from strangulation. One of the family suggested the use of AYER'S CHERRY PECTORAL, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half an hour the little patient was breathing easily. The doctor said that the CHERRY PECTORAL had saved my darling's life. Can you wonder at our gratitude? Sincerely yours,

MRS. EMMA GEDNEY."

159 West 128th St., New York, May 16, 1882.

"I have used AYER'S CHERRY PECTORAL in my family for several years, and do not hesitate to pronounce it the most effectual remedy for coughs and colds we have ever tried.

A. J. CRANE."

Lake Crystal, Minn., March 13, 1882.

"I suffered for eight years from Bronchitis, and after trying many remedies with no success, I was cured by the use of AYER'S CHERRY PECTORAL.

JOSEPH WALDEN."

Byhalia, Miss., April 5, 1882.

"I cannot say enough in praise of AYER'S CHERRY PECTORAL, believing as I do that but for its use I should long since have died from lung troubles.

E. BRAGDON."

Palestine, Texas, April 22, 1882.

No case of an affection of the throat or lungs exists which cannot be greatly relieved by the use of AYER'S CHERRY PECTORAL, and it will always cure when the disease is not already beyond the control of medicine.

Domestic Recipes.

BAKED APPLE PUDDING.—Five moderate-sized apples, two tablespoonsful of finely-chopped suet, three eggs, three tablespoonsful of flour, one pint of milk, a little grated nutmeg. Mix the flour to a smooth batter with the milk, add the eggs, which should be well whisked, and put the latter into a well-buttered pie-dish. Wipe the apples, but do not pare them; cut them in halves, and take out the cores; lay them in the batter, rind uppermost; shake the suet on the top, over which also grate a little nutmeg; bake in a moderate oven for an hour, and cover, when served, with sifted loaf-sugar. This pudding is also very good with the apples pared, sliced, and mixed with the batter.

APPLE BREAD.—Prepare a dough exactly as if for rusks. When it is very light, roll out a cake about half an inch thick. Spread stewed apples over it, and over that place another cake of dough like the first. Put it in a pan to lighten for a short time. Bake it. Have some thin slices of apples stewed very tender, and when the bread is baked lay these slices of apples all over the top, sprinkle them well with sugar, some small bits of butter, and either nutmeg or cinnamon, whichever you like. Put it back in the oven long enough for the sugar to form a coating on the top. Take it out, and when cold slice it nicely for tea.

BATTER AND APPLES.—Pare and core 6 apples, and stew them for a short time with a little sugar; make batter in the usual way, beat in the apples, and pour the pudding into a buttered pie-dish; the pudding, when properly done, should rise up quite light, with the apples on the top; to be eaten at table with butter and moist sugar.

APPLE MERINGUE.—Pare, core and stew ten tart apples in a very little water; season as for a pie and put in a fruit pie-dish into a not very hot oven. Beat up meanwhile the whites of four eggs as you would for icing, piling on the apples like rocks, avoiding the edge of the dish; return it to oven and nicely brown. Slip all out carefully by aid of a knife or spoon into a China dish and serve with cream; but if you have not cream, make a custard of the yolks of the eggs, flavored with vanilla, &c.

Save the Expense of Building a Brick Chimney

Our Fire Clay Chimney Pipe does not rust nor crack by heat nor crumble from frost. It has been used 10 years for Dwellings, Schools, Churches, &c. No danger from fire as it does not communicate heat to wood. Insurance Companies have decided it to be a safer Chimney than brick. It is equally as solid and no bricks nor brick-layer are required; any one can put it up. Each section is two feet long and rests in the bowl of the next. We show four forms of construction. A complete chimney to use in 2 stories can be furnished for about \$5.

We make this liberal offer because we desire to give a present sufficiently large to induce every one to give Dobbins' Electric Soap a trial long enough to know just how good it is. If, after trial, they continue to use the soap for years, we shall be repaid. If they only use the fifteen bars, getting the dollar's worth of music gratis, we shall lose money. This shows our confidence. The Soap can be bought of all grocers—the music can only be got of us. See that our name is on each wrapper. Name this paper.

A box of this Soap contains sixty bars. Any lady buying a box, and sending us sixty cuts of Mrs. Foggy, can select music to the amount of \$4.50. This Soap improves with age, and you are not asked to buy a useless article, but one you use every week.

ROLAND CHILLED PLOWS.

Every farmer in Maryland should use the "**Roland**." The Mouldboard is harder than steel. They will do more work than any other Plow with the same amount of draft. They run level and easy to the plowman. They will scour in any soil. Having the reversible slip point, sloping landside and chilled shares, they cost less for repairs than any other plow in the market. Made in Baltimore, the repairs can always be obtained without delay. The workmanship, material and finish is of the best. There are fourteen sizes and kinds, and they are suited to all kinds of soil. Send for descriptive circular.

CHAMPION GRAIN DRILL.

This Drill has force feed distributors for both wheat and grass seed, and has the only fertilizer distributor that will not clog, and will evenly distribute wet and sticky phosphate. It will sow grain, grass seed and fertilizer more satisfactorily than any other drill in America. It is the simplest and strongest drill made. It is more easily managed and less liable to get out of order than any drill in the market. As it is the leading drill in this market, and several thousands have been sold during the past few years, a large stock of repairs is always on hand. Send for circular.

BRITISH MIXTURE.

The popularity of this celebrated fertilizer is not due alone to the price, but to the fact that its effects are uniformly good, and that it has been found the equal of the highest priced and best phosphates in the market. It gives more value for each dollar paid than any other fertilizer in the land. Send for circular and price list.

The Roland Chilled Plow.

There is no farm implement which has been so greatly improved during the past five years as **THE PLOW**, and the Roland Chilled stands pre-eminent amongst the best, as

THE BEST PLOW IN AMERICA.

Its superiority over common cast plows is so great that hundreds of farmers have thrown aside their entire stock of old fashioned Plows, being convinced that they would save money by doing this and replacing with the "Roland Chilled." Send for descriptive circular, setting forth the reasons why we claim so much, and giving full description of the various sizes, with prices, &c.

The Sedgwick Steel Wire Fence.

Is the only general purpose wire fence in use, being a strong net work without barbs; it will turn dogs, pigs, poultry, as well as the most vicious stock, without danger to either fence or stock. It is just the fence for farmers, gardeners, stockraisers and roads; very desirable for lawns, parks or cemeteries. As it is covered with rust-proof paint, it will last a life time. It is superior to boards in every respect, and far better than barbed wire. We ask for it a fair trial, know it will wear itself into favor. We also manufacture the Automatic or Self-opening Gate. The utility of self-opening gates are more and more appreciated. The Sedgwick Gates, made of wrought iron and steel wire, defy all competition in neatness, lightness, strength, and durability. Ask hardware dealers, or for price list and particulars address Sedgwick Bros., Richmond, Ind.

KENDALL'S SPAVIN CURE!

It cures Spavins, Splints,
Ringbones, Curbs and all
similar blemishes and re-
moves the bunch without

blistering. For man it is
now known to be one of
the best if not the best lin-
iment ever discovered.

THE MOST SUCCESSFUL REMEDY ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

KENDALL'S SPAVIN CURE.

HAMILTON, Mo., June 14th, 1881.
B. J. KENDALL & Co.,—Gents:—This is to certify that I have used Kendall's Spavin Cure and have found it to be all it is recommended to be, and in fact more too; I have removed by using the above, Callous, Bone Spavins, Ring Bones, Splints, and can cheerfully testify and recommend it to be the best thing for any bony substance I have ever used, and I have tried many, as I have made that my study for years.

Respectfully yours,

P. V. CRIST.

KENDALL'S SPAVIN CURE.

The following letter was written to our agent in Louisville, Kentucky, by the owner of the stag route from Lebanon, Ky., to Campbellsville, who is well known throughout the State,

CAMPBELLVILLE, KY., Jan. 30th, 1878.

J. W. Morrill & Co., Louisville, Ky.—Gents:—The Kendall's Spavin Cure you sent me some time ago has proved invaluable in all cases for which I used it: sprains, sore back, galled shoulders, windgalls and scratches. Fortunately, I did not have any stock with spavins at the time.

Yours respectfully,

GEORGE BORDERS.

KENDALL'S SPAVIN CURE.

SAVANNAH, GA., Dec. 23, 1880.
Dr. B. J. KENDALL & Co.,—Gents:—Enclosed please find 25 cents for which send me one of your new horse books and oblige. I have tried your Kendall's Spavin Cure in a case of Rheumatic Gout and find it an excellent remedy.

Yours, &c., &c.,

J. W. HUNT.

KENDALL'S SPAVIN CURE.

WILTON, MINN., Jan. 11th, 1881.
B. J. KENDALL & Co.,—Gents:—Having got a horse book of you, by mail, a year ago, the contents of which persuaded me to try Kendall's Spavin Cure on the hind leg of one of my horses, which was badly swollen and could not be reduced by any other remedy. I got two bottles of Kendall's Spavin Cure, of Preston & Luddeth, druggists of Waseca, which completely cured my horse. About five years ago I had a three year old colt sweenied very bad, I used your remedy as given in your book, without rowelling, and I must say to your credit that the colt is entirely cured, which is a surprise not only to myself, but also to my neighbors. You sent me the book for the trifling sum of 25 cents, and if I could not get another like it, I would not take twenty-five dollars for it.

Yours truly,

GEO. MATHEWS.

KENDALL'S SPAVIN CURE ON HUMAN FLESH.

WEST ENOSBURGH, VT., Feb. 15th, 1881.
Dr. B. J. KENDALL & Co.,—Gents:—Several months ago I injured my knee joint, which caused an enlargement to grow, the size of a large walnut, and caused me very severe pain all the time for four or five weeks, when I began to use Kendall's Spavin Cure, with the most satisfactory results. It has completely removed the enlargement and stopped the lameness and pain. I have long known it to be excellent for horses, but now I know it to be the best liniment for human flesh that I am acquainted with.

Yours truly,

T. P. LAWRENCE.

Send address for Illustrated Circular, which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price \$1 per bottle, or 6 bottles for \$5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, Dr. B. J. KENDALL & Co., Enosburgh Falls, Vt.

PERFECTION ATTAINED!

THE PATENT IMPROVED SPRING TOOTH HARROW.

Tried and tested successfully, and gave general satisfaction. Pronounced by competent judges to be far superior to any heretofore offered on the market.

Farmers can save the price of one of these Harrows in a very short time, in time and labor saved in going over the ground, as once going over prepares and mellows it up in such condition to receive the seed as would not be obtained in going over three or four times with any of the ordinary harrows. It is also the best seed-coverer in the world.

Ground prepared by this Harrow will yield a larger crop than by any other agricultural implement, because it pulverizes the ground thoroughly, cuts the soil from the bottom, shakes it up, and leaves it in a loose condition; in so doing it shakes out all grass, thistles and weeds, leaving them on the surface in the sun, where they die much quicker than if half covered up.

We are now entering upon the third year as manufacturers of Spring-Tooth Harrows. We have made several important improvements this last season, whereby our Harrows do better work, and with lighter draft than last season.

WARRANTEE.—Any Teeth broken or bent by fair usage, the first season, will be replaced. Broken or bent Teeth to be returned to the place where the Harrow was purchased.

TO FARMERS.—The teeth are set right (cut four inches) for nearly all kinds of work. To change the depth, place on floor or level surface, points down; frame resting on skids, joist or blocks, the desired depth. Loosen bolt, place Tooth, in position and tighten. On new broken sod, drive diagonally over the furrows. Hitch team far enough away to make harrow run level. A few hours experience will prove to you that you have one of the best implements ever manufactured.

FOUR POINTED STEEL BARB WIRE.

THE BEST AND THE CHEAPEST.

MERITS OF BARB FENCE

It is the cheapest fence made; the most durable; is not affected by fire, wind or flood; does not cause snow drifts; takes fewer fence posts; stock cannot push it down; it protects itself—acts on the defensive, it takes but little room; you can cultivate close to it; weeds are easily kept out of it; requires but little labor to put it up; you can draw at one load enough to fence a farm; and can fence a good sized farm in a day; it is the greatest practical invention of the age, and has come to be the farm and railroad fence of the country.

Sheep culture presents a striking example of the inefficiency of the fencing now in use. No branch of farming is more profitable if sheep could be protected. But no fence heretofore tried, except this, will keep sheep in, and dogs and wolves out.

It is easily seen, thus overcoming one of the main objects to plain fence wire. Its length is not effected by heat or cold. The wire is put up on spools in lengths of about one hundred rods, weighing 100 to 110 lbs., so as to be easily handled. One pound measures 15 feet in length; 352 lbs. measures a mile. Send for circulars and special prices.

TO COTTON GROWERS. J. J. TURNER & CO., "EXCELSIOR,"

1858

1882

Forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvian Guano, and the ever durable fertilizing properties of Bones. In fine dry powder, prepared expressly for drilling.

After twenty-four Years' experience by the Planters of Maryland and Virginia in the use of "EXCELSIOR," it is their unanimous opinion that an application of 100 pounds of "EXCELSIOR" is equal to from 200 to 300 pounds of any other fertilizer or guano, and, therefore, fully 100 per cent cheaper.

Farmers should see that every bag is branded with the Analysis, and our name, in red letters, which we hope will prove sufficient protection against counterfeit articles. All further abuse of our name being disclaimed for the future. A large supply of Peruvian Guano for sale, Feb-17

To Cotton Growers. J. J. TURNER & CO., AMMONIATED BONE SUPER PHOSPHATE,

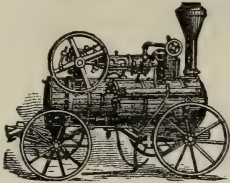

Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other Fertilizer sold, except our "Excelsior," and is made with the same care and supervision; uniform quality guaranteed; in excellent order for drilling.

Farmers should see that every Bag is branded with the analysis and our name in red letters, which we hope will prove sufficient protection against counterfeit articles. ALL FURTHER ABUSE OF OUR NAME BEING DISCLAIMED FOR THE FUTURE.

Testimonials on Corn Mills and Mill Stones.

E. G. Thuring, Conway, Mass., writes—I set mill up next day from its receipt and it works to a charm. I think it is the best built mill I ever saw.

Adams & Co., Laurel, Del., write—The 43-inch stones we bought from you are better than any we have ever used for grinding fine corn meal.

J. O. Adair, Harmony Grove, Ga., writes—I ground one bushel of corn and made 1 bushel and 14 quarts of fine table meal.

S. J. Darby, Dadeville, Ala., writes—The 30-inch mill makes six bushels of first-class table meal per hour. My custom has greatly increased since I bought your mill.

Testimonials on Engines and Saw Mills.

Extract from letter of J. W. Roper, Sawyer for Dyer & Upton, Callahan, Fla., who are running our 40-Horse Dry Steam Engine, and our No. 1 Saw Mill with Patent Set Works and Patent Gauge Roller:

"I have no hesitation in saying this is the best Portable Saw Mill I have ever sawed with, after 13 years' experience. I have been running this mill four months and our daily average is about 20,000 feet."

Monro, Clary & Co., Apalachicola, Fla., say the 16x24 Engine, Boilers, and our New Patent Saw Mill cannot be surpassed for workmanship, simplicity, and fast sawing. "After 16 years' experience in the lumber business, we do not hesitate to recommend your work to men who want a first-class job in all particulars."

HEALTH, CLEANLINESS, COMFORT, ECONOMY AND DURABILITY.

Over 30 years' use of the WOVEN WIRE MATTRESS has demonstrated that it is the most comfortable, healthy, cleanly and economical bed in use. It has been adopted by most of the Hospitals, Asylums, Public Institutions, Leading Hotels, and many families.

Composed entirely of METALS and HARD WOOD, they cannot become infected with impurities arising from the body, lodgment of fibrous matter, dust or dirt, or harboring of vermin.

Clean, Noiseless and Vermin Proof.

Requires less than one-half the weight of mattress of other Spring Beds. For summer use a light blanket is sufficient for a comfortable and cool bed. When the cost of hair or other Mattress that must be used with all other Spring Beds is added to their cost, it will be found that the WOVEN WIRE MATTRESS is the CHEAPEST as well as the BEST AND MOST COMFORTABLE BED IN USE.

WHAT WILL THE WEATHER BE TO-MORROW Pool's Signal Service Barometer

OR STORM GLASS AND THERMOMETER COMBINED.
WILL TELL YOU!

It will detect and indicate correctly any change in the weather 12 to 48 hours in advance. It will tell what kind of storm is approaching, and from what direction—invaluable to navigators. Farmers can plan their work according to its predictions. Saves 50 times its cost in a single season. Has an accurate thermometer attached, which alone is worth the price of the combination. This great WEATHER INDICATOR is endorsed by the most eminent Physicians, Professors and Scientific men of the day to be the **BEST IN THE WORLD!** The Thermometer and Barometer are put in a nicely finished walnut frame, with silver plated trimmings, etc., making it a beautiful as well as useful ornament. We will send you a sample one, delivered free, to your place, in good order, on receipt of \$1, or six for \$4. Agents are making from \$5 to \$20 daily selling them. A trial will convince you. Order at once. It Sells at SIGHT! Just the thing to sell to farmers, merchants, etc. Invaluable to everybody. U. S. Postage Stamps taken if in good order, but money preferred. WHITMAN'S
YOUNG AMERICA GEARED CORN AND COB MILL.
PATENT APPLIED FOR.

The above cut represents a new geared corn and cob mill which can be run by water, steam or horse power. It is the "Young America Corn and Cob Mill," now so popular, with gearing instead of lever. There are no changes in the mill proper, and any one having the lever mill can get the gearing to fit it and then have a geared mill at a small cost.

The amount of power required to drive it is four-horse power. It has about five revolutions to one of the lever mill, and therefore grinds about five times as fast. It is made with a special view to strength and durability, is well braced and made of the best material. Those who want a mill that can do more work than the lever mill, cannot fail to be pleased with this mill.

We invite those in search of an A No. 1 CORN AND COB MILL, to examine the merits of our Young America before purchasing.

The Poet says—

Would you have flowers in place of weeds?
Give to your garden O. K. seeds:
Your fields will blossom as the rose,
If "O. K. Seeds" the farmer sows.

Your fruitage thrive beneath the rain,
That comes to kiss the golden grain,
And prove how wise is he who heeds
Our song in praise of O. K. Seeds,

Your toils will not have been in vain,
A rich reward will be your gain,
In comfort, ease and well earned rest,
If O. K. Seeds your fields have blest.

Thus, when Autumn comes and goes,
And brings bleak winter's winds and snows,
Plenty will crown the closing year,
And fill your days with grateful cheer.

IMPROVED BUTTER COLOR

A NEW DISCOVERY.

For several years we have furnished the Dairywomen of America with an excellent artificial color for butter; so meritorious that it met with great success everywhere receiving the highest and only prizes at both International Dairy Fairs.

But by patient and scientific chemical research we have improved in several points, and now offer this new color as the best in the world.

It Will Not Color the Buttermilk. It

Will Not Turn Rancid. It is the

Strongest, Brightest and

Cheapest Color Made,

And, while prepared in Oil, is so compounded that it is impossible for it to become rancid.

BEWARE of all imitations, and of all other oil colors, for they are liable to become rancid and spoil the butter.

If you cannot get the "improved" write us to know where and how to get it without extra expense. (46)

The Maryland Farmer for 1883.

Our third number for the year 1883 and the 20th year of the MARYLAND FARMER. On entering upon our 20th volume, we are glad to congratulate our friends upon the generally increased prosperity of the country, which in all its past history has never been equalled. The seasons have been propitious and the farmers have prospered, but not so much from that circumstance, as we are inclined to believe from their own efforts, mainly induced by reading agricultural journals, like the Maryland Farmer, which gives the science and practical details of those who make farming a study and reduce their acquired knowledge to practical tests. Never was there a time in the history of our long experience as a journalist when we could so confidently appeal for continued support from our subscribers, advertisers and readers as now. The long list of advertisers show how it pays to advertise in our columns, and our increased circulation has enabled us to put our paper at a price so low that the poorest in fortune can obtain it, while we have added to its size, and ornamented it with a large number of illustrations of domestic animals, fowls, and useful implements to show to the reader clearly what intelligent correspondents and others are writing about. We can boast of some admirable correspondents who write for no paper but ours, and whose writings are always read with avidity. Therefore we ask every subscriber to renew his subscription and send along the names of his neighbors who have heretofore failed to avail themselves of this agricultural fount of solid worth, that has steadily increased in worth and value annually, while it has been enabled to reduce the price of subscription with the valuable premiums to the small sum of \$1.00 for 12 numbers, every number being worth more than treble that sum.

What the leading Agricultural Journals of the Country say of us:

American Agriculturist, N.Y., Feb., 1882: "The above firm is of best repute in its own city and their guarantee is good."

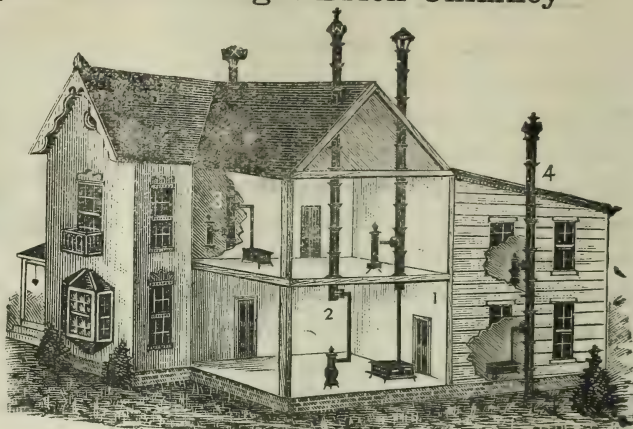

Farm Journal, Phila., Feb., 1882: "Brown Chemical Co. of Baltimore is a very old and perfectly sound firm."

American Farmer, Baltimore, March, 1882: "Brown Chemical Co. of this city are doing a large business in their special Fertilizers, and present numerous and emphatic testimonials as to their results."

Save the Expense of Building a Brick Chimney

Our Fire Clay Chimney Pipe does not rust nor crack by heat nor crumble from frost. It has been used 10 years for Dwellings, Schools, Churches, &c. No danger from fire as it does not communicate heat to wood. Insurance Companies have decided it to be a safer Chimney than brick. It is equally as solid and no bricks nor brick-layer are required; any one can put it up. Each section is two feet long and rests in the bowl of the next. We show four forms of construction. A complete chimney to use in 2 stories can be furnished for about \$5.

Send for descriptive circular with full information.

WRAPPE OFFER

\$1 Worth of SHEET MUSIC FREE

Buy fifteen bars of Dobbins' Electric Soap of any grocer; cut from each wrapper the picture of Mrs. Foggy and Mrs. Enterprise, and mail to us, with full name and address, and we will send you free of all expense, your own selection from the following list of Sheet Music, to the value of One Dollar. We absolutely GUARANTEE that the music is unbridged, and sold by first-class music houses at the following prices:

INSTRUMENTAL.		Price
Artist's Life Waltzes, (Kunster Leben.)	op. 316, Strauss	75
Ever or Never Waltzes, (Toujours ou Jamais.)	Waldteufel	75
Chasse Infernale, Grand Galop, Brilliant,	op. 23, Kolting	75
Turkish Patrol Reveille,	Krug	35
Pirates of Penzance, (Janciers.)	D'Albert	50
Elrens Waltzes,	Waldteufel	75
Fatinizin, Potpourri,	Suppe	75
Mascotte, Potpourri,	Audran	1 00
Trovatore, Potpourri,	Verdi	75
Night on the Water, Idyl,	op. 93, Wilson	60
Rustling Leaves,	op. 68, Lange	60

VOCAL.		Price
Patience, (The Magnet and the Churn),	Sullivan	35
Olivette, (Torpedo and the Whale.)	Audran	40
When I am Near Thee, (English and German words),	Abt	40
Who's at my Window,	Osborne	35
Lost Child,	Sullivan	40
My Dearest Heart,	Sullivan	35
Life's Best Hopes,	Meininger	40
Requited Love, (4 part Song),	Arner	25
Sleep while the Soft Evening Breezes, (4 part Song),	Bishop	35
In the Gloaming,	Harrison	30
Only be True,	Vickers	35
Under the Eaves,	Winer	35
Free Lunch Cadeis,	Sousa	35

If the music selected amounts to just \$1, send only the 15 pictures, your name and address. If in excess of \$1, postage stamps may be enclosed for such excess.

We make this liberal offer because we desire to give a present sufficiently large to induce every one to give Dobbins' Electric Soap a trial long enough to know just how good it is. If, after trial, they continue to use the soap for years, we shall be repaid. If they only use the fifteen bars, getting the dollar's worth of music gratis, we shall lose money. This shows our confidence. The Soap can be bought of all grocers—the music can only be got of us. See that our name is on each wrapper. Name this paper.

A box of this Soap contains sixty bars. Any lady buying a box, and sending us sixty cuts of Mrs. Foggy, can select music to the amount of \$4.50. This Soap improves with age, and you are not asked to buy a useless article, but one you use every week.

ROLAND CHILLED PLOWS.

Every farmer in Maryland should use the "Roland." The Mouldboard is harder than steel. They will do more work than any other Plow with the same amount of draft. They run level and easy to the plowman. They will scour in any soil. Having the reversible slip point, sloping landside and chilled shares, they cost less for repairs than any other plow in the market. Made in Baltimore, the repairs can always be obtained without delay. The workmanship, material and finish is of the best. There are fourteen sizes and kinds, and they are suited to all kinds of soil. Send for descriptive circular.

CHAMPION GRAIN DRILL.

This Drill has force feed distributors for both wheat and grass seed, and has the only fertilizer distributor that will not clog, and will evenly distribute wet and sticky phosphate. It will sow grain, grass seed and fertilizer more satisfactorily than any other drill in America. It is the simplest and strongest drill made. It is more easily managed and less liable to get out of order than any drill in the market. As it is the leading drill in this market, and several thousands have been sold during during the past few years, a large stock of repairs is always on hand. Send for circular.

BRITISH MIXTURE.

The popularity of this celebrated fertilizer is not due alone to the price, but to the fact that its effects are uniformly good, and that it has been found the equal of the highest priced and best phosphates in the market. It gives more value for each dollar paid than any other fertilizer in the land. Send for circular and price list.

The Roland Chilled Plow.

There is no farm implement which has been so greatly improved during the past five years as THE PLOW, and the Roland Chilled stands pre-eminent amongst the best, as

THE BEST PLOW IN AMERICA.

Its superiority over common cast plows is so great that hundreds of farmers have thrown aside their entire stock of old fashioned Plows, being convinced that they would save money by doing this and replacing with the "Roland Chilled." The Poet says—

Would you have flowers in place of weeds?
Give to your garden O. K. seeds;
Your fields will blossom as the rose,
If "O. K. Seeds" the farmer sows.

Your fruitage thrive beneath the rain,
That comes to kiss the golden grain,
And prove how wise is he who heeds
Our song in praise of O. K. Seeds.

Your toils will not have been in vain,
A rich reward will be your gain,
In comfort, ease and well earned rest,
If O. K. Seeds your fields have blest.

Thus, when Autumn comes and goes,
And brings bleak winter's winds and snows,
Plenty will crown the closing year,
And fill your days with grateful cheer.

KENDALL'S SPAVIN CURE!

It cures Spavins, Splints, Ringbones, Curbs and all similar blemishes and moves the bunch without blistering. For man it is now known to be one of the best if not the best liniment ever discovered.

THE MOST SUCCESSFUL REMEDY ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

KENDALL'S SPAVIN CURE.

HAMILTON, MO., June 14th, 1881.

B. J. KENDALL & Co.,—Gents:—This is to certify that I have used Kendall's Spavin Cure and have found it to be all it is recommended to be, and in fact more too; I have removed by using the above, Callous, Bone Spavins, Ring Bones, Splints, and can cheerfully testify and recommend it to be the best thing for any bony substance I have ever used, and I have tried many, as I have made that my study for years.

Respectfully yours,

P. V. CRIST.

KENDALL'S SPAVIN CURE.

The following letter was written to our agent in Louisville, Kentucky, by the owner of the stage route from Lebanon, Ky., to Campbellsville, who is well known throughout the State,

CAMPBELLVILLE, Ky., Jan. 30th, 1878.

J. W. Morrill & Co., Louisville, Ky.—Gents:—The Kendall's Spavin Cure you sent me some time ago has proved invaluable in all cases for which I used it: sprains, sore back, galled shoulders, windgalls and scratches. Fortunately, I did not have any stock with spavins at the time.

Yours respectfully,

GEORGE BORDERS.

KENDALL'S SPAVIN CURE.

SAVANNAH, GA., Dec. 23, 1880.

Dr. B. J. KENDALL & Co.,—Gents:—Enclosed please find 25 cents for which send me one of your new horse books and oblige. I have tried your Kendall's Spavin Cure in a case of Rheumatic Gout and find it an excellent remedy.

Yours, &c., &c.,

J. W. HUNT.

KENDALL'S SPAVIN CURE.

WILTON, MINN., Jan. 11th, 1881.

B. J. KENDALL & Co.,—Gents:—Having got a horse book of you, by mail, a year ago, the contents of which persuaded me to try Kendall's Spavin Cure on the hind leg of one of my horses, which was badly swollen and could not be reduced by any other remedy. I got two bottles of Kendall's Spavin Cure, of Preston & Luddeth, druggists of Waseca, which completely cured my horse. About five years ago I had a three year old colt sweenied very bad, I used your remedy as given in your book, without rowelling, and I must say to your credit that the colt is entirely cured, which is a surprise not only to myself, but also to my neighbors. You sent me the book for the trifling sum of 25 cents, and if I could not get another like it, I would not take twenty five dollars for it.

Yours truly,

GEO. MATHEWS.

KENDALL'S SPAVIN CURE ON HUMAN FLESH.

WEST ENOSBURGH, VT., Feb. 15th, 1881.

Dr. B. J. KENDALL & Co.,—Gents:—Several months ago I injured my knee joint, which caused an enlargement to grow, the size of a large walnut, and caused me very severe pain all the time for four or five weeks, when I began to use Kendall's Spavin Cure, with the most satisfactory results. It has completely removed the enlargement and stopped the lameness and pain. I have long known it to be excellent for horses, but now I know it to be the best liniment for human flesh that I am acquainted with.

Yours truly,

T. P. LAWRENCE.

Send address for Illustrated Circular, which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

PERFECTION ATTAINED!

THE PATENT IMPROVED SPRING TOOTH HARROW.

Tried and tested successfully, and gave general satisfaction. Pronounced by competent judges to be far superior to any heretofore offered on the market.

Farmers can save the price of one of these Harrows in a very short time, in time and labor saved in going over the ground, as once going over prepares and mellow it up in such condition to receive the seed as would not be obtained in going over three or four times with any of the ordinary harrows. It is also the best seed-coverer in the world.

Ground prepared by this Harrow will yield a larger crop than by any other agricultural implement, because it pulverizes the ground thoroughly, cuts the soil from the bottom, shakes it up, and leaves it in a loose condition; in so doing it shakes out all grass, thistles and weeds, leaving them on the surface in the sun, where they die much quicker than if half covered up.

We are now entering upon the third year as manufacturers of Spring-Tooth Harrows. We have made several important improvements this last season, whereby our Harrows do better work, and with lighter draft than last season.

WARRANTEE—Any Teeth broken or bent by fair usage, the first season, will be replaced. Broken or bent Teeth to be returned to the place where the Harrow was purchased.

TO FARMERS.—The teeth are set right (cut four inches) for nearly all kinds of work. To change the depth, place on floor or level surface, points down; frame resting on skids, joist or blocks, the desired depth. Loosen bolt, place Tooth, in position and tighten. On new broken sod, drive diagonally over the furrows. Hitch team far enough away to make harrow run level. A few hours experience will prove to you that you have one of the best implements ever manufactured.

FOUR POINTED STEEL BARB WIRE.

THE BEST AND THE CHEAPEST.

MERITS OF BARB FENCE

It is the cheapest fence made; the most durable; is not affected by fire, wind or flood; does not cause snow drifts; takes fewer fence posts; stock cannot push it down; it protects itself—acts on the defensive, it takes but little room; you can cultivate close to it; weeds are easily kept out of it; requires but little labor to put it up; you can draw at one load enough to fence a farm; and can fence a good sized farm in a day; it is the greatest practical invention of the age, and has come to be the farm and railroad fence of the country.

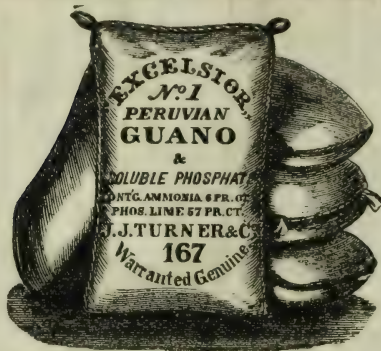

Sheep culture presents a striking example of the inefficiency of the fencing now in use. No branch of farming is more profitable if sheep could be protected. But no fence heretofore tried, except this, will keep sheep in, and dogs and wolves out.

It is easily seen, thus overcoming one of the main objects to plain fence wire. Its length is not effected by heat or cold. The wire is put up on spools in lengths of about one hundred rods, weighing 100 to 110 lbs., so as to be easily handled. One pound measures 15 feet in length; 352 lbs. measures a mile. Send for circulars and special prices.

TO COTTON GROWERS. J. J. TURNER & CO., "EXCELSIOR,"

1858

1882

Forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvian Guano, and the ever durable fertilizing properties of Bones. In fine dry powder, prepared expressly for drilling.

After twenty-four Years' experience by the Planters of Maryland and Virginia in the use of "EXCELSIOR," it is their unanimous opinion that an application of 100 pounds of "EXCELSIOR" is equal to from 200 to 300 pounds of any other fertilizer or guano, and, therefore, fully 100 per cent cheaper.

Farmers should see that every bag is branded with the Analysis, and our name, in red letters, which we hope will prove sufficient protection against counterfeit articles. All further abuse of our name being disclaimed for the future. A large supply of Peruvian Guano for sale. Feb-ly

To Cotton Growers. J. J. TURNER & CO., AMMONIATED BONE SUPER PHOSPHATE,

Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other Fertilizer sold, except our "Excelsior," and is made with the same care and supervision; uniform quality guaranteed; in excellent order for drilling.

Farmers should see that every Bag is branded with the analysis and our name in red letters, which we hope will prove sufficient protection against counterfeit articles. ALL FURTHER ABUSE OF OUR NAME BEING DISCLAIMED FOR THE FUTURE.

PROPRIETORS.

This RESTAURANT is the oldest and most extensive in its accommodations of any in the city.

The BAR is filled with the finest of all kinds of LIQUORS. The TABLES are covered with the best substantial food the markets afford, besides, at the earliest moment they can be procured in the different seasons, every variety of delicacy that land and water furnish, in

BIRDS, GAME, FISH, FRUITS & VEGETABLES.

Prices moderate. The crowds, which lunch and dine daily, attest public approbation of the superior management of the house.

It is a convenient place for travellers, who stop only a few hours or a day in the city, to get their meals. It is the popular resort of country gentlemen from the counties, particularly from Southern Maryland, being convenient to Railroads and Steamboats, and in the midst of the business portion of the city.

The Proprietors will be grateful for the continuance of the extensive patronage they now enjoy, and will do their best to give entire satisfaction to all visitors.

YOU SHOULD

SUBSCRIBE FOR THE PRACTICAL FARMER. READ THE TESTIMONY OF

Have taken "Practical Farmer" 27 years. It is one of the best agricultural weeklies.—A. SCOTT, Del. Co., Pa. Been a subscriber for 25 years, find it a pleasant and helpful visitor.—G. W. KEFF, Menom, Pa. The second paper I read on list of seven, been taking it many years. LAKESIDE, D. B. LATHAW, Vincent, Pa. Enclosed find subscription for my 15th year.—A. H. CARR, Camden, Del. Have taken "Farmer" 25 years. Consider it indispensable in every farmer's family.—J. W. COOPER, Waco, Tex. Samples of letters received daily, showing the high esteem in which the paper is held.

The Practical Farmer (Established 1855), is a 16 page, 34 column weekly, brim with good things concerning Agriculture, the Garden, Horticulture, Live Stock, the Apiary, etc. Its "Family Circle," "Youths," "Household," and "Hygienic" departments contain the ripest thoughts of well-known writers. Everything pertaining to our morality is excluded from its columns. Its complete market reports keep the farmer posted on current prices of farm products. The paper has been known for all engaged in rural pursuits. To enable you to become its practical friend, as thousands have already done, we offer to send it on trial for six months, 26 weeks, and make you a free gift of a beautiful sugar and salt spoon, per illustration, on receipt of 54 cts. (in 3-ct. postage stamps) the 4 cts. above the subscription being the exact cost of packing and mailing the spoon. These spoons have been secured after much patient hunt, in order to give our readers something of intrinsic worth. Made on a base of hardened steel, nickel-plated, and then heavily plated with pure coin silver, they are alike attractive and durable. There will be no delay in sending off these premiums, we have them on hand (having purchased the manufacturers' entire stock) and want you to have them. The PRACTICAL FARMER is now in its 25th year, and its publishers have earned an enviable reputation for promptness and reliability in dealing with its patrons. A paper that can hold its subscribers for over twenty-five years, must possess high character and its publishers be thoroughly responsible. It has never made a promise to its subscribers which it has not promptly fulfilled. Four neighbors may club and remit money order for \$2, and spoons (four sets will be sent with paper 6 months to each. This advertisement may not appear again. Seeds for the South.

To produce the best crops, Southern Farmers and Gardeners must use seeds grown with special reference to the Southern climate.

The fact that our Southern trade has more than doubled in the past three years is proof enough that our seeds are adapted to the climate and soils of the South. We give special attention to the wants of our Southern customers, and aim to offer them only such seeds as shall help (with good culture) to produce great crops.

The following are some of our Southern specialties :

COTTON SEEDS.—Jones' Improved Prolific, Ozier Silk, McKibbin's Hybrid, Hérlong.

CORN FOR THE SOUTH.—Several improved varieties especially adapted to the Southern climate. The South requires very different Corn from the North, and we have got the best.

WHEAT FOR THE SOUTH.—The South demands different varieties from those that flourish North. We have got them.

OATS FOR THE SOUTH.—We have them ; rust proof.

GRASSES FOR THE SOUTH.—We have them.

VEGETABLE SEEDS FOR THE SOUTH.—Our Northern grown seeds have been proven, by thirty years' trial in the South, to be of rare quality and adaptability to this section.

SIBLEY'S FARMER'S ALMANAC.—Contains the \$500 prize essays on Southern Gardening, by successful Southern cultivators, and descriptions of the best varieties. Price 10 cents.

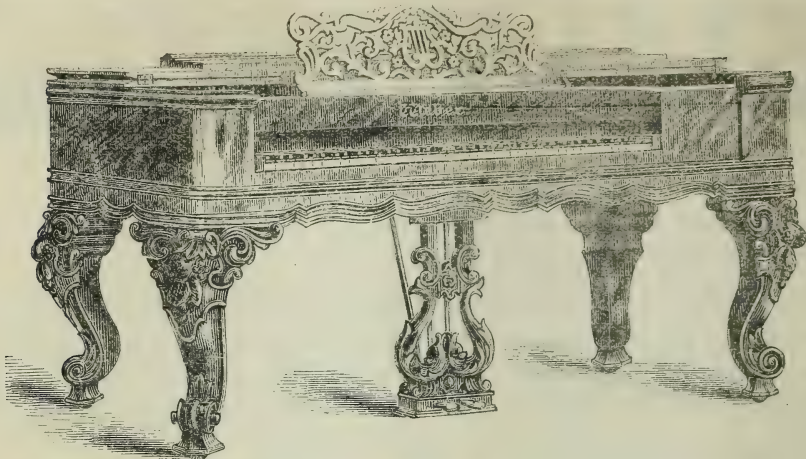

GRAIN AND FARM SEEDS MANUAL.—Contains the only correct history of Indian Corn ever written ; histories of all the Cereals ; instructive articles on the culture of all farm crops ; descriptions of best varieties. Price 10 cents.

DOUBLE YOUR CROP BY PLANTING CAREFULLY SELECTED SEED OF THE BEST VARIETIES!

SEED CORN!

THE IMPROVED LEARNING. Our improved strain of this variety is the earliest yellow Dent corn in cultivation, ripening in less than 90 days from planting, surpassing all other varieties in earliness, productiveness, and fine quality; ears large and handsome, large grain of deep orange color, and small red cob. Yielded the past season without extra cultivation, 100 bushels to the acre; stalks grow to medium height, and always produce two good ears, husks and shells easily, well adapted to all kinds of soil, pronounced by all who have grown it the BEST in cultivation. **Quart, by mail postpaid, 50c.; by freight or express, bags included, Peck 15c., Bushel \$2.50, Bag (2 bushels) \$4.50, 10 Bushels \$20.**

CHESTER CO. MAMMOTH CORN. Our stock of this celebrated variety has been improved each year by careful and skillful selection of the largest, best formed and earliest ears from the most productive fields. It yielded, the past season, over 100 bushels to the acre. Ears very large, grain bright yellow, stalks large, producing more fodder than any other variety. **Quart, postpaid, 50c., Bushel \$2.50, Bag (2 bushels) \$4.10, Bushel \$18.**

MAMMOTH WHITE SURPRISE—best and most productive 3 hill "bird" corn. **Quart, postpaid, 50c., Bushel \$2.50, Bag (2 bushels) \$4.50, 10 Bushels \$20.**

THE BEAR GOLDEN DENT, early, productive, and suited to light lands. **High quart, postpaid, 50c., Bushel \$2.50, Bag (2 bushels) \$4.50, 10 Bushels \$20.**

WHITMAN'S

YOUNG AMERICA GEARED CORN AND COB MILL.

PATENT APPLIED FOR.

The above cut represents a new geared corn and cob mill which can be run by water, steam or horse power. It is the "Young America Corn and Cob Mill," now so popular, with gearing instead of lever. There are no changes in the mill proper, and any one having the lever mill can get the gearing to fit it and then have a geared mill at a small cost.

The amount of power required to drive it is four-horse power. It has about five revolutions to one of the lever mill, and therefore grinds about five times as fast. It is made with a special view to strength and durability, is well braced and made of the best material. Those who want a mill that can do more work than the lever mill, cannot fail to be pleased with this mill.

We invite those in search of an A No. 1 CORN AND COB MILL, to examine the merits of our Young America before purchasing.

— F O R S A L E . —

A BARGAIN! The splendid dwelling house of the late Judge Stephen, in the village of Bladensburg, Md., *4 miles from Washington City.* This beautiful property consists of the fine historic mansion built of English brick, with extensive grounds filled with trees bearing fine fruits. The house contains seventeen rooms, including a **LARGE AND ELEGANT DRAWING ROOM**, with superb cellars. The out-buildings attached to the dwelling are, a Brick Kitchen communicating with the main building by a passage way, Smoke House and Dairy, all in good condition and of brick, also a stable and cow house. An abundant supply of the *finest water*, both spring and pump, convenient to the dwelling. There is adjacent a handsomely laid out garden, well enclosed, and also **10 acres of rich land** suitable for gardening, etc. This lot has upon it an orchard of *Choice Fruit Trees*, all in bearing. This property would be a suitable residence for a gentleman of wealth, or for one engaged in business in Washington, which is of ready access either by rail or turn-pike travel. Persons wishing to purchase or rent are invited to view the premises. Enquire at the office of the MARYLAND FARMER, or the undersigned,

JULES DIEUDONNE, College Station, Prince George's Co., Md.**Sedgwick Steel Wire Fence.**

It is the only general purpose Wire Fence in use, being a strong net work without barbs. It will turn dogs, pigs, sheep and poultry, as well as the most vicious stock without injury to either fence or stock. It is just the fence for farms, gardens, stock ranges and railroads, and very neat for lawns, parks, school lots and cemeteries. Covered with rust proof paint, (or galvanized,) it will last a life-time. It is superior to boards or barbed wire in every respect. We ask for a fair trial, knowing it will wear itself into favor. The **SEDGWICK GATES**, made of wrought iron pipe and steel wire, defy all competition in neatness, strength and durability. We also make the best and cheapest All Iron Automatic or Self-opening Gate, also cheapest and neatest all iron fence. Best Wire Stretcher and Post Augur. For prices and particulars, ask hardware dealers, or address, mentioning paper,

Domestic Recipes.

GENERAL RULES FOR PIES AND PUDDINGS.

In boiling puddings mind that the cloth be perfectly clean. Dip in hot water and dredge it well with flour. If a bred pudding, tie it loose; if a batter pudding, tie it nearly close; apple and gooseberry pudding, &c., should be tied quite close. When you make a batter pudding, first mix the flour well with milk, and stir in the other ingredients by degrees; you will then have it smooth without lumps. The best way, however, for a plain batter pudding is to strain it through a coarse hair sieve, that it may have neither lumps nor the threadings of the eggs, and for other puddings strain the eggs when they are beaten up. Be sure the water boils when you put your pudding in, and that it keeps boiling all the time, and that you keep it always covered with water; you should also move it about two or three times at first, or it may stick to the pot; dip the pudding into cold water immediately you take it out, which prevents it sticking. If you boil your pudding in a dish or basin, butter the inside before putting the pudding in; the same should be done to the dish for baked pudding or pie.

The quality of the pie crust depends much on the baking. If the oven be too hot, the paste, besides being burned, will fall; if too slack it will be soddened, and heavy.

Paste should be made on a cold, smooth substance, such as marble, with a light, cool hand. It should be made quickly; much handling makes it heavy. Great nicety is required in wetting the paste; too little moisture renders it dry and crumbly, while too much makes it tough and heavy, and in either case the paste cannot be easily worked. Practice alone can produce perfection in this art.

Always use good sweet butter, dripping, or lard for pudding crust. Some persons entertain the mistaken notion that butter which cannot be eaten on bread will do very well for paste; on the contrary, the making or boiling of rancid fat increases the bad flavor. It is a good plan to wash the butter in clean spring water before using it. Make two or three holes with a fork in the cover of your pies that the steam may escape.—*Germantown Telegraph.*

Save the Expense of Building a Brick Chimney

Our Fire Clay Chimney Pipe does not rust nor crack by heat nor crumble from frost. It has been used 10 years for Dwellings, Schools, Churches, &c. No danger from fire as it does not communicate heat to wood. Insurance Companies have decided it to be a safer Chimney than brick. It is equally as solid and no bricks nor brick-layer are required; any one can put it up. Each section is two feet long and rests in the bowl of the next. We show four forms of construction. A complete chimney to use in 2 stories can be furnished for about \$5.

The Poet says—

Would you have flowers in place of weeds?
 Give to your garden O. K. seeds;
 Your fields will blossom as the rose,
 If "O. K. Seeds" the farmer sows.
 Your fruitage thrive beneath the rain.
 That comes to kiss the golden grain,
 And prove how wise is he who heeds
 Our song in praise of O. K. Seeds,
 Your toils will not have been in vain,
 A rich reward will be your gain,
 In comfort, ease and well earned rest,
 If O. K. Seeds your fields have blest.
 Thus, when Autumn comes and goes,
 And brings bleak winter's winds and snows,
 Plenty will crown the closing year,
 And fill your days with grateful cheer.

KENDALL'S SPAVIN CURE!

It cures Spavins, Splints,
Ringbones, Curbs and all
similar blemishes and re-
moves the blemish without

blistering. For man it is
now known to be one of
the best if not the best lin-
iment ever discovered.

THE MOST SUCCESSFUL REMEDY ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

KENDALL'S SPAVIN CURE.

B. J. KENDALL & Co.,—Gents:—This is to certify that I have used Kendall's Spavin Cure and have found it to be all it is recommended to be, and in fact more too; I have removed by using the above, Callous, Bone Spavins, Ring Bones, Splints, and can cheerfully testify and recommend it to be the best thing for any bony substance I have ever used, and I have tried many, as I have made that my study for years.

Respectfully yours,

P. V. CRIST.

KENDALL'S SPAVIN CURE.

The following letter was written to our agent in Louisville, Kentucky, by the owner of the stag route from Lebanon, Ky., to Campbellsville, who is well known throughout the State,

CAMPBELLVILLE, KY., Jan. 30th, 1878.

J. W. Morrill & Co., Louisville, Ky.—Gents:—The Kendall's Spavin Cure you sent me some time ago has proved invaluable in all cases for which I used it: sprains, sore back, galled shoulders, windgalls and scratches. Fortunately, I did not have any stock with spavins at the time.

Yours respectfully,

GEORGE BORDERS.

KENDALL'S SPAVIN CURE.

Dr. B. J. KENDALL & Co.,—Gents:—Enclosed please find 25 cents for which send me one of your new horse books and oblige. I have tried your Kendall's Spavin Cure in a case of Rheumatic Gout and find it an excellent remedy.

Yours, &c., &c.,

J. W. HUNT.

KENDALL'S SPAVIN CURE.

B. J. KENDALL & Co.,—Gents:—Having got a horse book of you, by mail, a year ago, the contents of which persuaded me to try Kendall's Spavin Cure on the hind leg of one of my horses, which was badly swollen and could not be reduced by any other remedy. I got two bottles of Kendall's Spavin Cure, of Preston & Luddeth, druggists of Waseca, which completely cured my horse. About five years ago I had a three year old colt: sweetened very bad, I used your remedy as given in your book, without howling, and I must say to your credit that the colt is entirely cured, which is a surprise not only to myself, but also to my neighbors. You sent me the book for the trifling sum of 25 cents, and if I could not get another like it, I would not take twenty five dollars for it.

Yours truly,

GEO. MATHEWS.

KENDALL'S SPAVIN CURE ON HUMAN FLESH.

WEST ENOSBURGH, VT., Feb. 15th, 1881.

Dr. B. J. KENDALL & Co.,—Gents:—Several months ago I injured my knee joint, which caused an enlargement to grow, the size of a large walnut, and caused me very severe pain all the time for four or five weeks, when I began to use Kendall's Spavin Cure, with the most satisfactory results. It has completely removed the enlargement and stopped the lameness and pain. I have long known it to be excellent for horses, but now I know it to be the best liniment for human flesh that I am acquainted with.

Yours truly,

T. P. LAWRENCE.

Send address for Illustrated Circular, which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

DAVID LANDRETH & SONS, SEED GROWERS, PHILADELPHIA

Seeds for the South.

To produce the best crops, Southern Farmers and Gardeners must use seeds grown with special reference to the Southern climate.

The fact that our Southern trade has more than doubled in the past three years is proof enough that our seeds are adapted to the climate and soils of the South. We give special attention to the wants of our Southern customers, and aim to offer them only such seeds as shall help (with good culture) to produce great crops.

The following are some of our Southern specialties :

COTTON SEEDS.—Jones' Improved Prolific, Ozier Silk, McKibbin's Hybrid, Herlong.

CORN FOR THE SOUTH.—Several improved varieties especially adapted to the Southern climate. The South requires very different Corn from the North, and we have got the best.

WHEAT FOR THE SOUTH.—The South demands different varieties from those that flourish North. We have got them.

OATS FOR THE SOUTH.—We have them ; rust proof.

GRASSES FOR THE SOUTH.—We have them.

VEGETABLE SEEDS FOR THE SOUTH.—Our Northern grown seeds have been proven, by thirty years' trial in the South, to be of rare quality and adaptability to this section.

SIBLEY'S FARMER'S ALMANAC.—Contains the \$500 prize essays on Southern Gardening, by successful Southern cultivators, and descriptions of the best varieties. Price 10 cents.

GRAIN AND FARM SEEDS MANUAL.—Contains the only correct history of Indian Corn ever written ; histories of all the Cereals ; instructive articles on the culture of all farm crops ; descriptions of best varieties. Price 10 cents.

A BARGAIN! The splendid dwelling house of the late Judge Stephen, in the village of Bladensburg, Md., *4 miles from Washington City.* This beautiful property consists of the fine historic mansion built of English brick, with extensive grounds filled with trees bearing fine fruits. The house contains seventeen rooms, including a LARGE AND ELEGANT DRAWING ROOM, with superb cellars. The out-buildings attached to the dwelling are, a Brick Kitchen communicating with the main building by a passage way, Smoke House and Dairy, all in good condition and of brick, also a stable and cow house. An abundant supply of the *finest water*, both spring and pump, convenient to the dwelling. There is adjacent a hand-som-ly laid out garden, well enclosed, and also *10 acres of rich land* suitable for gardening, etc. This lot has upon it an orchard of *Choice Fruit Trees*, all in bearing. This property would be a suitable residence for a gentleman of wealth, or for one engaged in business in Washington, which is of ready access either by rail or turn-pike travel.  Persons wishing to purchase or rent are invited to view the premises. Enquire at the office of the MARYLAND FARMER, or the undersigned,

Sedgwick Steel Wire Fence.

It is the only general purpose Wire Fence in use, being a strong net work without barbs. It will turn dogs, pigs, sheep and poultry, as well as the most vicious stock without injury to either fence or stock. It is just the fence for farms, gardens, stock ranges and railroads, and very neat for lawns, parks, school lots and cemeteries. Covered with rust proof paint, (or galvanized,) it will last a life-time. It is superior to boards or barbed wire in every respect. We ask for a fair trial, knowing it will wear itself into favor. The SEDGWICK GATES, made of wrought iron pipe and steel wire, defy all competition in neatness, strength and durability. We also make the best and cheapest All Iron Automatic or Self-opening Gate, also cheapest and neatest all iron fence. Best Wire Stretcher and Post Augur. THE BEST AND THE CHEAPEST.

MERITS OF BARB FENCE

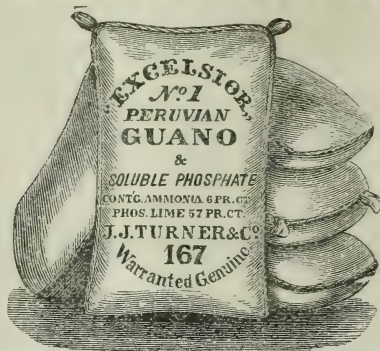

It is the cheapest fence made; the most durable; is not affected by fire, wind or flood; does not cause snow drifts; takes fewer fence posts; stock cannot push it down; it protects itself—acts on the defensive, it takes but little room; you can cultivate close to it; weeds are easily kept out of it; requires but little labor to put it up; you can draw at one load enough to fence a farm; and can fence a good sized farm in a day; it is the greatest practical invention of the age, and has come to be the farm and railroad fence of the country.

Sheep culture presents a striking example of the inefficiency of the fencing now in use. No branch of farming is more profitable if sheep could be protected. But no fence heretofore tried, except this, will keep sheep in, and dogs and wolves out. It is easily seen, thus overcoming one of the main objects to plain fence wire. Its length is not effected by heat or cold. The wire is put up on spools in lengths of about one hundred rods, weighing 100 to 110 lbs., so as to be easily handled. One pound measures 15 feet in length; 352 lbs. measures a mile. Send for circulars and special prices.

TO CORN GROWERS. J. J. TURNER & CO., "EXCELSIOR,"

1858

1882

Forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvian Guano, and the ever durable fertilizing properties of Bones. In fine dry powder, prepared expressly for drilling.

After twenty-four Years' experience by the Planters of Maryland and Virginia in the use of "EXCELSIOR," it is their unanimous opinion that an application of 100 pounds of "EXCELSIOR" is equal to from 200 to 300 pounds of any other fertilizer or guano, and, therefore, fully 100 per cent cheaper.

Farmers should see that every bag is branded with the Analysis, and our name, in red letters, which we hope will prove sufficient protection against counterfeit articles. All further abuse of our name being disclaimed for the future. A large supply of Peruvian Guano for sale,

To Corn Growers. J. J. TURNER & CO., AMMONIATED BONE SUPER PHOSPHATE,

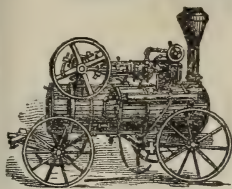

Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other Fertilizer sold, except our "Excelsior," and is made with the same care and supervision; uniform quality guaranteed; in excellent order for drilling.

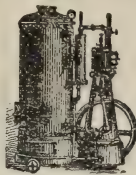

Farmers should see that every Bag is branded with the analysis and our name in red letters, which we hope will prove sufficient protection against counterfeit articles. ALL FURTHER ABUSE OF OUR NAME BEING DISCLAIMED FOR THE FUTURE.

PROPRIETORS.

This RESTAURANT is the oldest and most extensive in its accommodations of any in the city.

The BAR is filled with the finest of all kinds of LIQUORS. The TABLES are covered with the best substantial food the markets afford, besides, at the earliest moment they can be procured in the different seasons, every variety of delicacy that land and water furnish, in

BIRDS, GAME, FISH, FRUITS & VEGETABLES.

Prices moderate. The crowds, which lunch and dine daily, attest public approbation of the superior management of the house.

It is a convenient place for travellers, who stop only a few hours or a day in the city, to get their meals. It is the popular resort of country gentlemen from the counties, particularly from Southern Maryland, being convenient to Railroads and Steamboats, and in the midst of the business portion of the city.

The Proprietors will be grateful for the continuance of the extensive patronage they now enjoy, and will do their best to give entire satisfaction to all visitors. Jan-ly.

SUBSCRIBE FOR THE PRACTICAL FARMER. READ THE TESTIMONY OF ITS LIFE-LONG READERS.

Have taken "Practical Farmer" 27 years. It is one of the best agricultural weeklies.—A. SCOTT, Del. Co., Pa. Been a subscriber for 25 years, find it a pleasant and helpful visitor.—C. W. GALT, Manassas, Pa. The second paper I read on list of seven, been taking it many years. Like it!—D. B. LAYSHAW, Vincent, Pa. Enclosed find subscription for my 15th year.—A. H. CATES, Camden, Del. Have taken "Farmer" 26 years. Consider it indispensable in every farmer's family.—J. W. COOPER, Whiteleyburg, Del. Samples of letters received daily, showing the high esteem in which the paper is held. It is a paper, of course weekly, bristling with good things concerning Agriculture, the Garden, Horticulture, Live Stock, the Apiary, etc. Its "Family Circle," "Youth's," "Household," and "Hygiene" departments contain the ripest thoughts of well-known writers. Everything pervasive of pure morality is excluded from its columns. Its complete market reports keep the farmer posted on current prices of farm products. The paper PAR EXCELLENCE for all engaged in rural pursuits.

To enable you to become its practical friend, as thousands have already done, we offer to send it on trial for six months, 26 weeks, and make you a free gift of a beautiful sugar and salt spoon, per illustration, on receipt of 54 cts. (in 3-cet. postage stamps) (the 4 cts. above the subscription being the exact cost of packing and mailing the spoons). These goods have been secured after much patient hunt, in order to give our readers something of intrinsic value.

Made on a base of hardened steel, nickel plated, and then heavily plated with pure coin silver, they are alike attractive and durable. There will be no delay in sending off these premiums, we have them on hand (having purchased the manufacturers' entire stock) and want you to have them. The Practical Farmer is now in its 28th year, and its publishers have earned an enviable reputation for promptness and reliability in dealing with its patrons. A paper that can hold its subscribers for over twenty-five years, must possess high character and its publishers be thoroughly responsible. It has never made a promise to its subscribers which it has not promptly fulfilled. Four neighbors may club and remit money order for \$2. and spoons (four set) will be sent with paper 6 months to each. This advertisement may not appear again. Address, THE FARMER CO., Philadelphia, Pa.

MEN

PERFECTION ATTAINED!

THE PATENT IMPROVED

SPRING TOOTH HARROW.

Tried and tested successfully, and gave general satisfaction. Pronounced by competent judges to be far superior to any heretofore offered on the market.

Farmers can save the price of one of these Harrows in a very short time, in time and labor saved in going over the ground, as once going over prepares and mellows it up in such condition to receive the seed as would not be obtained in going over three or four times with any of the ordinary harrows. It is also the best seed-coverer in the world.

Ground prepared by this Harrow will yield a larger crop than by any other agricultural implement, because it pulverizes the ground thoroughly, cuts the soil from the bottom, shakes it up, and leaves it in a loose condition; in so doing it shakes out all grass, thistles and weeds, leaving them on the surface in the sun, where they die much quicker than if half covered up.

We are now entering upon the third year as manufacturers of Spring-Tooth Harrows. We have made several important improvements this last season, whereby our Harrows do better work, and with lighter draft than last season.

WARRANTEE.—Any Teeth broken or bent by fair usage, the first season, will be replaced. Broken or bent Teeth to be returned to the place where the Harrow was purchased.

TO FARMERS.—The teeth are set right (cut four inches) for nearly all kinds of work. To change the depth, place on floor or level surface, points down; frame resting on skids, joist or blocks, the desired depth. Loosen bolt, place Tooth, in position and tighten. On new broken sod, drive diagonally over the furrows. Hitch team far enough away to make harrow run level. A few hours experience will prove to you that you have one of the best implements ever manufactured.

THE "STANDARD" COMBINED RIDING OR WALKING CULTIVATOR.

This machine was first introduced to the public in 1878, and at once became a general favorite, and has since maintained its position as the BEST COMBINED CULTIVATOR MADE. It can be changed from a riding to a walking cultivator in a moment's time by simply placing the single tree in a lower hitch it not being necessary to shift the frame or seat, or remove a single bolt. Hand levers similar to those used on our riding machine, are used on this machine. The beams are long and having the shovels back of the wheel, it is impossible to catch trash between the shovels and the wheel.

THE "STANDARD" CORN PLANTERS.

PLANTS TWO ROWS AT SAME TIME. For simplicity, durability and perfect working qualities, are unequalled. We claim the "Standard" to be the *lightest draft planter made*. The depth of planting can be regulated by adjustable steel-bearing shoes. The distance between the rows can be adjusted to 3 feet 6 inches, or 3 feet 8 inches. The driver's and dropper's seats are both adjustable, to suit the weights of the operators. Our gravity cut-off is the most perfect cut-off in use. It neither cuts nor crushes the corn. It has neither springs nor rubbers to wear out. The open heel enables both of the attendants to see the corn from the time it leaves the seed box until it is deposited in the ground.

Domestic Recipes.

TO MAKE A GOOD LINIMENT that should be kept on hand ready for use in cases of bruises and sprains on horses or for use in house, add one-half ounce oil of wormwood to four ounces of alcohol.

NEW BREAD PUDDING.—Put all scraps of bread into the oven until they become a nice brown, roll them while hot quite fine. For a good-sized pudding take half a pound of crumbs, quarter of a pound of currants or raisins, one pint of milk, one teaspoonful of allspice and one pint of boiling water. Pour the boiling water over the crumbs; stir them well, and let them soak until soft, then take all the ingredients, mix well, rub the pie dish with beef dripping, fill it, put some more dripping or butter on the top of the pudding, and bake half an hour. This pudding is a general favorite with children and those who like a plain dish.

A PRUNE PUDDING may be something new to some one. Heat a little more than a pint of sweet milk to the boiling point, then stir in gradually a little cold milk in which you have rubbed smooth a heaping tablespoonful of corn-starch; add sugar to suit your taste; three well-beaten eggs, about a tablespoonful of butter, and a little grated nutmeg. Let this come to a boil, then pour it in a buttered pudding dish, first adding a cupful of stewed prunes, with the stones taken out. Bake for from 15 to 20 minutes, according to the state of the oven. Serve with or without sauce. A little cream improves it if poured over it when placed in saucers.

RECIPES for chocolate caramels are many and varying. The one here given is much used and simple. Take of grated chocolate, milk, molasses and sugar one cupful each; piece of butter the size of an egg. Boil until it will harden when dropped into cold water. Flavor with vanilla. Put on buttered tins, and mark off into squares when partly cool.

are sent anywhere on trial to operate against all other Presses, the customer keeping the one that suits best. No one has ever dared show up any other Press, as Dederick's Press is known to be beyond competition, and will bale at less expense with twice the rapidity and load more in a car than any other. The only way inferior machines can be sold is to deceive the inexperienced by ridiculously false statements, and thus sell without sight or seeing, and swindle the purchaser. Working any other Press alongside of Dederick's always sells the purchaser a Dederick Press, and all know it too well to show up. If the music selected amounts to just \$1, send only the 15 pictures, your name and address. If in excess of \$1, postage stamps may be enclosed for such excess.

We make this liberal offer because we desire to give a present sufficiently large to induce every one to give Dobbins' Electric Soap a trial long enough to know just how good it is. If, after trial, they continue to use the soap for years, we shall be repaid. If they only use the fifteen bars, getting the dollar's worth of music gratis, we shall lose money. This shows our confidence. The Soap can be bought of all grocers—the music can only be got of us. See that our name is on each wrapper. **Name this paper.**

A box of this Soap contains sixty bars. Any lady buying a box, and sending us sixty cuts of Mrs. Fogy, can select music to the amount of \$4.50. This Soap improves with age, and you are not asked to buy a useless article, but one you use every week.

ROLAND CHILLED PLOWS.

Every farmer in Maryland should use the "Roland." The Mouldboard is harder than steel. They will do more work than any other Plow with the same amount of draft. They run level and easy to the plowman. They will scour in any soil. Having the reversible slip point, sloping landside and chilled shares, they cost less for repairs than any other plow in the market. Made in Baltimore, the repairs can always be obtained without delay. The workmanship, material and finish is of the best. There are fourteen sizes and kinds, and they are suited to all kinds of soil. Send for descriptive circular.

CHAMPION GRAIN DRILL.

This Drill has force feed distributors for both wheat and grass seed, and has the only fertilizer distributor that will not clog, and will evenly distribute wet and sticky phosphate. It will sow grain, grass seed and fertilizer more satisfactorily than any other drill in America. It is the simplest and strongest drill made. It is more easily managed and less liable to get out of order than any drill in the market. As it is the leading drill in this market, and several thousands have been sold during during the past few years, a large stock of repairs is always on hand. Send for circular.

BRITISH MIXTURE.

The popularity of this celebrated fertilizer is not due alone to the price, but to the fact that its effects are uniformly good, and that it has been found the equal of the highest priced and best phosphates in the market. It gives more value for each dollar paid than any other fertilizer in the land. Send for circular and price list.

The Poet says—

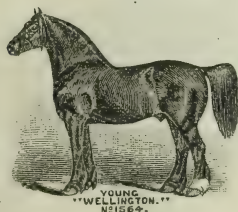

Would you have flowers in place of weeds?
 Give to your garden O. K. seeds;
 Your fields will blossom as the rose,
 If "O. K. Seeds" the farmer sows.
 Your fruitage thrive beneath the rain,
 That comes to kiss the golden grain,
 And prove how wise is he who heeds
 Our song in praise of O. K. Seeds,
 Your toils will not have been in vain,
 A rich reward will be your gain,
 In comfort, ease and well earned rest,
 If O. K. Seeds your fields have blest.
 Thus, when Autumn comes and goes,
 And brings bleak winter's winds and snows,
 Plenty will crown the closing year,
 And fill your days with grateful cheer.

KENDALL'S SPAVIN CURE!

It cures Spavins, Splints, Ringbones, Curbs and all similar blemishes and removes the bunch without **2:05** blistering. For man it is now known to be one of the best if not the best liniment ever discovered.

THE MOST SUCCESSFUL REMEDY ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

KENDALL'S SPAVIN CURE.

B. J. KENDALL & Co.,—Gents :—This is to certify that I have used Kendall's Spavin Cure and have found it to be all it is recommended to be, and in fact more too; I have removed by using the above, Callous, Bone Spavins, Ring Bones, Splints, and can cheerfully testify and recommend it to be the best thing for any bony substance I have ever used, and I have tried many, as I have made that my study for years.

HAMILTON, MO., June 14th, 1881.

Respectfully yours,

P. V. CRIST.

KENDALL'S SPAVIN CURE.

The following letter was written to our agent in Louisville, Kentucky, by the owner of the stage route from Lebanon, Ky., to Campbellsville, who is well known throughout the State,

CAMPBELLVILLE, KY., Jan. 30th, 1878.

J. W. Morrill & Co., Louisville, Ky.—Gents :—The Kendall's Spavin Cure you sent me some time ago has proved invaluable in all cases for which I used it: sprains, sore back, galled shoulders, windgalls and scratches. Fortunately, I did not have any stock with spavins at the time.

Yours respectfully,

GEORGE BORDERS.

KENDALL'S SPAVIN CURE.

Dr. B. J. KENDALL & Co.,—Gents :—Enclosed please find 25 cents for which send me one of your new horse books and oblige. I have tried your Kendall's Spavin Cure in a case of Rheumatic Gout and find it an excellent remedy.

SAVANNAH, GA., Dec. 23, 1880.

Yours, &c., &c.,

J. W. HUNT.

KENDALL'S SPAVIN CURE.

B. J. KENDALL & Co.,—Gents :—Having got a horse book of you, by mail, a year ago, the contents of which persuaded me to try Kendall's Spavin Cure on the hind leg of one of my horses, which was badly swollen and could not be reduced by any other remedy. I got two bottles of Kendall's Spavin Cure, of Preston & Luddeth, druggists of Waseca, which completely cured my horse. About five years ago I had a three year old colt sweenied very bad, I used your remedy as given in your book, without rowelling, and I must say to your credit that the colt is entirely cured, which is a surprise not only to myself, but also to my neighbors. You sent me the book for the trifling sum of 25 cents, and if I could not get another like it, I would not take twenty five dollars for it.

Yours truly,

GEO. MATHEWS.

KENDALL'S SPAVIN CURE ON HUMAN FLESH.

WEST ENOSBURGH, VT., Feb. 15th, 1881.

Dr. B. J. KENDALL & Co.,—Gents :—Several months ago I injured my knee joint, which caused an enlargement to grow, the size of a large walnut, and caused me very severe pain all the time for four or five weeks, when I began to use Kendall's Spavin Cure, with the most satisfactory results. It has completely removed the enlargement and stopped the lameness and pain. I have long known it to be excellent for horses, but now I know it to be the best liniment for human flesh that I am acquainted with.

Yours truly,

T. P. LAWRENCE.

Send address for Illustrated Circular, which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price \$1 per bottle, or 6 bottles for \$5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, Dr. B. J. KENDALL & Co., Enosburgh Falls, Vt.

The Railroads of the United States and Canadas put in more ECLIPSE MILLS than all others put together. We export more than all others combined. Our Mill is not sold as a cheap Mill, but as the best Mill in the world. For the last six years I have never received a cent for repairs of any of my Mills that I have put up, and have replaced several other mills by the ECLIPSE. We make 18 sizes from 8½ to 60 feet in diameter, from two-man to forty-horse power, and used for pumping from wells, springs, brooks and rivers. Also have POWER MILLS for grinding grain, shelling corn, sawing wood, cutting fodder, &c. I furnish Mills separate, or will contract for a whole job, including tower, pumps, piping, &c., plain or ornamental, and will guarantee to give satisfaction. FOR SPRING OF 1883.

**HAMILTON EASTER & SONS,
OF BALTIMORE,**

Desire to call the attention of the readers of this paper to the advantage which they can present, as an inducement to parties to make their purchases from them.

First.—They have had an experience of over 50 years in business, in which time, from a small concern they have built up their present large trade by fair dealing, without misrepresentation and without urging any one to buy. One price, and that price marked in plain figures on every article.

Next.—We keep on hand a Very Large and Varied Stock, embracing Goods of every class, from the most expensive, but no article that we do not "wear at any price"—only such as we believe will prove of good value for the price paid.

Our various departments include Low-Priced Medium and Fine Dressed Goods, Black Silks, Colored Silks, Mourning Goods, Linen Goods, and all Housekeeping Dry Goods. Blankets, Quilts, Comforts, Druggists, Matings, Domestic Cotton Goods, and Domestic Fabrics of all kinds.

The Woolen Department

Includes Goods for Men's and Boys' Wear, in all the New Styles of Suits—Cheviots, Cloths, Cassimeres, and also White and Colored Flannels.

Hosiery, Gloves and Merino Underwear in all sizes, for Ladies Misses, Boys and Men of any kind and description.

Ladies' and Misses' Wraps and Shawls, Ladies' Muslin Underwear, Laces, Edgings, Ruffings, Scarfs, Ribbons, Nets, &c.

Ginghams, Calicoes, Chintzes, Cretannes, Satins, White Muslin Dress Goods, Nansook, Swiss and Cambric Embroideries, Buttons, Notions, &c.

Samples will be sent to parties who give us plain and full directions of about the price wanted, colors preferred, &c.

FOUR POINTED STEEL BARB WIRE.

THE BEST AND THE CHEAPEST.

MERITS OF BARB FENCE

It is the cheapest fence made; the most durable; is not affected by fire, wind or flood; does not cause snow drifts; takes fewer fence posts; stock cannot push it down; it protects itself—acts on the defensive; it takes but little room; you can cultivate close to it; weeds are easily kept out of it; requires but little labor to put it up; you can draw at one load enough to fence a farm; and can fence a good sized farm in a day; it is the greatest practical invention of the age, and has come to be the farm and railroad fence of the country.

Sheep culture presents a striking example of the inefficiency of the fencing now in use. No branch of farming is more profitable if sheep could be protected. But no fence heretofore tried, except this, will keep sheep in, and dogs and wolves out.

It is easily seen, thus overcoming one of the main objects to plain fence wire. Its length is not effected by heat or cold. The wire is put up on spools in lengths of about one hundred rods, weighing 100 to 110 lbs., so as to be easily handled. One pound measures 15 feet in length; 352 lbs. measures a mile. Send for circulars and special prices.

A BARGAIN! The splendid dwelling house of the late Judge Stephen, in the village of Bladensburg, Md., *4 miles from Washington City.* This beautiful property consists of the fine historic mansion built of English brick, with extensive grounds filled with trees bearing fine fruits. The house contains seventeen rooms, including a **LARGE AND ELEGANT DRAWING ROOM**, with superb cellars. The out-buildings attached to the dwelling are, a Brick Kitchen communicating with the main building by a passage way, Smoke House and Dairy, all in good condition and of brick, also a stable and cow house. An abundant supply of the *finest water*, both spring and pump, convenient to the dwelling. There is adjacent a handsomely laid out garden, well enclosed, and also **10 acres of rich land** suitable for gardening, etc. This lot has upon it an orchard of **Choice Fruit Trees**, all in bearing. This property would be a suitable residence for a gentleman of wealth, or for one engaged in business in Washington, which is of ready access either by rail or turn-pike travel. Persons wishing to purchase or rent are invited to view the premises. Enquire at the office of the MARYLAND FARMER, or the undersigned.

Seeds for the South.

To produce the best crops, Southern Farmers and Gardeners must use seeds grown with special reference to the Southern climate.

The fact that our Southern trade has more than doubled in the past three years is proof enough that our seeds are adapted to the climate and soils of the South. We give special attention to the wants of our Southern customers, and aim to offer them only such seeds as shall help (with good culture) to produce great crops.

The following are some of our Southern specialties :

COTTON SEEDS.—Jones' Improved Prolific, Ozier Silk, McKibbin's Hybrid, Herlong.

CORN FOR THE SOUTH.—Several improved varieties especially adapted to the Southern climate. The South requires very different Corn from the North, and we have got the best.

WHEAT FOR THE SOUTH.—The South demands different varieties from those that flourish North. We have got them.

OATS FOR THE SOUTH.—We have them ; rust proof.

GRASSES FOR THE SOUTH.—We have them.

VEGETABLE SEEDS FOR THE SOUTH.—Our Northern grown seeds have been proven, by thirty years' trial in the South, to be of rare quality and adaptability to this section.

SIBLEY'S FARMER'S ALMANAC.—Contains the \$500 prize essays on Southern Gardening, by successful Southern cultivators, and descriptions of the best varieties. Price 10 cents.

GRAIN AND FARM SEEDS MANUAL.—Contains the only correct history of Indian Corn ever written ; histories of all the Cereals ; instructive articles on the culture of all farm crops ; descriptions of best varieties. Price 10 cents.

Forming the most concentrated, universal and durable fertilizer ever offered to the farmer--combining all the stimulating qualities of Peruvian Guano, and the ever durable fertilizing properties of Bones. In fine dry powder, prepared expressly for drilling.

After twenty-five Years' experience by the Planters of Maryland and Virginia in the use of "EXCELSIOR," it is their unanimous opinion that an application of 100 pounds of "EXCELSIOR" is equal to from 200 to 300 pounds of any other fertilizer or guano, and, therefore, fully 100 per cent cheaper.

Farmers should see that every bag is branded with the Analysis, and our name, in red letters, which we hope will prove sufficient protection against counterfeit articles. All further abuse of our name being disclaimed for the future. A large supply of Peruvian Guano for sale, Feb-ly

To Corn Growers. J. J. TURNER & CO., AMMONIATED BONE SUPER PHOSPHATE,

Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other Fertilizer sold, except our "Excelsior," and is made with the same care and supervision; uniform quality guaranteed; in excellent order for drilling.

Farmers should see that every Bag is branded with the analysis and our name in red letters, which we hope will prove sufficient protection against counterfeit articles. ALL FURTHER ABUSE OF OUR NAME BEING DISCLAIMED FOR THE FUTURE.

A Free Gift.

At a very large outlay we have had issued a very fine engraving in colors, (size 28x40 inches, nearly 2½ feet wide and over 3 feet long,) representing "an Australian Scene," and their manner of traveling in that country, with Ostriches as a motor.

We desire to become better known to the people, and our proposition is, to such as will send us 18 cents in postage stamps, we will furnish this fine piece of art by mail, which amount is required to pay the expense of postage, packing, and cost of advertising the picture; address COLUMBUS BUGGY CO., manufacturers of strictly first-class vehicles only.

PROPRIETORS.

This RESTAURANT is the oldest and most extensive in its accommodations of any in the city.

The BAR is filled with the finest of all kinds of LIQUORS. The TABLES are covered with the best substantial food the markets afford, besides, at the earliest moment they can be procured in the different seasons, every variety of delicacy that land and water furnish, in

BIRDS, GAME, FISH, FRUITS & VEGETABLES.

Prices moderate. The crowds, which lunch and dine daily, attest public approbation of the superior management of the house.

It is a convenient place for travellers, who stop only a few hours or a day in the city, to get their meals. It is the popular resort of country gentlemen from the counties, particularly from Southern Maryland, being convenient to Railroads and Steamboats, and in the midst of the business portion of the city.

The Proprietors will be grateful for the continuance of the extensive patronage they now enjoy, and will do their best to give entire satisfaction to all visitors

By using the **Carbonate of Lime "Duster."** It can be used for scattering any Powder or Fine Ground Fertilizer.

Carbonate of Lime, The Most Economical Fertilizer in use.

Crops of oats, corn, wheat, rye, buckwheat, garden truck &c., have been greatly benefitted by its use.

It can be drilled, sown broad-cast, or put to the hill.

Read testimonial from—

Ashville, N. C., Feb. 5, 1883.

Dear Sir:—I have used your Carbonate of Lime for Corn, Potatoes and Wheat, and am satisfied it is the cheapest and best plant food I ever used. I used it alongside of a high assidulated S. C. Rock, using at the rate of \$4.25 per acre of the S. C. Rock and \$2.25 of the Carbonate of Lime. The corn was fully one-fourth better where the ground Limestone was used (which my neighbors will testify to). My wheat is standing the winter quite as well with it as where I used phosphate and manure. I shall want 15 tons of it this spring.

Its character and reputation are of the highest, and Subscribers rarely drop from our lists. It has 16 pages, published weekly, at \$2.00 per annum. *We want 75,000 new Subscribers in two months, and offer as Premiums the Steel-Plate Engravings and*

100 GOOD IMPROVED FARMS Located in the States of Kansas, Missouri, Iowa, Nebraska and Dakota, aggregating **16,630 ACRES AND WORTH \$140,000.**

These Farms are all in good condition, and are in size from \$0 to \$60 acres, and worth from \$600 to \$10,000 each. The Farms will be conveyed by Warranty Deed, and a clear and perfect Title shown from the United States down. They are all ready to occupy, and will be productive homes from the start. As high as **30 BUSHELS OF WHEAT** per acre was harvested from some of these Farms last year. All of these lands are just as good and will produce as much under like circumstances. The tenancies are such that possession can be given at once. **How you may obtain one of the Farms.** Subscribe for the "PRACTICAL FARMER." Immediately upon receiving the Subscription price—\$2.00, a receipt and the current number of the *Farmer* will be mailed to the sender, his name entered upon our subscription list, and the paper continued for one year. As soon as we have 10,000 new Subscribers registered on our books, or in ten days from date, we will award to each of them a premium, aggregating in value \$20,000, in such a manner that each subscriber will have a fair and equal opportunity to obtain one of the Farms and Engravings. In the same way the second and following series of 10,000 Subscribers will receive their Premiums until the entire \$150,000 worth of property is given away. These Farms and Engravings are intended as premiums to our Subscribers. The distribution of these is entirely gratuitous upon our part, and is intended by us as a means of dividing with our subscribers the profits of the year. The name and address of those securing the valuable Premiums will be published in the PRACTICAL FARMER.

Having made up our mind to secure, at any cost, the largest circulation of any Agricultural Paper in the World, we have resolved to forego all profits and give our Subscribers the Farms and Engravings for the benefit derived from the present and future large circulation. A sample Paper, containing description of the Engravings and of the 100 Farms, with a description of the improvements, dimensions of houses, etc., will be sent free.

CLUB RATES. In order that your name and your friends names may be among the first series of 10,000 subscribers to whom the first \$20,000 worth of property will be awarded, subscribe at once and get up clubs in your neighborhood immediately. **Go to work at once.** Show the paper containing the list of Farms and description of improvements. If you will get 10 Subscribers and send \$20, we will give the getter-up of the Club a subscription for himself **FREE**, which will give him equal right with other subscribers to obtain one of the Farms. For 20 subscribers and \$40 we will give two extra subscriptions; for 25 subscribers and \$50, three extra subscriptions; for 30 subscribers, four extra subscriptions; for 35 subscribers and \$70, five extra subscriptions; for 40 subscribers and \$80, six extra subscriptions; for 45 subscribers seven extra subscriptions; and for 50 subscribers and \$100, we will give eight extra subscriptions. The extra subscriptions can be sent to any one to whom the getter-up of the Club desires. Each of whom will have an equal opportunity to obtain one of the Farms. **By this means you may get the 960 acre Farm.** Let every reader of this advertisement send at least one name with his own, and we will get the 75,000 subscribers and will distribute the \$150,000 worth of property at once. Remember you may get a Farm worth \$3,000 or \$10,000, free of every encumbrance.

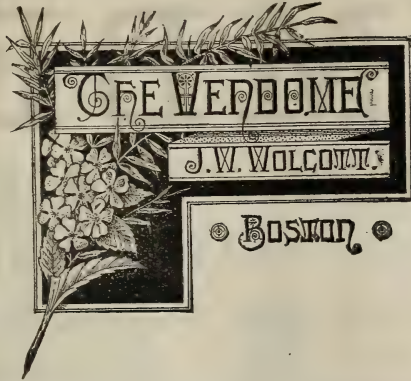

IMPORTANT!—As a matter of security to our Subscribers the Deeds and Abstracts of Title to all the Farms have been deposited with the **Union Trust Company of Philadelphia, Pa.**

KIRKWOOD'S MILL

—FOR—

Private Water Supply and Stock Pumping.

MANUFACTURED BY

R. C. KIRKWOOD,

Ellicott City, Md.

I wish to call your attention to the superior merits of the Kirkwood Iron Wind Mill. I claim the following advantages over other mills now in use:

1st. The construction of the wheel is superior in points of durability and strength and symmetry than any other, as it is composed entirely of Iron and Steel, which cannot shrink warp or shake loose, by exposure to weather, as wooden wheels will do. 2nd. It is the most powerful, as it has more wind surface, having no arms, the vanes covering the entire face of the wheel and shaped so as to receive the wind to the best advantage. 3rd. It is the safest, as it has a very narrow edge, being less than 6 inch in a 10 feet wheel, and presenting less resistance than any other Iron Wheel in a storm.

4th. RATE OF SPEED. Owing to the principle of construction it can be built lighter, and run with less wind and at greater speed, without injury, than any other wheel in use. 5th. Capacity for pumping, being lighter, requiring less wind and running at a greater rate of speed, it will pump more water than any other wheel in use.

The Mill is governed automatically and will take care of itself in any storm. It has long bearing surface, and the very best material is used in its construction, thus making it a Wind engine of unequalled durability, power, safety and beauty. For price and other particulars, address the manufacturer. my6t

THE WILLIAMS EVAPORATOR!

For the Preservation of all kinds of Fruit and Vegetables. During the 10 years it has proved the only *practical* Evaporator constructed, and operated on strictly philosophical principles. It is the cheapest machine sold for quantity and quality produced, and is the only one that will do as much or more than is guaranteed. It will evaporate double the amount of any other machine, with one half the help, and no more fuel, besides the quality of the work is far superior, as all can learn by inquiring of first-class dealers in New York or Boston. It is practically fire proof. Send for our circulars and investigate before buying. Manufactured by S. E. & J. M. SPROUT, Muncy, Lycoming Co., Pa., for the Eastern, Middle, and Southern States, and Canadas, and by JOHN WILLIAMS & SON, Kalamazoo, Michigan, for the West and Southwest. J. S. The New Bag for Fertilizers!

HORNER & HYDE'S PATENT BAG

Prepared by the Baltimore Non-Corrosive Bag Co.,

46 NORTH HOLIDAY STREET,

Has established itself throughout the country as the best Bag ever used for *holding, shipping or storing strong phosphates* and other fertilizers. Over 100,000 of them have already been ordered by the trade, and very strong testimonials from manufacturers of fertilizers, shippers and consumers, have been given of this Patent Bag's merit and power over all other bags.

The bag referred to is precisely the same kind as now used, only *it is made to resist the acids and strong ingredients contained in the various fertilizers* which eat up and destroy so many bags annually, at the same time it is much tougher, stronger and more durable otherwise than the plain Burlap Bag. It will safely carry strong fertilizers to country stations, allow storing them from season to season, and when empty of fertilizers, be of great value to farmers for other uses. This Patent Bag is well known to all manufacturers of fertilizers and many of the leading houses are using them in large quantities in this and other markets.

 Ask your shipper to send your fertilizers in Horner & Hyde's Patent Bag and insist on getting them. An old Maryland Farmer says they are worth 10 or 12 cents to him for long farm use after he gets them and empties the fertilizer. WM. H. HORNER, of Baltimore, is the Gen'l Agent for this bag.

THE "STANDARD" COMBINED RIDING OR WALKING CULTIVATOR.

This machine was first introduced to the public in 1878, and at once became a general favorite, and has since maintained its position as the **BEST COMBINED CULTIVATOR MADE**. It can be changed from a riding to a walking cultivator in a moment's time by simply placing the single tree in a lower hitch it not being necessary to shift the frame or seat, or remove a single bolt. Hand levers similar to those used on our riding machine, are used on this machine. The beams are long and having the shovels *back* of the wheel, it is impossible to catch trash between the shovels and the wheel.

THE "STANDARD" CORN PLANTERS.

PLANTS TWO ROWS AT SAME TIME. For simplicity, durability and perfect working qualities, are unequalled. We claim the "Standard" to be the *lightest draft planter made*. The depth of planting can be regulated by adjustable steel-bearing shoes. The distance between the rows can be adjusted to 3 feet 6 inches, or 3 feet 8 inches. The driver's and dropper's seats are both adjustable, to suit the weights of the operators. Our gravity cut-off is the most perfect cut-off in use. It neither cuts nor crushes the corn. It has neither springs nor rubbers to wear out. The open heel enables both of the attendants to see the corn from the time it leaves the seed box until it is deposited in the ground.

Frying Fish.

The following sensible remarks are made by a correspondent of the *Germantown Telegraph*, upon this subject, about which so many claim to know, but show on trial such lamentable ignorance and want of both taste and knowledge of hygienic laws:

"What is the reason that so few cooks and even housekeepers know how to fry a fish? Why will they persist in frying them brown or hard and sometimes to a coal? A person must have the delicacy of taste of the ostrich and its digestive powers, too, to eat such a fearful preparation. I know of nothing more unwholesome or unfit to eat. Fish, when large enough, including rockfish, bass, perch, trout, salmon, &c., should invariably be *boiled*, if one desires the full flavor of the fish in its most delicious form, when it is highly nutritious and wholesome. But there are certain fish *too moist* to boil, such as the shad, whitefish, Spanish mackerel, &c. These should be *broiled* carefully, and they are in perfection. Certain persons think that this can be done only over hickory coals, or on a plank. I formerly thought so, too, but I have got over this fastidiousness, after trial upon trial, fortified by the opinions of those who have dined with us many times. On two occasions we had five-pound shad cooked, one by wood coals on a plank, and the other over anthracite coals, in a common range, and no person present was able to tell the difference. It is all nonsense to go to the trouble to provide hickory coals and *plank* a shad or whitefish, when the anthracite coals and a common gridiron *will answer just as well*. One thing should be borne in mind, that no fish should be cooked until it is ready to be eaten. Let fish stand fifteen minutes to half an hour after being cooked, and it is literally not fit to eat, the flavor being gone.

BOILED RICE PUDDING.—Wash a teacupful of good rice in some water, scald a pudding-cloth, and tie the rice in the cloth, allowing plenty of room for it to swell; quite three times the space occupied by the uncooked rice must be allowed for it in the cloth; put it into a saucepan of cold water, let it come slowly to the boil, let it boil one and a-half hours; serve with sweet sauce, golden sirup, or milk and moist sugar. The sweet sauce may be made the same as melted butter, adding a table-spoonful of good sugar.

Free Lunch Cadets, Sousa		35

If the music selected amounts to just \$1, send only the 15 pictures, your name and address. If in excess of \$1, postage stamps may be enclosed for such excess.

We make this liberal offer because we desire to give a present sufficiently large to induce every one to give Dobbins' Electric Soap a trial long enough to know just how good it is. If, after trial, they continue to use the soap for years, we shall be repaid. If they only use the fifteen bars, getting the dollar's worth of music gratis, we shall lose money. This shows our confidence. The Soap can be bought of all grocers—the music can only be got of us. See that our name is on each wrapper. Name this paper.

A box of this Soap contains sixty bars. Any lady buying a box, and sending us sixty cuts of Mrs. Foggy, can select music to the amount of **\$4.50**. This Soap improves with age, and you are not asked to buy a useless article, but one you use every week.

ROLAND CHILLED PLOWS.

Every farmer in Maryland should use the "Roland." The Mouldboard is harder than steel. They will do more work than any other Plow with the same amount of draft. They run level and easy to the plowman. They will scour in any soil. Having the reversible slip point, sloping landside and chilled shares, they cost less for repairs than any other plow in the market. Made in Baltimore, the repairs can always be obtained without delay. The workmanship, material and finish is of the best. There are fourteen sizes and kinds, and they are suited to all kinds of soil. Send for descriptive circular.

CHAMPION GRAIN DRILL.

This Drill has force feed distributors for both wheat and grass seed, and has the only fertilizer distributor that will not clog, and will evenly distribute wet and sticky phosphate. It will sow grain, grass seed and fertilizer more satisfactorily than any other drill in America. It is the simplest and strongest drill made. It is more easily managed and less liable to get out of order than any drill in the market. As it is the leading drill in this market, and several thousands have been sold during the past few years, a large stock of repairs is always on hand. Send for circular.

BRITISH MIXTURE.

The popularity of this celebrated fertilizer is not due alone to the price, but to the fact that its effects are uniformly good, and that it has been found the equal of the highest priced and best phosphates in the market. It gives more value for each dollar paid than any other fertilizer in the land. Send for circular and price list.

The Roland Chilled Plow.

There is no farm implement which has been so greatly improved during the past five years as THE PLOW, and the Roland Chilled stands pre-eminent amongst the best, as

THE BEST PLOW IN AMERICA.

Its superiority over common cast plows is so great that hundreds of farmers have thrown aside their entire stock of old fashioned Plows, being convinced that they would save money by doing this and replacing with the "Roland Chilled." The Poet says—

Would you have flowers in place of weeds?
Give to your garden O. K. seeds:
Your fields will blossom as the rose,
If "O. K. Seeds" the farmer sows.

Your fruitage thrive beneath the rain,
That comes to kiss the golden grain,
And prove how wise is he who heeds
Our song in praise of O. K. Seeds.

Your toils will not have been in vain,
A rich reward will be your gain,
In comfort, ease and well earned rest,
If O. K. Seeds your fields have blest.

Thus, when Autumn comes and goes,
And brings bleak winter's winds and snows,
Plenty will crown the closing year,
And fill your days with grateful cheer.

KENDALL'S SPAVIN CURE.

SAVANNAH, GA., Dec. 23, 1880.

Dr. B. J. KENDALL & Co.,—Gents:—Enclosed please find 25 cents for which send me one of your new horse books and oblige. I have tried your Kendall's Spavin Cure in a case of Rheumatic Gout and find it an excellent remedy.

Yours, &c., &c.,

J. W. HUNT.

KENDALL'S SPAVIN CURE.

WILTON, MINN., Jan. 11th, 1881.

B. J. KENDALL & Co.,—Gents:—Having got a horse book of you, by mail, a year ago, the contents of which persuaded me to try Kendall's Spavin Cure on the hind leg of one of my horses, which was badly swollen and could not be reduced by any other remedy. I got two bottles of Kendall's Spavin Cure, of Preston & Luddeth, druggists of Waseca, which completely cured my horse. About five years ago I had a three year old colt sweenied very bad, I used your remedy as given in your book, without rowelling, and I must say to your credit that the colt is entirely cured, which is a surprise not only to myself, but also to my neighbors. You sent me the book for the trifling sum of 25 cents, and if I could not get another like it, I would not take twenty five dollars for it.

Yours truly,

GEO. MATHEWS.

KENDALL'S SPAVIN CURE ON HUMAN FLESH.

WEST ENOSBURGH, VT., Feb. 15th, 1881.

Dr. B. J. KENDALL & Co.,—Gents:—Several months ago I injured my knee joint, which caused an enlargement to grow, the size of a large walnut, and caused me very severe pain all the time for four or five weeks, when I began to use Kendall's Spavin Cure, with the most satisfactory results. It has completely removed the enlargement and stopped the lameness and pain. I have long known it to be excellent for horses, but now I know it to be the best liniment for human flesh that I am acquainted with.

Yours truly,

T. P. LAWRENCE.

Send address for Illustrated Circular, which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Our Mill is not sold as a cheap Mill, but as the best Mill in the world. For the last six years I have never received a cent for repairs of any of my Mills that I have put up, and have replaced several other mills by the ECLIPSE. We make 18 sizes from 8½ to 60 feet in diameter, from two-man to forty-horse power, and used for pumping from wells, springs, brooks and rivers. Also have POWER MILLS for grinding grain, shelling corn, sawing wood, cutting fodder, &c. I furnish Mills separate, or will contract for a whole job, including tower, pumps, piping, &c., plain or ornamental, and will guarantee to give satisfaction. Seeds for the South.

To produce the best crops, Southern Farmers and Gardeners must use seeds grown with special reference to the Southern climate.

The fact that our Southern trade has more than doubled in the past three years is proof enough that our seeds are adapted to the climate and soils of the South. We give special attention to the wants of our Southern customers, and aim to offer them only such seeds as shall help (with good culture) to produce great crops.

The following are some of our Southern specialties :

COTTON SEEDS.—Jones' Improved Prolific, Ozier Silk, McKibbin's Hybrid, Herlong.

CORN FOR THE SOUTH.—Several improved varieties especially adapted to the Southern climate. The South requires very different Corn from the North, and we have got the best.

WHEAT FOR THE SOUTH.—The South demands different varieties from those that flourish North. We have got them.

OATS FOR THE SOUTH.—We have them ; rust proof.

GRASSES FOR THE SOUTH.—We have them.

VEGETABLE SEEDS FOR THE SOUTH.—Our Northern grown seeds have been proven, by thirty years' trial in the South, to be of rare quality and adaptability to this section.

SIBLEY'S FARMER'S ALMANAC.—Contains the \$500 prize essays on Southern Gardening, by successful Southern cultivators, and descriptions of the best varieties. Price 10 cents.

GRAIN AND FARM SEEDS MANUAL.—Contains the only correct history of Indian Corn ever written ; histories of all the Cereals ; instructive articles on the culture of all farm crops ; descriptions of best varieties. Price 10 cents.

KIRKWOOD'S
Patent Iron Wind Engine
Ellicott City, Md.

KIRKWOOD'S MILL

—FOR—

Private Water Supply and Stock Pumping,

MANUFACTURED BY

R. C. KIRKWOOD,

Ellicott City, Md.

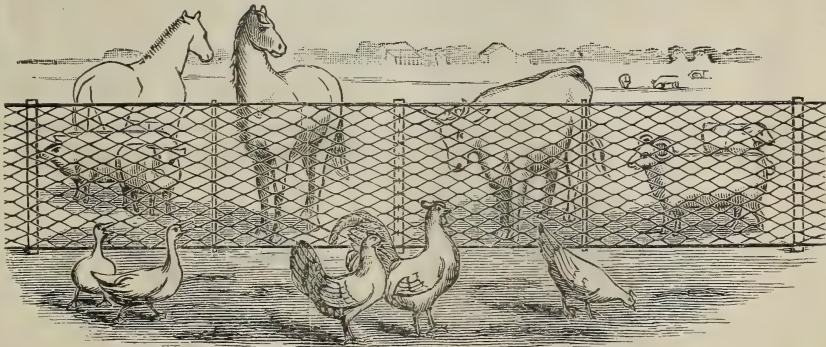

I wish to call your attention to the superior merits of the Kirkwood Iron Wind Mill. I claim the following advantages over other mills now in use :

1st. The construction of the wheel is superior in points of durability and strength and symmetry than any other, as it is composed entirely of Iron and Steel, which cannot shrink warpe or shake loose, by exposure to weather, as wooden wheels will do. 2nd. It is the most powerful, as it has more wind surface, having no arms, the vanes covering the entire face of the wheel and shaped so as to receive the wind to the best advantage. 3rd. It is the safest, as it has a very narrow edge, being less than 6 inch in a 10 feet wheel, and presenting less resistance than any other Iron Wheel in a storm.

4th. RATE OF SPEED. Owing to the principle of construction it can be built lighter, and run with less wind and at greater speed, without injury, than any other wheel in use. 5th. Capacity for pumping, being lighter, requiring less wind and running at a greater rate of speed, it will pump more water than any other wheel in use.

The Mill is governed automatically and will take care of itself in any storm. It has long bearing surface, and the very best material is used in its construction, thus making it a Wind engine of unequalled durability, power, safety and beauty. For price and other particulars, address the manufacturer. my6t R. G. KIRKWOOD, Ellicott City, Md.

SEDGWICK STEEL WIRE FENCE.

It is the only general purpose Wire Fence in use, being a strong net work without barbs. It will turn dogs, pigs, sheep and poultry, as well as the most vicious stock without injury to either fence or stock. It is just the fence for farms, gardens, stock ranges and railroads, and very neat for lawns, parks, school lots and cemeteries. Covered with rust proof paint, (or galvanized,) it will last a life-time. It is superior to boards or barbed wire in every respect. We ask for a fair trial, knowing it will wear itself into favor. The SEDGWICK GATES, made of wrought iron pipe and steel wire, defy all competition in neatness, strength and durability. We also make the best and cheapest All Iron Automatic or Self-opening Gate, also cheapest and neatest all iron fence. Best Wire Stretcher and Post Augur. THE BEST AND THE CHEAPEST.

MERITS OF BARB FENCE

It is the cheapest fence made; the most durable; is not affected by fire, wind or flood; does not cause snow drifts; takes fewer fence posts; stock cannot push it down; it protects itself—acts on the defensive, it takes but little room; you can cultivate close to it; weeds are easily kept out of it; requires but little labor to put it up; you can draw at one load enough to fence a farm; and can fence a good sized farm in a day; it is the greatest practical invention of the age, and has come to be the farm and railroad fence of the country.

Sheep culture presents a striking example of the inefficiency of the fencing now in use. No branch of farming is more profitable if sheep could be protected. But no fence heretofore tried, except this, will keep sheep in, and dogs and wolves out.

It is easily seen, thus overcoming one of the main objects to plain fence wire. Its length is not effected by heat or cold. The wire is put up on spools in lengths of about one hundred rods, weighing 100 to 110 lbs., so as to be easily handled. One pound measures 15 feet in length; 352 lbs. measures a mile. Send for circulars and special prices.

1858

1883

Forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvian Guano, and the ever durable fertilizing properties of Bones. In fine dry powder, prepared expressly for drilling.

After twenty-five Years' experience by the Planters of Maryland and Virginia in the use of "EXCELSIOR," it is their unanimous opinion that an application of 100 pounds of "EXCELSIOR" is equal to from 200 to 300 pounds of any other fertilizer or guano, and, therefore, fully 100 per cent cheaper.

Farmers should see that every bag is branded with the Analysis, and our name, in red letters, which we hope will prove sufficient protection against counterfeit articles. All further abuse of our name being disclaimed for the future. A large supply of Peruvian Guano for sale, Feb-19

To Corn Growers. J. J. TURNER & CO., AMMONIATED BONE SUPER PHOSPHATE,

Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other Fertilizer sold, except our "Excelsior," and is made with the same care and supervision; uniform quality guaranteed; in excellent order for drilling.

Farmers should see that every Bag is branded with the analysis and our name in red letters, which we hope will prove sufficient protection against counterfeit articles. ALL FURTHER ABUSE OF OUR NAME BEING DISCLAIMED FOR THE FUTURE.

THE WILLIAMS EVAPORATOR!

For the Preservation of all kinds of Fruit and Vegetables. During the 10 years it has proved the only practical Evaporator constructed, and operated on strictly philosophical principles. It is the cheapest machine sold for quantity and quality produced, and is the only one that will do as much or more than is guaranteed. It will evaporate double the amount of any other machine, with one half the help, and no more fuel, besides the quality of the work is far superior, as all can learn by inquiring of first-class dealers in New York or Boston. It is practically fire proof. Send for our circulars and investigate before buying. Manufactured by S. E. & J. M. By using the **Carbonate of Lime "Duster."** It can be used for scattering any Powder or Fine Ground Fertilizer.

Carbonate of Lime,

The Most Economical Fertilizer in use.

Crops of oats, corn, wheat, rye, buckwheat, garden truck &c., have been greatly benefitted by its use.

It can be drilled, sown broad-cast, or put to the hill.

Read testimonial from —

Ashville, N. C., Feb. 5, 1883.

Dear Sir:—I have used your Carbonate of Lime for Corn, Potatoes and Wheat, and am satisfied it is the cheapest and best plant food I ever used. I used it alongside of a high assidulated S. C. Rock, using at the rate of \$4.25 per acre of the S. C. Rock and \$2.25 of the Carbonate of Lime. The corn was fully one-fourth better where the ground Limestone was used (which my neighbors will testify to). My wheat is standing the winter quite as well with it as where I used phosphate and manure. I shall want 15 tons of it this spring.

The New Bag for Fertilizers!

HORNER & HYDE'S PATENT BAG

Prepared by the Baltimore Non-Corrosive Bag Co.,

46 NORTH HOLIDAY STREET,

Has established itself throughout the country as the best Bag ever used for *holding, shipping or storing strong phosphates* and other fertilizers. Over 100,000 of them have already been ordered by the trade, and very strong testimonials from manufacturers of fertilizers, shippers and consumers, have been given of this Patent Bag's merit and power over all other bags.

The bag referred to is precisely the same kind as now used, only *it is made to resist the acids and strong ingredients contained in the various fertilizers* which eat up and destroy so many bags annually, at the same time it is much tougher, stronger and more durable otherwise than the plain Burlap Bag. It will safely carry strong fertilizers to country stations, allow storing them from season to season, and when empty of fertilizers, be of great value to farmers for other uses. This Patent Bag is well known to all manufacturers of fertilizers and many of the leading houses are using them in large quantities in this and other markets.

 Ask your shipper to send your fertilizers in Horner & Hyde's Patent Bag and *insist on getting them*. An old Maryland Farmer says they are worth 10 or 12 cents to him for long farm use after he gets them and empties the fertilizer. WM. H. HORNER, of Baltimore, is the Gen'l Agent for this bag.

COATES' LOCK LEVER,

Self Dump and Spring Seat Hay and Grain Rake.

8500 SOLD THE PAST SEASON.

The large and constantly increasing demand speaks their popularity. It is the *most simply constructed and easily operated* of any in use, and for *excellence of material and durability it challenges comparison*. If you need a rake buy the COATES' and we guarantee you will be pleased.

The Independent Tooth Lock Lever Rake, is especially adapted to rough uneven surfaces and loose sandy or loamy soils, as each tooth is independent, passing easily over obstructions without scratching up the meadow.—Twenty acres a day is a fair day's work with the COATES', and you can save enough grain from twenty-five acres of stubble to pay for the rake.

GENERAL CONSTRUCTION—Particular care is taken to use only the best timber, iron and steel to build them in the strongest manner possible. The shafts and rake head are extra strong; thimble skein axles; wheels very high and well built and finished; seats easily and thoroughly braced.

The Best Self-Dump Rake in use, no ratchet wheels, friction bands or other complicated machinery about it. All done by the Driver's weight.

After thorough field trial with other Rakes, COATES' LOCK LEVER was awarded the Silver Medal at Paris World's Exposition. A child can operate the rake with ease.

Domestic Recipes.

GREEN PEA SOUP.—Take a half peck of green peas, shell them, and put the shells into a large stewpan, with three quarts of water and two tablespoonfuls of salt. Boil them for twenty minutes, then strain off the liquor and return it to the saucepan, adding the shelled peas, and boil till tender. Then take out a portion of the peas and mash the remainder with a spoon against the sides of the pan, after which add a tea-cupful of cream or milk and about two ounces of butter and a little thickening made with two teaspoonfuls of flour mixed into a thin, smooth paste with a little cold water. Stir all together, add the reserved whole peas, season with pepper and salt to taste. Make all very hot and serve.

POTATO SOUP.—One quart of milk, six large potatoes, one stalk of celery, one onion, one tablespoonful of butter. Put the milk to boil with the onion and celery. Pare potatoes and boil thirty minutes. Turn off the water, and mash fine and light. Add boiling milk, and the butter, and pepper and salt to taste. Rub through a strainer and serve immediately. A cupful of whipped cream, added when in the tureen, is a great improvement. This soup must not be allowed to stand, not even if kept hot. If served as soon as ready, it will be excellent.

LOBSTER SAUCE.—One small lobster, four tablespoonfuls of butter, two of flour, one-fifth of a teaspoonful of cayenne, two tablespoonfuls of lemon juice, one pint of boiling water. Cut the meat into dice. Pound the "coral" with one tablespoonful of the butter. Rub the flour and the remainder of the butter to a smooth paste. Add the water, pounded "coral" and butter, and the seasoning. Simmer five minutes, and then strain on the lobster. Boil up once and serve. (This sauce is for all kinds of boiled fish.)

GREEN GOOSEBERRIES.—Make a nice pudding by stirring a pint of them into a pint of batter, and either baking or boiling. Eat with very sweet sauce.

SKINNY MEN.—Wells Health Renewer restores health and vigor, cures Dyspepsia, Impotence, Sexual Debility, \$1.

ROLAND CHILLED PLOWS.

Every farmer in Maryland should use the "Roland." The Mouldboard is harder than steel. They will do more work than any other Plow with the same amount of draft. They run level and easy to the plowman. They will scour in any soil. Having the reversible slip point, sloping landside and chilled shares, they cost less for repairs than any other plow in the market. Made in Baltimore, the repairs can always be obtained without delay. The workmanship, material and finish is of the best. There are fourteen sizes and kinds, and they are suited to all kinds of soil. Send for descriptive circular.

CHAMPION GRAIN DRILL.

This Drill has force feed distributors for both wheat and grass seed, and has the only fertilizer distributor that will not clog, and will evenly distribute wet and sticky phosphate. It will sow grain, grass seed and fertilizer more satisfactorily than any other drill in America. It is the simplest and strongest drill made. It is more easily managed and less liable to get out of order than any drill in the market. As it is the leading drill in this market, and several thousands have been sold during the past few years, a large stock of repairs is always on hand. Send for circular.

BRITISH MIXTURE.

The popularity of this celebrated fertilizer is not due alone to the price, but to the fact that its effects are uniformly good, and that it has been found the equal of the highest priced and best phosphates in the market. It gives more value for each dollar paid than any other fertilizer in the land. Send for circular and price list.

The Roland Chilled Plow.

There is no farm implement which has been so greatly improved during the past five years as THE PLOW, and the Roland Chilled stands pre-eminent amongst the best, as

THE BEST PLOW IN AMERICA.

Its superiority over common cast plows is so great that hundreds of farmers have thrown aside their entire stock of old fashioned Plows, being convinced that they would save money by doing this and replacing with the "Roland Chilled." Send for description circular, setting forth the reasons why we claim so much, and giving full description of the various sizes, with prices, &c.

The Poet says—

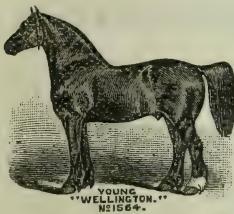

Would you have flowers in place of weeds?
 Give to your garden O. K. seeds;
 Your fields will blossom as the rose,
 If "O. K. Seeds" the farmer sows.
 Your fruitage thrive beneath the rain,
 That comes to kiss the golden grain,
 And prove how wise is he who heeds
 Our song in praise of O. K. Seeds,
 Your toils will not have been in vain,
 A rich reward will be your gain,
 In comfort, ease and well earned rest,
 If O. K. Seeds your fields have blest.
 Thus, when Autumn comes and goes,
 And brings bleak winter's winds and snows,
 Plenty will crown the closing year,
 And fill your days with grateful cheer.

KENDALL'S SPAVIN CURE!

It cures Spavins, Splints, Ringbones, Curbs and all similar blemishes and moves the bunch without blistering. For man it is now known to be one of the best if not the best liniment ever discovered.

THE MOST SUCCESSFUL REMEDY ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

KENDALL'S SPAVIN CURE.

HAMILTON, MO., June 14th, 1881.

B. J. KENDALL & Co.,—Gents:—This is to certify that I have used Kendall's Spavin Cure and have found it to be all it is recommended to be, and in fact more too; I have removed by using the above, Callous, Bone Spavins, Ring Bones, Splints, and can cheerfully testify and recommend it to be the best thing for any bony substance I have ever used, and I have tried many, as I have made that my study for years.

Respectfully yours,

P. V. CRIST.

KENDALL'S SPAVIN CURE.

The following letter was written to our agent in Louisville, Kentucky, by the owner of the stag route from Lebanon, Ky., to Campbellsville, who is well known throughout the State,

CAMPBELLVILLE, KY., Jan. 30th, 1878.

J. W. Morrill & Co., Louisville, Ky.—Gents:—The Kendall's Spavin Cure you sent me some time ago has proved invaluable in all cases for which I used it: sprains, sore back, galled shoulders, windgalls and scratches. Fortunately, I did not have any stock with spavins at the time.

Yours respectfully,

GEORGE BORDERS.

KENDALL'S SPAVIN CURE.

SAVANNAH, GA., Dec. 23, 1880.

Dr. B. J. KENDALL & Co.,—Gents:—Enclosed please find 25 cents for which send me one of your new horse books and oblige. I have tried your Kendall's Spavin Cure in a case of Rheumatic Gout and find it an excellent remedy.

Yours, &c., &c.,

J. W. HUNT.

KENDALL'S SPAVIN CURE.

WILTON, MINN., Jan. 11th, 1881.

B. J. KENDALL & Co.,—Gents:—Having got a horse book of you, by mail, a year ago, the contents of which persuaded me to try Kendall's Spavin Cure on the hind leg of one of my horses, which was badly swollen and could not be reduced by any other remedy. I got two bottles of Kendall's Spavin Cure, of Preston & Luddeth, druggists of Waseca, which completely cured my horse. About five years ago I had a three year old colt sweened very bad, I used your remedy as given in your book, without rowelling, and I must say to your credit that the colt is entirely cured, which is a surprise not only to myself, but also to my neighbors. You sent me the book for the trifling sum of 25 cents, and if I could not get another like it, I would not take twenty five dollars for it.

Yours truly,

GEO. MATHEWS.

KENDALL'S SPAVIN CURE ON HUMAN FLESH.

WEST ENOSBURGH, VT., Feb. 15th, 1881.

Dr. B. J. KENDALL & Co.,—Gents:—Several months ago I injured my knee joint, which caused an enlargement to grow, the size of a large walnut, and caused me very severe pain all the time for four or five weeks, when I began to use Kendall's Spavin Cure, with the most satisfactory results. It has completely removed the enlargement and stopped the lameness and pain. I have long known it to be excellent for horses, but now I know it to be the best liniment for human flesh that I am acquainted with.

Yours truly,

T. P. LAWRENCE.

DAVID LANDRETH & SONS, SEED GROWERS. PHILADELPHIA

Seeds for the South.

To produce the best crops, Southern Farmers and Gardeners must use seeds grown with special reference to the Southern climate.

The fact that our Southern trade has more than doubled in the past three years is proof enough that our seeds are adapted to the climate and soils of the South. We give special attention to the wants of our Southern customers, and aim to offer them only such seeds as shall help (with good culture) to produce great crops.

The following are some of our Southern specialties :

COTTON SEEDS.—Jones' Improved Prolific, Ozier Silk, McKibbin's Hybrid, Herlong.

CORN FOR THE SOUTH.—Several improved varieties especially adapted to the Southern climate. The South requires very different Corn from the North, and we have got the best.

WHEAT FOR THE SOUTH.—The South demands different varieties from those that flourish North. We have got them.

OATS FOR THE SOUTH.—We have them ; rust proof.

GRASSES FOR THE SOUTH.—We have them.

VEGETABLE SEEDS FOR THE SOUTH.—Our Northern grown seeds have been proven, by thirty years' trial in the South, to be of rare quality and adaptability to this section.

SIBLEY'S FARMER'S ALMANAC.—Contains the \$500 prize essays on Southern Gardening, by successful Southern cultivators, and descriptions of the best varieties. Price 10 cents.

GRAIN AND FARM SEEDS MANUAL.—Contains the only correct history of Indian Corn ever written ; histories of all the Cereals ; instructive articles on the culture of all farm crops ; descriptions of best varieties. Price 10 cents.

KIRKWOOD'S MILL

—FOR—

Private Water Supply and Stock Pumping,

MANUFACTURED BY

R. C. KIRKWOOD,

Ellicott City, Md.

I wish to call your attention to the superior merits of the Kirkwood Iron Wind Mill. I claim the following advantages over other mills now in use:

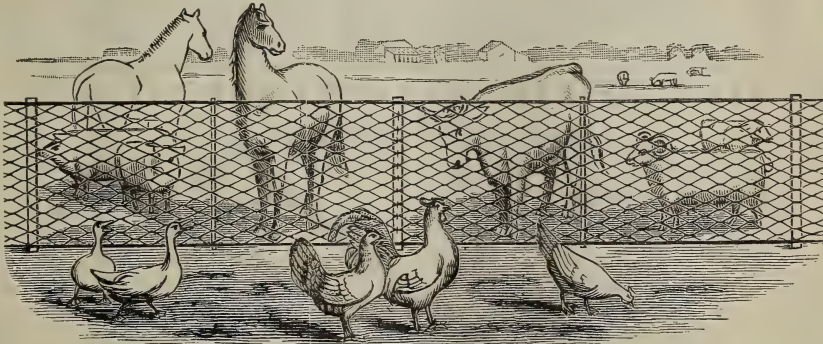

1st. The construction of the wheel is superior in points of durability and strength and symmetry than any other, as it is composed entirely of Iron and Steel, which cannot shrink warpe or shake loose, by exposure to weather, as wooden wheels will do. 2nd. It is the most powerful, as it has more wind surface, having no arms, the vanes covering the entire face of the wheel and shaped so as to receive the wind to the best advantage. 3rd. It is the safest, as it has a very narrow edge, being less than 6 inch in a 10 feet wheel, and presenting less resistance than any other Iron Wheel in a storm.

4th. RATE OF SPEED. Owing to the principle of construction it can be built lighter, and run with less wind and at greater speed, without injury, than any other wheel in use. 5th. Capacity for pumping, being lighter, requiring less wind and running at a greater rate of speed, it will pump more water than any other wheel in use.

The Mill is governed automatically and will take care of itself in any storm. It has long bearing surface, and the very best material is used in its construction, thus making it a Wind engine of unequalled durability, power, safety and beauty. For price and other particulars, address the manufacturer. R. G. KIRKWOOD, Ellicott City, Md.

SEDGWICK STEEL WIRE FENCE.

It is the only general purpose Wire Fence in use, being a strong net work without barbs. It will turn dogs, pigs, sheep and poultry, as well as the most vicious stock without injury to either fence or stock. It is just the fence for farms, gardens, stock ranges and railroads, and very neat for lawns, parks, school lots and cemeteries. Covered with rust proof paint, (or galvanized,) it will last a life-time. It is superior to boards or barbed wire in every respect. We ask for a fair trial, knowing it will wear itself into favor. The SEDGWICK GATES, made of wrought iron pipe and steel wire, defy all competition in neatness, strength and durability. We also make the best and cheapest All Iron Automatic or Self-opening Gate, also cheapest and neatest all iron fence. Best Wire Stretcher and Post Augur. For prices and particulars, ask hardware dealers, or address, mentioning paper,

FOR SPRING OF 1883.

**HAMILTON EASTER & SONS,
OF BALTIMORE,**

Desire to call the attention of the readers of this paper to the advantage which they can present, as an inducement to parties to make their purchases from them.

First.—They have had an experience of over 50 years in business, in which time, from a small concern they have built up their present large trade by fair dealing, without misrepresentation and without trying any one to buy. Second.—The price of the goods is marked in plain figures, and the price is the same to all.

Next.—We keep on hand a Very Large and Varied Stock, embracing Goods of every class, from Low-Priced to the most expensive; but no article that would be "dear at any price"—only such as we believe will prove of good value for the price paid.

Our various departments include Low-Priced Medium and Fine Dressed Goods, Black Silks, Colored Silks, Mourning Goods, Linen Goods, and all Housekeeping Dry Goods, Blankets, Quilts, Comforts, Druggists, Matings, Domestic Cotton Goods, and Domestic Fabrics of all kinds.

'The Woolen Department'

Includes Goods for Men's and Boys' Wear, in all the New Styles of Suitings—Cheviots, Cloth Cassimeres, and also White and Colored Flannels.

Hosiery, Gloves and Merino Underwear in all sizes, for Ladies Misses, Boys and Men of any kind and description.

Ladies and Misses' Wraps and Shawls, Ladies' Muslin Underwear, Laces, Edgings, Rufflings, Scarfs, Ribbons, Nets, &c.

FOUR POINTED STEEL BARB WIRE.

THE BEST AND THE CHEAPEST.

MERITS OF BARB FENCE

It is the cheapest fence made; the most durable; is not affected by fire, wind or flood; does not cause snow drifts; takes fewer fence posts; stock cannot push it down; it protects itself—acts on the defensive, it takes but little room; you can cultivate close to it; weeds are easily kept out of it; requires but little labor to put it up; you can draw at one load enough to fence a farm; and can fence a good sized farm in a day; it is the greatest practical invention of the age, and has come to be the farm and railroad fence of the country.

Sheep culture presents a striking example of the inefficiency of the fencing now in use. No branch of farming is more profitable if sheep could be protected. But no fence heretofore tried, except this, will keep sheep in, and dogs and wolves out.

It is easily seen, thus overcoming one of the main objects to plain fence wire. Its length is not effected by heat or cold. The wire is put up on spools in lengths of about one hundred rods, weighing 100 to 110 lbs., so as to be easily handled. One pound measures 15 feet in length; 352 lbs. measures a mile. Send for circulars and special prices.

"EXCELSIOR,"

1858

1883

Forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvian Guano, and the ever durable fertilizing properties of Bones. In fine dry powder, prepared expressly for drilling.

After twenty-five Years' experience by the Planters of Maryland and Virginia in the use of "EXCELSIOR," it is their unanimous opinion that an application of 100 pounds of "EXCELSIOR" is equal to from 200 to 300 pounds of any other fertilizer or guano, and, therefore, fully 100 per cent cheaper.

Farmers should see that every bag is branded with the Analysis, and our name, in red letters, which we hope will prove sufficient protection against counterfeit articles. All further abuse of our name being disclaimed for the future. A large supply of Peruvian Guano for sale.

THE WILLIAMS EVAPORATOR!

For the Preservation of all kinds of Fruit and Vegetables. During the 10 years it has proved the only practical Evaporator constructed, and operated on strictly philosophical principles. It is the cheapest machine sold for quantity and quality produced, and is the only one that will do as much or more than is guaranteed. It will evaporate double the amount of any other machine, with one half the help, and no more fuel, besides the quality of the work is far superior, as all can learn by inquiring of first-class dealers in New York or Boston. It is practically fire proof. Send for our circulars and investigate before buying. Manufactured by S. E. & J. M. SPROUT, Muncy, Lycoming Co., Pa., for the Eastern, Middle, and Southern States, and Canadas, and by JOHN WILLIAMS & SON, Kalamazoo, Michigan, for the West and Southwest. J. S. “MARYLAND FARMER”

PURCHASING AGENCY,

141 WEST PRATT STREET,

BALTIMORE, MD.

Farmers and Planters will have, through this Agency, the experience of one who has been forty years engaged in this business, and well acquainted with every article that is required for the farm and plantation. We will furnish—

Farm Implements of every Description,

Seeds, Fertilizers, High-bred, Fashionable, and Herd Book Stock, Poultry, &c.
and any article wanted upon the Farm, in large or small quantities
at the **LOWEST CASH PRICES.**

Every farmer and planter should have his Implements, Fertilizers, Seeds, &c., at lowest prices, and of best quality, to enable him to prosper, and we believe our Agency will accomplish this end. All orders entrusted to our care will be promptly filled, and strict attention given to enquiries.

TERMS:—In order to supply our customers at the lowest prices, it will be necessary for the cash, or P. O. order, draft on New York or Baltimore, to accompany the order, unless the parties reside in a city or town where there is a bank or banking house with instructions to draw at sight.

In ordering goods from us, please write distinctly the shipping address and Post Office, that remittances may be promptly acknowledged, and goods shipped properly. Address all orders and communications to

COATES' LOCK LEVER,

Self Dump and Spring Seat Hay and Grain Rake.

8500 SOLD THE PAST SEASON.

The large and constantly increasing demand speaks their popularity. It is the *most simply constructed and easily operated* of any in use, and for *excellence of material and durability it challenges comparison*. If you need a rake buy the COATES' and we guarantee you will be pleased.

The Independent Tooth Lock Lever Rake, is especially adapted to rough uneven surfaces and loose sandy or loamy soils, as each tooth is independent, passing easily over obstructions without scratching up the meadow.—Twenty acres a day is a fair day's work with the COATES', and you can save enough grain from twenty-five acres of stubble to pay for the rake.

GENERAL CONSTRUCTION—Particular care is taken to use only the best timber, iron and steel to build them in the strongest manner possible. The shafts and rake head are extra strong; thimble skein axles; wheels very high and well built and finished; seats easily and thoroughly braced.

The Best Self-Dump Rake in use, no ratchet wheels, friction bands or other complicated machinery about it. All done by the Driver's weight.

After thorough field trial with other Rakes, COATES' LOCK LEVER was awarded the Silver Medal at Paris World's Exposition. A child can operate the rake with ease.

SLINGLUFF'S DISSOLVED GROUND BONE,

Containing 3 per cent. of Ammonia.

SLINGLUFF'S Dissolved South American Bone Ash.

Containing 40 to 44 per cent. Soluble Bone Phosphate,

SLINGLUFF'S DISSOLVED SOUTH CAROLINA PHOSPHATE.

Containing 28 to 32 per cent. Soluble Bone Phosphate.

To meet the demand for a high grade Fertilizer, we are offering SLINGLUFF'S NATIVE SUPER-PHOSPHATE—prepared entirely from Animal Bone—HIGHLY AMMONIATED.

Also, SLINGLUFF'S No. 1 AMMONIATED SUPER-PHOSPHATE. This we can confidently recommend as one of the best fertilizers sold in the market at a low price.

The New Bag for Fertilizers!

HORNER & HYDE'S PATENT BAG

Prepared by the Baltimore Non-Corrosive Bag Co.,

46 NORTH HOLIDAY STREET,

Has established itself throughout the country as the best Bag ever used for *holding, shipping or storing strong phosphates* and other fertilizers. Over 100,000 of them have already been ordered by the trade, and very strong testimonials from manufacturers of fertilizers, shippers and consumers, have been given of this Patent Bag's merit and power over all other bags.

The bag referred to is precisely the same kind as now used, only *it is made to resist the acids and strong ingredients contained in the various fertilizers* which eat up and destroy so many bags annually, at the same time it is much tougher, stronger and more durable otherwise than the plain Burlap Bag. It will safely carry strong fertilizers to country stations, allow storing them from season to season, and when empty of fertilizers, be of great value to farmers for other uses. This Patent Bag is well known to all manufacturers of fertilizers and many of the leading houses are using them in large quantities in this and other markets.

 Ask your shipper to send your fertilizers in Horner & Hyde's Patent Bag and insist on getting them. An old Maryland Farmer says they are worth 10 or 12 cents to him for long farm use after he gets them and empties the fertilizer. WM. H. HORNER, of Baltimore, is the Gen'l Agent for this bag.

Music Without a Teacher

SOPERS' INSTANTANEOUS GUIDE to the PIANO or ORGAN.—Enables any person to play without study. By this method you are taught twenty familiar tunes in about a man's minutes. We don't expect to make you "stars," but start you and develop your capacity. As the boy said: "It is easy enough to learn to swim, if he could only get a foot hold," so will thousands find it easy to become excellent musicians when they once get started. A lady writes: "It ought to be in the reach of every one. Thousands would become interested in music who would never otherwise." A gentleman who had listened for years to his wife and daughter without being able to play a tune, learned to play the whole twenty tunes one Sunday while the family had gone to church. A lady writes: "Your Guide has brought much happiness to my family. My husband says it is the best purchase he ever made." Another: "I could not measure its value to me with money." The entire twenty pieces of familiar music and accompaniments, with full instructions by mail, post paid, for only ONE DOLLAR. Only think of it. You would pay any teacher more than that for a single lesson or tune. Address all orders,

“SPRINGFIELD,”

THE MODEL FARM OF MARYLAND.

2,000 ACRES. Formerly owned by the late George Patterson. In the highest state of cultivation; large mansion, with all modern conveniences, beautifully situated, overlooking 1,500 acres of cleared land belonging to the farm; span grapery, green houses, and all necessary outbuildings, reservoir supplying bath-rooms, watering garden, grapery, and green houses. Four other main dwellings, with stabling and other outbuildings for each. Fifteen smaller houses for employees. Frame grist and saw mill, one of the best in the State, situated on a fine stream, running the entire length of the estate. Stabling for 300 head of cows and horses, together with sheep sheds, &c.; 40 hay barracks or barns situated in the different fields. Almost the entire farm is fenced with post and rail. Scarcely any waste land; several hundred acres of meadow land; sufficient chestnut to keep farm fenced. Within $\frac{1}{2}$ a mile of B. & O. R. R., and same distance from Liberty and Balto. Turnpike, 20 miles from Balto. In addition to being the finest grazing farm in the State, (if not the finest east of the Alleghanies,) its average yield of crops last year was as follows—33 bushels of wheat 50 to 60 bushels of corn, 40 bushels of oats, and 2 to $2\frac{1}{2}$ tons of hay to the acre. The farm, besides the cropping and grazing, is used as a dairy farm, and milk shipped to Baltimore daily. It needs but a visit to verify the above. Will be sold as one farm, or in small tracts to suit purchasers. Address the owner,

HOTEL FISKE

OLD ORCHARD, ME.

SEASON OF 1883.

HOTEL AND LOCATION.—This hotel erected last season, has accommodations for three hundred people. It is located on the sites of the old Fiske and St. Cloud Hotels, which were burned in 1881, and has one of the finest views at this famous resort, commanding the most extensive ocean and country scenery. Its close proximity to the ocean assures a delightful breeze at all times.

FURNISHINGS.—This hotel is not only new in construction, but contains every modern improvement for ease and convenience of its guests. The furnishing is first-class throughout, and the rooms, which are spacious and well ventilated, are fitted up in Black Walnut and Ash, with beds of Hair, and Elastic Felt Mattresses. Many of the rooms are in suites for the accommodation of families and parties.

THE GRAND PIAZZA (the prominent feature of a Summer Hotel) is constructed with special reference to being the "living room" of the guests. It is broad and well elevated, extending around three sides of the house, facing the east, south and west, affording a delightful promenade of over five hundred feet.

THE TEMPERATURE is remarkably even and the nights are always cool and refreshing.

TERMS are from \$12 to \$20 per week, according to location of rooms; special rates for the season. Half rates for June and September.

OXFORD DOWNS.

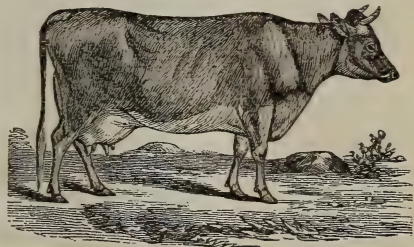

As noticed in the *Country Gentleman*, *Breeders Gazette*, and the press of the country, generally, I purchased in January last of T. S. Cooper, his entire flock of imported Oxford downs, headed by the celebrated prize winning ram, Royal Liverpool, "The Best Son of Freeland" Intending this flock for his own breeding, Mr. Cooper personally selected the finest ewes from the flocks of Messrs. John Treadwell and George Street, conceded to be the foremost of English breeders. They are a uniform, handsome lot, carrying large, close and compact fleeces. Mr. Cooper says of them: "The best I ever imported and the finest flock in the country."

I have now for sale superb lambs, most of them imported in dam, sired by Royal Liverpool, three years first at the Royal Show—Earl of Oxford, 1st Royal, 1882—Hobbs, No. 5, Wallis No. 7 and Lord Derby. A few—sired in this country by imported Rothram, Albert of Linden and a son of Street's Perfection. Full pedigree with each lamb.

Domestic Recipes.

EGGS.

Fricassee.—Boil eight eggs hard, take off the shells, cut them into four quarters; put a little butter into a stewpan, let it melt, shake in a little flour, stir it with a spoon, then put in your egg, throw a little nutmeg over all, a little salt, a good deal of shred parsley. Shake your pan around; pour in a little cream, toss the pan carefully, that you do not break the eggs. When your sauce is thick and fine, take up your eggs, pour the sauce all over them, and garnished with lemon.

Pickled.—When eggs are plentiful, boil three or four dozen in a saucepan until they are boiled hard. The shells should be carefully removed and the eggs laid carefully in large-mouthed jars, and pour over them scalding vinegar well seasoned with allspice, some ginger and a few cloves or garlic. When cold cork the jars tightly, and in a month the eggs are fit for use. This is a cheap pickle where eggs are plentiful, and for piquancy cannot be out-rivalled.

DELICIOUS PEAS.—A correspondent of the N. Y. *Tribune* gives the following; put three pints of young green peas into a saucepan of boiling water; when nearly done and tender, drain in a colander quite dry; melt two ounces of butter in a clean stew-pan, thicken evenly with a little flour, shake it over the fire but do not let it brown, mix smoothly with a gill of cream, add half a teaspoonful of white sugar, bring to a boil, pour in the peas, keep moving for two minutes till well heated, and serve hot.

GREEN PEA SOUP.—Shell a quarter of a peck of fresh green peas; throw the peas into cold water; wash the hulls and put them in a soup kettle with sufficient water to cover them; boil half an hour; strain through a colander; put the water back in the kettle; put in the peas; boil half an hour or until the peas are done, then stir in one beaten egg, one tablespoonful of flour, two of butter, a teacup of cream or milk, thoroughly mixed; season with salt and pepper, a few sprigs of mint or parsley; toast two or three slices of bread; butter them and cut them in small pieces; lay them in the soup tureen and pour the soup over them. Serve at once.

The Roland Chilled Plow.

There is no farm implement which has been so greatly improved during the past five years as THE PLOW, and the Roland Chilled stands pre-eminent amongst the best, as

THE BEST PLOW IN AMERICA.

Its superiority over common cast plows is so great that hundreds of farmers have thrown aside their entire stock of old fashioned Plows, being convinced that they would save money by doing this and replacing with the "Roland Chilled." Send for descriptive circular, setting forth the reasons why we claim so much, and giving full description of the various sizes, with prices, &c.

The Poet says—

Would you have flowers in place of weeds?
Give to your garden O. K. seeds;
Your fields will blossom as the rose,
If "O. K. Seeds" the farmer sows.

Your fruitage thrive beneath the rain,
That comes to kiss the golden grain,
And prove how wise is he who heeds
Our song in praise of O. K. Seeds,

Your toils will not have been in vain,
A rich reward will be your gain,
In comfort, ease and well earned rest,
If O. K. Seeds your fields have blest.

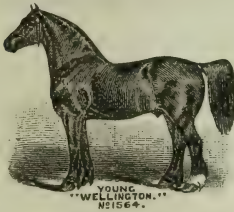

Thus, when Autumn comes and goes,
And brings bleak winter's winds and snows,
Plenty will crown the closing year,
And fill your days with grateful cheer.

KENDALL'S SPAVIN CURE!

It cures Spavins, Splints, Ringbones, Curbs and all similar blemishes and re-moves the bunch without blistering. For man it is now known to be one of the best if not the best liniment ever discovered.

THE MOST SUCCESSFUL REMEDY ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

KENDALL'S SPAVIN CURE.

HAMILTON, MO., June 14th, 1881.

B. J. KENDALL & Co.,—Gents:—This is to certify that I have used Kendall's Spavin Cure and have found it to be all it is recommended to be, and in fact more too; I have removed by using the above, Callous, Bone Spavins, Ring Bones, Splints, and can cheerfully testify and recommend it to be the best thing for any bony substance I have ever used, and I have tried many, as I have made that my study for years.

Respectfully yours,

P. V. CRIST.

KENDALL'S SPAVIN CURE.

The following letter was written to our agent in Louisville, Kentucky, by the owner of the stage route from Lebanon, Ky., to Campbellsville, who is well known throughout the State,

CAMPBELLVILLE, Ky., Jan. 30th, 1878.

J. W. Morrill & Co., Louisville, Ky.—Gents:—The Kendall's Spavin Cure you sent me some time ago has proved invaluable in all cases for which I used it: sprains, sore back, galled shoulders, windgalls and scratches. Fortunately, I did not have any stock with spavins at the time.

Yours respectfully,

GEORGE BORDERS.

KENDALL'S SPAVIN CURE.

SAVANNAH, GA., Dec. 23, 1880.

Dr. B. J. KENDALL & Co.,—Gents:—Enclosed please find 25 cents for which send me one of your new horse books and oblige. I have tried your Kendall's Spavin Cure in a case of Rheumatic Gout and find it an excellent remedy.

Yours, &c., &c.,

J. W. HUNT.

KENDALL'S SPAVIN CURE.

WILTON, MINN., Jan. 11th, 1881.

B. J. KENDALL & Co.,—Gents:—Having got a horse book of you, by mail, a year ago, the contents of which persuaded me to try Kendall's Spavin Cure on the hind leg of one of my horses, which was badly swollen and could not be reduced by any other remedy. I got two bottles of Kendall's Spavin Cure, of Preston & Luddeth, druggists of Waseca, which completely cured my horse. About five years ago I had a three year old colt sweenied very bad, I used your remedy as given in your book, without rowelling, and I must say to your credit that the colt is entirely cured, which is a surprise not only to myself, but also to my neighbors. You sent me the book for the trifling sum of 25 cents, and if I could not get another like it, I would not take twenty-five dollars for it.

Yours truly,

GEO. MATHEWS.

KENDALL'S SPAVIN CURE ON HUMAN FLESH,

WEST ENOSBURGH, VT., Feb. 15th, 1881.

Dr. B. J. KENDALL & Co.,—Gents:—Several months ago I injured my knee joint, which caused an enlargement to grow, the size of a large walnut, and caused me very severe pain all the time for four or five weeks, when I began to use Kendall's Spavin Cure, with the most satisfactory results. It has completely removed the enlargement and stopped the lameness and pain. I have long known it to be excellent for horses, but now I know it to be the best liniment for human flesh that I am acquainted with.

Yours truly,

T. P. LAWRENCE.

Send address for Illustrated Circular, which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

The Railroads of the United States and Canadas put in more ECLIPSE MILLS than all others put together. We export more than all others combined. Our Mill is not sold as a cheap Mill, but as the best Mill in the world. For the last six years I have never received a cent for repairs of any of my Mills that I have put up, and have replaced several other mills by the ECLIPSE. We make 18 sizes from 8½ to 60 feet in diameter, from two-man to forty-horse power, and used for pumping from wells, springs, brooks and rivers. Also have POWER MILLS for grinding grain, shelling corn, sawing wood, cutting fodder, &c. I furnish Mills separate, or will contract for a whole job, including tower, pumps, piping, &c., plain or ornamental, and will guarantee to give satisfaction. DAVID LANDRETH & SONS, SEED GROWERS, PHILADELPHIA

Seeds for the South.

To produce the best crops, Southern Farmers and Gardeners must use seeds grown with special reference to the Southern climate.

The fact that our Southern trade has more than doubled in the past three years is proof enough that our seeds are adapted to the climate and soils of the South. We give special attention to the wants of our Southern customers, and aim to offer them only such seeds as shall help (with good culture) to produce great crops.

The following are some of our Southern specialties :

COTTON SEEDS.—Jones' Improved Prolific, Ozier Silk, McKibbin's Hybrid, Herlong.

CORN FOR THE SOUTH.—Several improved varieties especially adapted to the Southern climate. The South requires very different Corn from the North, and we have got the best.

WHEAT FOR THE SOUTH.—The South demands different varieties from those that flourish North. We have got them.

OATS FOR THE SOUTH.—We have them ; rust proof.

GRASSES FOR THE SOUTH.—We have them.

VEGETABLE SEEDS FOR THE SOUTH.—Our Northern grown seeds have been proven, by thirty years' trial in the South, to be of rare quality and adaptability to this section.

SIBLEY'S FARMER'S ALMANAC.—Contains the \$500 prize essays on Southern Gardening, by successful Southern cultivators, and descriptions of the best varieties. Price 10 cents.

GRAIN AND FARM SEEDS MANUAL.—Contains the only correct history of Indian Corn ever written ; histories of all the Cereals ; instructive articles on the culture of all farm crops ; descriptions of best varieties. Price 10 cents.

KIRKWOOD'S MILL

Private Water Supply and Stock Pumping,

MANUFACTURED BY

R. C. KIRKWOOD,

Ellicott City, Md.

KIRKWOOD'S
Patent Iron Wind Engine
Ellicott City, Md.

I wish to call your attention to the superior merits of the Kirkwood Iron Wind Mill. I claim the following advantages over other mills now in use:

1st. The construction of the wheel is superior in points of durability and strength and symmetry than any other, as it is composed entirely of Iron and Steel, which cannot shrink warp or shake loose, by exposure to weather, as wooden wheels will do. 2nd. It is the most powerful, as it has more wind surface, having no arms, the vanes covering the entire face of the wheel and shaped so as to receive the wind to the best advantage. 3rd. It is the safest, as it has a very narrow edge, being less than 6 inch in a 10 foot wheel, and presenting less resistance than any other Iron Wheel in a storm.

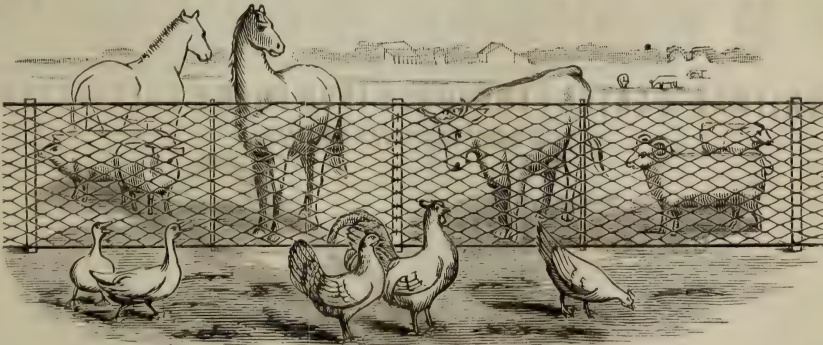

4th. RATE OF SPEED. Owing to the principle of construction it can be built lighter, and run with less wind and at greater speed, without injury, than any other wheel in use. 5th. Capacity for pumping, being lighter, requiring less wind and running at a greater rate of speed, it will pump more water than any other wheel in use.

The Mill is governed automatically and will take care of itself in any storm. It has long bearing surface, and the very best material is used in its construction, thus making it a Wind engine of unequalled durability, power, safety and beauty. For price and other particulars, address the manufacturer.

SEDGWICK STEEL WIRE FENCE.

It is the only general purpose Wire Fence in use, being a strong net work without barbs. It will turn dogs, pigs, sheep and poultry, as well as the most vicious stock without injury to either fence or stock. It is just the fence for farms, gardens, stock ranges and railroads, and very neat for lawns, parks, school lots and cemeteries. Covered with rust proof paint, (or galvanized,) it will last a life-time. It is superior to boards or barbed wire in every respect. We ask for a fair trial, knowing it will wear itself into favor. The SEDGWICK GATES, made of wrought iron pipe and steel wire, defy all competition in neatness, strength and durability. We also make the best and cheapest All Iron Automatic or Self-opening Gate, also cheapest and neatest all iron fence. Best Wire Stretcher and Post Augur. For prices and particulars, ask hardware dealers, or address, mentioning paper,

Desire to call the attention of the readers of this paper to the advantage which they can present, as an inducement to parties to make their purchases from them.

First.—They have had an experience of over 30 years in business, in which time, from a small concern they have built up their present business, made by fair dealing, without misrepresentation, and thus enabling any one to buy. One page, and that price marked in plain figures on every article.

Next.—We keep on hand a Very Large and Varied Stock, embracing Goods of every class, from Low-Priced to the most expensive; but no article that would be "dear at any price"—only such as we believe will prove of good value for the price paid.

Our various departments include Low-Priced Medium and Fine Dressed Goods, Black Silks, Colored Silks, Mourning Goods, Linen Goods, and all Housekeeping Dry Goods. Blankets, Quilts, Comforts, Druggists, Mattings, Domestic Cotton Goods, and Domestic Fabrics of all kinds.

The Woolen Department

Includes Goods for Men's and Boys' Wear, in all the New Styles of Suitings—Cheviots, Cloths Cassimeres, and also White and Colored Flannels.

Hosiery, Gloves and Merino Underwear in all sizes, for Ladies Misses, Boys and Men of any kind and description.

Ladies' and Misses' Wraps and Shawls, Ladies' Muslin Underwear, Laces, Edgings, Ruffings, Scarfs, Ribbons, Nets, &c.

Ginghams, Calicoes, Chintzes, Cretomes, Satins, White Muslin Dress Goods, Nansook, Swiss and Cambric Embroideries, Buttons, Notions, &c.

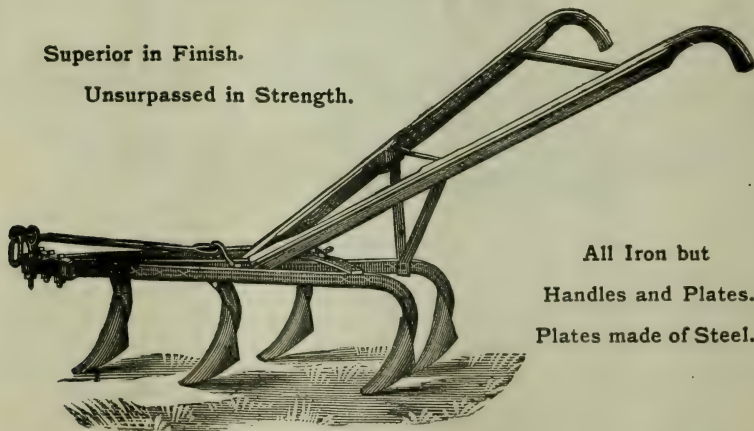

See Samples will be sent to parties who give us plain and full directions of about the price wanted, colors preferred, &c. myly

FOUR POINTED STEEL BARB WIRE.

THE BEST AND THE CHEAPEST.

MERITS OF BARB FENCE

It is the cheapest fence made; the most durable; is not affected by fire, wind or flood; does not cause snow drifts; takes fewer fence posts; stock cannot push it down; it protects itself—acts on the defensive, it takes but little room; you can cultivate close to it; weeds are easily kept out of it; requires but little labor to put it up; you can draw at one load enough to fence a farm; and can fence a good sized farm in a day; it is the greatest practical invention of the age, and has come to be the farm and railroad fence of the country.

Sheep culture presents a striking example of the inefficiency of the fencing now in use. No branch of farming is more profitable if sheep could be protected. But no fence heretofore tried, except this, will keep sheep in, and dogs and wolves out.

It is easily seen, thus overcoming one of the main objects to plain fence wire. Its length is not effected by heat or cold. The wire is put up on spools in lengths of about one hundred rods, weighing 100 to 110 lbs., so as to be easily handled. One pound measures 15 feet in length; 352 lbs. measures a mile. Send for circulars and special prices.

TO WHEAT GROWERS.

J. J. TURNER & CO.,

"EXCELSIOR,"

1858

1883

Forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvian Guano, and the ever durable fertilizing properties of Bones. In fine dry powder, prepared expressly for drilling.

After twenty-five Years' experience by the Planters of Maryland and Virginia in the use of "EXCELSIOR," it is their unanimous opinion that an application of 100 pounds of "EXCELSIOR" is equal to from 200 to 300 pounds of any other fertilizer or guano, and, therefore, fully 100 per cent cheaper.

Farmers should see that every bag is branded with the Analysis, and our name, in red letters, which we hope will prove sufficient protection against counterfeit articles. All further abuse of our name being disclaimed for the future. A large supply of Peruvian Guano for sale, Feb-1y

To Wheat Growers.

AMMONIATED

BONE SUPER PHOSPHATE,

Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other Fertilizer sold, except our "Excelsior," and is made with the same care and supervision; uniform quality guaranteed; in excellent order for drilling.

Farmers should see that every Bag is branded with the analysis and our name in red letters, which we hope will prove sufficient protection against counterfeit articles. ALL FURTHER ABUSE OF OUR NAME BEING DISCLAIMED FOR THE FUTURE.

OXFORD DOWNS.

As noticed in the *Country Gentleman*, *Breeders' Gazette*, and the press of the country, generally, I purchased in January last of T. S. Cooper, his entire flock of imported Oxford downs, headed by the celebrated prize winning ram, Royal Liverpool, "The Best Son of Freeland." Intending this flock for his own breeding, Mr. Cooper personally selected the finest ewes from the flocks of Messrs. John Treadwell and George Street, conceded to be the foremost of English breeders. They are a uniform, handsome lot, carrying large, close and compact fleeces. Mr. Cooper says of them: "The best I ever imported and the finest flock in the country."

I have now for sale superb lambs, most of them imported in dam, sired by Royal Liverpool, three years first at the Royal Show—Earl of Oxford, 1st Royal, 1882—Hobbs, No. 5, Wallis No. 7 and Lord Derby. A few—sired in this country by imported Rothram, Albert of Linden and a son of Street's Perfection. Full pedigree with each lamb.

The New Bag for Fertilizers!

HORNER & HYDE'S PATENT BAG

Prepared by the Baltimore Non-Corrosive Bag Co.,

46 NORTH HOLIDAY STREET,

Has established itself throughout the country as the best Bag ever used for *holding, shipping or storing strong phosphates* and other fertilizers. Over 100,000 of them have already been ordered by the trade, and very strong testimonials from manufacturers of fertilizers, shippers and consumers, have been given of this Patent Bag's merit and power over all other bags.

The bag referred to is precisely the same kind as now used, only *it is made to resist the acids and strong ingredients contained in the various fertilizers* which eat up and destroy so many bags annually, at the same time it is much tougher, stronger and more durable otherwise than the plain Burlap Bag and costs but a trifle more. It will safely carry strong merchantable fertilizers to country stations, allow storing them from season to season in the South or elsewhere, and when empty of fertilizers, be of great value to farmers for other uses. This Patent Bag is well known to all manufacturers of fertilizers and many of the leading houses are using them in large quantities in this and other markets. may

 *Ask your shipper* to send your fertilizers in Horner & Hyde's Patent Bag and *insist on getting them*. An old Maryland Farmer says they are worth 10 or 12 cents to him for long farm use after he gets them and empties the fertilizer. WM. H. HORNER, of Baltimore, is the Gen'l Agent for this bag.

2,000 ACRES. Formerly owned by the late George Patterson. In the highest state of cultivation ; large mansion, with all modern conveniences, beautifully situated, overlooking 1,500 acres of cleared land belonging to the farm ; span grapery, green houses, and all necessary outbuildings, reservoir supplying bath-rooms, watering garden, grapery, and green houses. Four other main dwellings, with stabling and other outbuildings for each. Fifteen smaller houses for employees. Frame grist and saw mill, one of the best in the State, situated on a fine stream, running the entire length of the estate. Stabling for 300 head of cows and horses, together with sheep sheds, &c.; 40 hay barracks or barns situated in the different fields. Almost the entire farm is fenced with post and rail. Scarcely any waste land ; several hundred acres of meadow land ; sufficient chestnut to keep farm fenced. Within $\frac{1}{2}$ a mile of B. & O. R. R., and same distance from Liberty and Balto. Turnpike, 20 miles from Balto. In addition to being the finest grazing farm in the State, (if not the finest east of the Alleghanies,) its average yield of crops last year was as follows—33 bushels of wheat 50 to 60 bushels of corn, 40 bushels of oats, and 2 to 2½ tons of hay to the acre. The farm, besides the cropping and grazing, is used as a dairy farm, and milk shipped to Baltimore daily. It needs but a visit to verify the above. Will be sold as one farm, or in small tracts to suit purchasers. Address the owner,

ROLAND CHILLED PLOWS.

Every farmer in Maryland should use the "Roland." The Mouldboard is harder than steel. They will do more work than any other Plow with the same amount of draft. They run level and easy to the plowman. They will scour in any soil. Having the reversible slip point, sloping landside and chilled shares, they cost less for repairs than any other plow in the market. Made in Baltimore, the repairs can always be obtained without delay. The workmanship, material and finish is of the best. There are fourteen sizes and kinds, and they are suited to all kinds of soil. Send for descriptive circular.

CHAMPION GRAIN DRILL.

This Drill has force feed distributors for both wheat and grass seed, and has the only fertilizer distributor that will not clog, and will evenly distribute wet and sticky phosphate. It will sow grain, grass seed and fertilizer more satisfactorily than any other drill in America. It is the simplest and strongest drill made. It is more easily managed and less liable to get out of order than any drill in the market. As it is the leading drill in this market, and several thousands have been sold during the past few years, a large stock of repairs is always on hand. Send for circular.

BRITISH MIXTURE.

The popularity of this celebrated fertilizer is not due alone to the price, but to the fact that its effects are uniformly good, and that it has been found the equal of the highest priced and best phosphates in the market. It gives more value for each dollar paid than any other fertilizer in the land. Send for circular and price list.

And 92,935 other presents valued from 25 cents to \$1.00, which makes a grand aggregation of 100,000 presents, thus guaranteeing a present to each and every new subscriber who sends us 50 Cts., as directed.

All of the above presents will be awarded in a fair and impartial manner by committees chosen at the Festival by the Subscribers, this festival will take place Sept. 9th. It will not be necessary for Subscribers to attend the Festival as presents will be sent to any part of the United States or Canada. Yet it is to be hoped as many will be present as possible. **THE 50 CENTS** which you send us is the regular price for six months' Subscription, and therefore we charge nothing for the presents. **OUR PROFIT** will be in your future patronage, as we believe you will like our paper so well that you will always remain a subscriber. **YOUR SUBSCRIPTION FREE.** Get five of your friends to join you by cutting this out and showing it to them. Send us \$2.50 and we will send you the **FARM, FIELD AND FIRESIDE** for six months, and a numbered receipt for each of your subscribers and one extra for your trouble.

SEND TEN SUBSCRIBERS with \$5 and we will send you 12 such subscriptions and twelve numbered receipts. This offer will hold good until Sept. 1st only, as we shall limit the number of new subscriptions to 100,000, so we would advise all our friends to forward subscriptions early, as in no case will they be received later than September 1st.

THE FARM, FIELD AND FIRESIDE

is one of the oldest and ablest edited Family and Agricultural papers. It contains twenty large pages (big 16 columns, including elegant cover, border, stitches and cut). And now has a circulation of 43,000 COPIES. It contains Stories, Sketches, Poetry, Farm, Garden, Household and Agricultural Departments by the best Contributors of the day, as well as an Illustrated Fashion Department, Needle and Embroidery Work. Illustrations of different parts of the UNITED STATES and Biographical Sketches of Eminent Men and Women. In short, it contains that which will interest, instruct and amuse the whole family.

THE PROPRIETORS are men of means, who always have done as they agree, and our paper is long established and reliable, with sufficient capital to carry out and fulfill to the letter any offer we may make.

TO THOSE WHO DO NOT ATTEND THE FESTIVAL we will send a printed list of the Awards, and all Presents will be forwarded to Holders of Receipts as they may direct. Sample Copies Free.

ONLY 50 CENTS secures the **FARM, FIELD AND FIRESIDE** Six Months, and a numbered receipt. The paper is worth double the subscription price. As in our circularity we refer those who do not know us to any reputable Publisher in Chicago.

Money in sums of \$1.00 or less may be sent in ordinary letter at our risk; larger sums should be sent by Registered Letter. P. O. money order or Express, and addressed to the

FARM, FIELD AND FIRESIDE, 89 Randolph St., Chicago.

REMEMBER these are Presents to our Subscribers given to them absolutely Free. Cut this out and show to friends, acquaintances and neighbors, as it will not appear again. (Postage Stamps taken in sums less than \$1.00.)

READ THESE LETTERS:

"I like to work for your paper, can do it with a good grace for I think it worthy. I say success to you." **MRS. G. M. SMITH, Battle Ground, Ind.**

"I think the paper worth ten times the price for a six months' subscription." **JAMES DUPONT, Matanzas, Fla.**

"I received your paper and am so well pleased with it that I inclose \$2 more for the same. I shall try and get more subscribers for your excellent paper." **FRANK GEYER, Custer, Idaho.**

"Thanks for being so prompt. Every one considers the paper the best of the kind ever offered." **HENRY W. VANDEGRIFT, Marion, Ind.**

"One article in your paper is worth the whole price of a year's subscription. I am glad to add my name to your list." **G. D. MILLINGTON, North Bennington, Vt.**

TO WHEAT GROWERS.

The undersigned, PIONEER in the manufacture of Fertilizers in this city, and ORIGINATOR in 1858 of the Formulas and processes of manufacture of

"EXCELSIOR" AND AMMONIATED PHOSPHATE,

So well and favorably known by the Agricultural public, relying upon his experience and personal reputation hitherto acquired in the uniform excellence of these Fertilizers, as manufactured by him, continues to offer them to the Farmers and Planters of Maryland and Virginia. with the assurance that the high standard quality of each will be maintained as heretofore.

For growing Wheat, it is the universal opinion of the farmers of Maryland and Virginia, after over twenty years experience in the use of these FERTILIZERS, that an application of 100 pounds is equal in its effects to 200 pounds of any other fertilizer or Guano, therefore fully 50 per cent. cheaper.

With my present advantages and superior facilities for manufacturing, I challenge competition with any Fertilizer sold in the United States, in Quality, Mechanical Condition and Price.

By strictly adhering to my Original Formulas, using only the most concentrated materials, and superintending in person their manufacture—as for the past

TWENTY FOUR YEARS

Uniform Quality is Guaranteed.

Farmers, to secure the ONLY GENUINE EXCELSIOR and PHOSPHATE, should see that every bag is branded as above, with the ANALYSIS and MY NAME IN RED LETTERS.

The Maryland University School

FOR YOUNG LADIES.

121 Lenvale Street, near Druid Hill Park,
BALTIMORE.

Will re-open on Monday, September 3rd, 1883, with a full corps of professors and teachers in all the branches of Literature, Sciences and Fine Arts. It possesses all the educational advantages afforded to young men in first-class academies, colleges and Universities, and by virtue of its charter will deliver the same usual degrees and diplomas.

It admits a select class of boys, mostly brothers and near relatives of the female students.

Young ladies are entitled to all the classical branches taught. No EXTRA CHARGES is a characteristic feature of the institution.

One of the incorporators has generously instituted Free Tuition Scholarships, one for each county and for the city of Baltimore, with the free use of all necessary text books.

For students not enjoying one of these free scholarships, the tuition fees vary from \$8 to \$15 per quarter, according to proficiency and advancement.

Board at the private residence of the Principal is \$20 per month, or \$180 for the academic year, with no extras. For circulars and full particulars apply to:

SAMARITAN NEVER FAILS. NERVINE

"You claim too much for SAMARITAN NERVINE," says a skeptic. "How can one medicine be a specific for Epilepsy, Dyspepsia, Alcoholism,

Opium Eating, Rheumatism, Spasm, or Seminal Weakness, and fifty other complaints?" We claim it a specific, simply, because the virus of all diseases arises from the blood. Its Nervine, Resolvent, Alterative and Laxative properties meet all the conditions herein referred to. It's known world wide as

THE GREAT

NERVE CONQUEROR

It quiets and composes the patient—not by the introduction of opiates and drastic cathartics, but by the restoration of activity to the stomach and nervous system, whereby the brain is relieved of morbid fancies, which are created by the causes above referred to.

To Clergymen, Lawyers, Literary men, Merchants, Bankers, Ladies and all those whose sedentary employment causes nervous prostration, irregularities of the blood, stomach, bowels or kidneys or who require a nerve tonic, appetizer or stimulant, SAMARITAN NERVINE is invaluable. Thousands proclaim it the most wonderful invigorant that ever sustained the sinking system. \$1.50. Sold by all Druggists. The DR. S. A. RICHMOND MED. CO., Proprietors, St. Joseph, Mo. Chas. N. Crittenton, Agent, New York City. (4)

Domestic Recipes.

OAT MEAL WATER.—A celebrated military surgeon recommends for quenching thirst and sustaining strength oat-meal water as superior to any other drink. Boil a quarter pound of the meal in two or three quarts of water, add one and a half ounces of sugar, if sweetening is desired; use cold in summer and hot in winter, shaking before taking. If a supper is to be missed, or extra demand made on the system, as some day in harvest time, the proportion of meal may be advantageously increased to half or three-quarters of a pound.

ICED APPLES.—Pare, core and slice ten apples of a large tart kind. Bake them till nearly done. Put them away to get entirely cold; then prepare some icing as for apple meringue, and first pouring off all the juice, lay the icing thickly on the tops and sides as much as you can. Return them to the oven to just harden and be set. Serve with cream. This is very beautiful either for desert or an evening.

APPLE TAPIOCA.—Core some tart apples; fill up the opening with butter and sugar, strew some sugar around them. Pour one dessert-spoonful of dry tapioca to each apple. Pour water around nearly up to the top of the apples. Bake and serve with cream.

APPLE FLOAT.—Prepare twelve tart apples as for sauce. When cold add two whites of eggs, beaten; then beat the whole till quite stiff. Have made previously a soft custard with the yolks. Put the apples in the custard. Serve with cream or good milk.

POP OVERS.—One egg, one cup of sweet milk, one cup flour, one scant teaspoonful salt. Put just a little in buttered tart tins and bake in a quick oven. They can be eaten with a sauce of sweetened cream, or milk with nutmeg.

Every animal is selected by a member of the firm, in person, from the most noted herds and deepest milking dams in Holland, without regard to price. One member of the firm spends much of his time in Holland and is familiar with all the best herds there, thus enabling us to secure the very best class of stock. In this herd every cow is tested by actual performance, and each is sold on her own merits and breeding.

Buyers can here have the advantage of large numbers of the highest quality to select from. Our unusually large importations enable us to avail ourselves of lowest freights and lower expense per animal, advantages which we can give our customers the benefit of. The Roland Chilled Plow.

There is no farm implement which has been so greatly improved during the past five years as THE PLOW, and the Roland Chilled stands pre-eminent amongst the best, as

THE BEST PLOW IN AMERICA.

Its superiority over common cast plows is so great that hundreds of farmers have thrown aside their entire stock of old fashioned Plows, being convinced that they would save money by doing this and replacing with the "Roland Chilled." Send for description circular, setting forth the reasons why we claim so much, and giving full description of the various sizes, with prices, &c.

The Poet says—

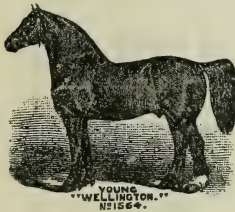

Would you have flowers in place of weeds?
 Give to your garden O. K. seeds;
 Your fields will blossom as the rose,
 If "O. K. Seeds" the farmer sows.
 Your fruitage thrive beneath the rain,
 That comes to kiss the golden grain,
 And prove how wise is he who heeds
 Our song in praise of O. K. Seeds,
 Your toils will not have been in vain,
 A rich reward will be your gain,
 In comfort, ease and well earned rest,
 If O. K. Seeds your fields have blest.
 Thus, when Autumn comes and goes,
 And brings bleak winter's winds and snows,
 Plenty will crown the closing year,
 And fill your days with grateful cheer.

KENDALL'S SPAVIN CURE!

It cures Spavins, Splints, Ringbones, Curbs and all similar blemishes and removes the bunch without blistering. For man it is now known to be one of the best if not the best liniment ever discovered.

KENDALL'S SPAVIN CURE

2:05

THE MOST SUCCESSFUL REMEDY ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

KENDALL'S SPAVIN CURE.

HAMILTON, MO., June 14th, 1881.

B. J. KENDALL & Co.,—Gents:—This is to certify that I have used Kendall's Spavin Cure and have found it to be all it is recommended to be, and in fact more too; I have removed by using the above, Callous, Bone Spavins, Ring Bones, Splints, and can cheerfully testify and recommend it to be the best thing for any bony substance I have ever used, and I have tried many, as I have made that my study for years.

Respectfully yours,

P. V. CRIST.

KENDALL'S SPAVIN CURE.

The following letter was written to our agent in Louisville, Kentucky, by the owner of the stag route from Lebanon, Ky., to Campbellsville, who is well known throughout the State,

CAMPBELLVILLE, KY., Jan. 30th, 1878.

J. W. Morrill & Co., Louisville, Ky.—Gents:—The Kendall's Spavin Cure you sent me some time ago has proved invaluable in all cases for which I used it: sprains, sore back, galled shoulders, windgalls and scratches. Fortunately, I did not have any stock with spavins at the time.

Yours respectfully,

GEORGE BORDERS.

KENDALL'S SPAVIN CURE.

SAVANNAH, GA., Dec. 23, 1880.

Dr. B. J. KENDALL & Co.,—Gents:—Enclosed please find 25 cents for which send me one of your new horse books and oblige. I have tried your Kendall's Spavin Cure in a case of Rheumatic Gout and find it an excellent remedy.

Yours, &c., &c.,

J. W. HUNT.

KENDALL'S SPAVIN CURE.

WILTON, MINN., Jan. 11th, 1881.

B. J. KENDALL & Co.,—Gents:—Having got a horse book of you, by mail, a year ago, the contents of which persuaded me to try Kendall's Spavin Cure on the hind leg of one of my horses, which was badly swollen and could not be reduced by any other remedy. I got two bottles of Kendall's Spavin Cure, of Preston & Luddeth, druggists of Waseca, which completely cured my horse. About five years ago I had a three year old colt sweenied very bad, I used your remedy as given in your book, without rowelling, and I must say to your credit that the colt is entirely cured, which is a surprise not only to myself, but also to my neighbors. You sent me the book for the trifling sum of 25 cents, and if I could not get another like it, I would not take twenty-five dollars for it.

Yours truly,

GEO. MATHEWS.

KENDALL'S SPAVIN CURE ON HUMAN FLESH.

WEST ENOSBURGH, VT., Feb. 15th, 1881.

Dr. B. J. KENDALL & Co.,—Gents:—Several months ago I injured my knee joint, which caused an enlargement to grow, the size of a large walnut, and caused me very severe pain all the time for four or five weeks, when I began to use Kendall's Spavin Cure, with the most satisfactory results. It has completely removed the enlargement and stopped the lameness and pain. I have long known it to be excellent for horses, but now I know it to be the best liniment for human flesh that I am acquainted with.

Yours truly,

T. P. LAWRENCE.

Send address for Illustrated Circular, which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

The Railroads of the United States and Canadas put in more ECLIPSE MILLS than all others put together. We export more than all others combined. Our Mill is not sold as a cheap Mill, but as the best Mill in the world. For the last six years I have never received a cent for repairs of any of my Mills that I have put up, and have replaced several other mills by the ECLIPSE. We make 18 sizes from 8½ to 60 feet in diameter, from two-man to forty-horse power, and used for pumping from wells, springs, brooks and rivers. Also have POWER MILLS for grinding grain, shelling corn, sawing wood, cutting fodder, &c. I furnish Mills separate, or will contract for a whole job, including tower, pumps, piping, &c., plain or ornamental, and will guarantee to give satisfaction. DAVID LANDRETH & SONS, SEED GROWERS, PHILADELPHIA

TO WHEAT GROWERS.

The undersigned, PIONEER in the manufacture of Fertilizers in this city, and ORIGINATOR in 1858 of the Formulas and processes of manufacture of

"EXCELSIOR" AND AMMONIATED PHOSPHATE,

So well and favorably known by the Agricultural public, relying upon his experience and personal reputation hitherto acquired in the uniform excellence of these Fertilizers, as manufactured by him, continues to offer them to the Farmers and Planters of Maryland and Virginia, with the assurance that the high standard quality of each will be maintained as heretofore.

For growing Wheat, it is the universal opinion of the farmers of Maryland and Virginia, after over twenty years experience in the use of these FERTILIZERS, that an application of 100 pounds is equal in its effects to 200 pounds of any other fertilizer or Guano, therefore fully 50 per cent. cheaper.

With my present advantages and superior facilities for manufacturing, I challenge competition with any Fertilizer sold in the United States, in Quality, Mechanical Condition and Price.

By strictly adhering to my Original Formulas, using only the most concentrated materials, and superintending in person their manufacture—as for the past

TWENTY FOUR YEARS

Uniform Quality is Guaranteed.

Farmers, to secure the ONLY GENUINE EXCELSIOR and PHOSPHATE, should see that every bag is branded as above, with the ANALYSIS and MY NAME IN RED LETTERS.

KIRKWOOD'S MILL

—FOR—

Private Water Supply and Stock Pumping,

MANUFACTURED BY

R. G. KIRKWOOD,

Ellicott City, Md.

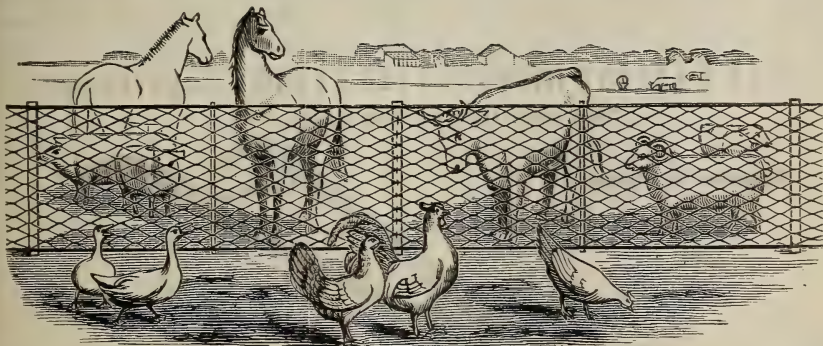

I wish to call your attention to the superior merits of the Kirkwood Iron Wind Mill. I claim the following advantages over other mills now in use:

1st. The construction of the wheel is superior in points of durability and strength and symmetry than any other, as it is composed entirely of Iron and Steel, which cannot shrink warp or shake loose, by exposure to weather, as wooden wheels will do. 2nd. It is the most powerful, as it has more wind surface, having no arms, the vanes covering the entire face of the wheel and shaped so as to receive the wind to the best advantage. 3rd. It is the safest, as it has a very narrow edge, being less than 6 inch in a 10 feet wheel, and presenting less resistance than any other Iron Wheel in a storm.

4th. RATE OF SPEED. Owing to the principle of construction it can be built lighter, and run with less wind and at greater speed, without injury, than any other wheel in use. 5th. Capacity for pumping, being lighter, requiring less wind and running at a greater rate of speed, it will pump more water than any other wheel in use.

The Mill is governed automatically and will take care of itself in any storm. It has long bearing surface, and the very best material is used in its construction, thus making it a Wind engine of unequalled durability, power, safety and beauty. For price and other particulars, address the manufacturer. my6t R. G. KIRKWOOD, Ellicott City, Md.

SEDGWICK STEEL WIRE FENCE.

It is the only general purpose Wire Fence in use, being a strong net work without barbs. It will turn dogs, pigs, sheep and poultry, as well as the most vicious stock without injury to either fence or stock. It is just the fence for farms, gardens, stock ranges and railroads, and very neat for lawns, parks, school lots and cemeteries. Covered with rust proof paint, (or galvanized,) it will last a life-time. It is superior to boards or barbed wire in every respect. We ask for a fair trial, knowing it will wear itself into favor. The SEDGWICK GATES, made of wrought iron pipe and steel wire, defy all competition in neatness, strength and durability. We also make the best and cheapest All Iron Automatic or Self-opening Gate, also cheapest and neatest all iron fence. Best Wire Stretcher and Post Augur. For prices and particulars, ask hardware dealers, or address, mentioning paper,

FOUR POINTED STEEL BARB WIRE.

THE BEST AND THE CHEAPEST.

MERITS OF BARB FENCE

It is the cheapest fence made; the most durable; is not affected by fire, wind or flood; does not cause snow drifts; takes fewer fence posts; stock cannot push it down; it protects itself—acts on the defensive, it takes but little room; you can cultivate close to it; weeds are easily kept out of it; requires but little labor to put it up; you can draw at one load enough to fence a farm; and can fence a good sized farm in a day; it is the greatest practical invention of the age, and has come to be the farm and railroad fence of the country.

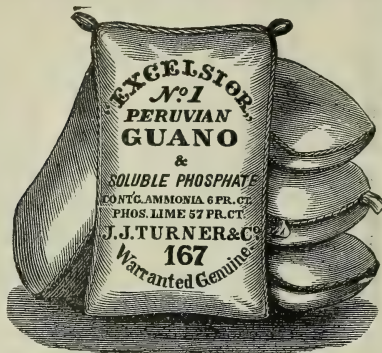

Sheep culture presents a striking example of the inefficiency of the fencing now in use. No branch of farming is more profitable if sheep could be protected. But no fence heretofore tried, except this, will keep sheep in, and dogs and wolves out.

It is easily seen, thus overcoming one of the main objects to plain fence wire. Its length is not effected by heat or cold. The wire is put up on spools in lengths of about one hundred rods, weighing 100 to 110 lbs., so as to be easily handled. One pound measures 15 feet in length; 352 lbs. measures a mile. Send for circulars and special prices.

"EXCELSIOR,"

1858

1883

Forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvian Guano, and the ever durable fertilizing properties of Bones. In fine dry powder, prepared expressly for drilling.

After twenty-five Years' experience by the Planters of Maryland and Virginia in the use of "EXCELSIOR," it is their unanimous opinion that an application of 100 pounds of "EXCELSIOR" is equal to from 200 to 300 pounds of any other fertilizer or guano, and, therefore, fully 100 per cent cheaper.

Farmers should see that every bag is branded with the Analysis, and our name, in red letters, which we hope will prove sufficient protection against counterfeit articles. All further abuse of our name being disclaimed for the future. A large supply of Peruvian Guano for sale.

Barley Malt Whiskey,

Its qualities for family and medicinal use.

This whiskey has been manufactured by MR. WALTER P. DUFFY, of Rochester N. Y., for nearly a half century, the process of distillation known only to himself, and by which all the fusil oil is extracted. The Medical Faculty prescribe DUFFY'S BARLEY WHISKEY in cases of indigestion. To business men it is an excellent stimulant. To mothers in the care and nursing of their children it is a great tonic. To consumptives it infuses new life. For sale by grocers and druggists by the bottle and in bulk, also by.

OXFORD DOWNS.

As noticed in the *Country Gentleman*, *Breeders' Gazette*, and the press of the country, generally, I purchased in January last of T. S. Cooper, his entire flock of imported Oxford downs, headed by the celebrated prize winning ram, Royal Liverpool, "The Best Son of Freeland." Intending this flock for his own breeding, Mr. Cooper personally selected the finest ewes from the flocks of Messrs. John Treadwell and George Street, conceded to be the foremost of English breeders. They are a uniform, handsome lot, carrying large, close and compact fleeces. Mr. Cooper says of them: "The best I ever imported and the finest flock in the country."

I have now for sale superb lambs, most of them imported in dam, sired by Royal Liverpool, three years first at the Royal Show—Earl of Oxford, 1st Royal, 1882—Hobbs, No. 5, Wallis No. 7 and Lord Derby. A few—sired in this country by imported Rothram, Albert of Linden and a son of Street's Perfection. Full pedigree with each lamb.

The New Bag for Fertilizers!

HORNER & HYDE'S PATENT BAG

Prepared by the Baltimore Non-Corrosive Bag Co.,

46 NORTH HOLIDAY STREET,

Has established itself throughout the country as the best Bag ever used for *holding, shipping or storing strong phosphates* and other fertilizers. Over 100,000 of them have already been ordered by the trade, and very strong testimonials from manufacturers of fertilizers, shippers and consumers, have been given of this Patent Bag's merit and power over all other bags.

The bag referred to is precisely the same kind as now used, only *it is made to resist the acids and strong ingredients contained in the various fertilizers* which eat up and destroy so many bags annually, at the same time it is much tougher, stronger and more durable otherwise than the plain Burlap Bag and costs but a trifle more. It will safely carry strong merchantable fertilizers to country stations, allow storing them from season to season in the South or elsewhere, and when empty of fertilizers, be of great value to farmers for other uses. This Patent Bag is well known to all manufacturers of fertilizers and many of the leading houses are using them in large quantities in this and other markets. may

 *Ask your shipper to send your fertilizers in Horner & Hyde's Patent Bag and insist on getting them.* An old Maryland Farmer says they are worth 10 or 12 cents to him for long farm use after he gets them and empties the fertilizer. WM. H. HORNER, of Baltimore, is the Gen'l Agent for this bag.

—FOR SALE—

“SPRINGFIELD,”

THE MODEL FARM OF MARYLAND.

2,000 ACRES. Formerly owned by the late George Patterson. In the highest state of cultivation ; large mansion, with all modern conveniences, beautifully situated, overlooking 1,500 acres of cleared land belonging to the farm ; span grapery, green houses, and all necessary outbuildings, reservoir supplying bath-rooms, watering garden, grapery, and green houses. Four other main dwellings, with stabling and other outbuildings for each. Fifteen smaller houses for employees. Frame grist and saw mill, one of the best in the State, situated on a fine stream, running the entire length of the estate. Stabling for 300 head of cows and horses, together with sheep sheds, &c.; 40 hay barracks or barns situated in the different fields. Almost the entire farm is fenced with post and rail. Scarcely any waste land ; several hundred acres of meadow land ; sufficient chestnut to keep farm fenced. Within $\frac{1}{2}$ a mile of B. & O. R. R., and same distance from Liberty and Balto. Turnpike, 20 miles from Balto. In addition to being the finest grazing farm in the State, (if not the finest east of the Alleghanies,) its average yield of crops last year was as follows—33 bushels of wheat 50 to 60 bushels of corn, 40 bushels of oats, and 2 to 2 $\frac{1}{2}$ tons of hay to the acre. The farm, besides the cropping and grazing, is used as a dairy farm, and milk shipped to Baltimore daily. It needs but a visit to verify the above. Will be sold as one farm, or in small tracts to suit purchasers. Address the owner,

Address orders for either of the above books to the Fireside Friend Publishing Co., Springfield, Ohio.

ROLAND CHILLED PLOWS.

Every farmer in Maryland should use the "Roland." The Mouldboard is harder than steel. They will do more work than any other Plow with the same amount of draft. They run level and easy to the plowman. They will scour in any soil. Having the reversible slip point, sloping landside and chilled shares, they cost less for repairs than any other plow in the market. Made in Baltimore, the repairs can always be obtained without delay. The workmanship, material and finish is of the best. There are fourteen sizes and kinds, and they are suited to all kinds of soil. Send for descriptive circular.

CHAMPION GRAIN DRILL.

This Drill has force feed distributors for both wheat and grass seed, and has the only fertilizer distributor that will not clog, and will evenly distribute wet and sticky phosphate. It will sow grain, grass seed and fertilizer more satisfactorily than any other drill in America. It is the simplest and strongest drill made. It is more easily managed and less liable to get out of order than any drill in the market. As it is the leading drill in this market, and several thousands have been sold during the past few years, a large stock of repairs is always on hand. Send for circular.

BRITISH MIXTURE.

The popularity of this celebrated fertilizer is not due alone to the price, but to the fact that its effects are uniformly good, and that it has been found the equal of the highest priced and best phosphates in the market. It gives more value for each dollar paid than any other fertilizer in the land. Send for circular and price list.

Domestic Recipes.

MAKING PICKLES.—First put one peck of coarse salt in barrel, and one pail of water; wash cucumbers; always leave on about one inch of the stem when cut from the vines; put them in the brine and lay all over them a piece of woolen cloth, a round cover that will go down to the bottom of the barrel and a stone to keep them under the brine; pick cucumbers every day and put in until the barrel is full, adding water to keep them covered. Now the only trouble in keeping them is the scum that rises; put into the barrel about half a peck of horse-radish root, thoroughly washed, and you will have no trouble of that kind; without that you must rinse your flannel cloth every day while you are making your pickles. To prepare them for use, soak them in a brass kettle, changing the water every day until quite fresh; to make them green put in a piece of alum in every water while you are soaking them; wipe them dry, put in a jar and pour hot vinegar over them; put spices, whole cloves, etc., in your vinegar.—*Fruit Recorder.*

PEACH MERINGUE.—Put on to boil a scant quart of new milk, omitting half a teacupful, with which moisten two tablespoonfuls of corn starch. When the milk boils, add corn starch, stir constantly, and when it commences to thicken, remove from the fire; add one tablespoonful of perfectly sweet butter, let cool, then beat in the yolks of three eggs until the custard seems light and creamy, add one-half teacup of fine sugar; cover the bottom of a well-buttered baking dish with ripe, juicy peaches that have been pared, stoned, and halved; sprinkle two tablespoonfuls of sugar over the fruit, pour the custard over gently, and bake in a quick oven twenty minutes; draw it out, and cover with the well-beaten whites of the three eggs; sprinkle a little fine sugar over the top, and set in the oven until brown. Eat warm with sauce, or cold with cream.

STEWED KIDNEY.—Trim away the fat, skin and cut each kidney into thin slices; put the slices into a stew pan, dredging them first with flour; then put in a tablespoonful of butter, salt and pepper; let them simmer slowly fifteen minutes; then add a glass of claret and the juice of a lemon, boil ten minutes; serve the kidney in the sauce, adding some minced parsley.

LAKESIDE STOCK FARM, HOLSTEIN CATTLE.

Over 500 head of pure-bred Holsteins now on hand. 300 head imported this season, from which none have yet been sold. Also an elegant stock of Clydesdale and Hambletonian Horses of the finest quality and highest breeding.

Every animal is selected by a member of the firm, in person, from the most noted herds and deepest milking dams in Holland, without regard to price. One member of the firm spends much of his time in Holland and is familiar with all the best herds there, thus enabling us to secure the very best class of stock. In this herd every cow is tested by actual performance, and each is sold on her own merits and breeding.

Buyers can here have the advantage of large numbers of the highest quality to select from. Our unusually large importations enable us to avail ourselves of lowest freights and lower expense per animal, advantages which we can give our customers the benefit of. For pedigrees, records and other information send for our *Handsome Illustrated Catalogue*.

FOR YOUNG LADIES.

121 Lanvale Street, near Druid Hill Park,

BALTIMORE.

Will re-open on Monday, September 3rd, 1883, with a full corps of professors and teachers in all the branches of Literature, Sciences and Fine Arts. It possesses all the educational advantages afforded to young men in first-class academies, colleges and Universities, and by virtue of its charter will deliver the same usual degrees and diplomas.

It admits a select class of boys, mostly brothers and near relatives of the female students.

Young ladies are entitled to all the classical branches taught. No EXTRA CHARGES is a characteristic feature of the institution.

One of the incorporators has generously instituted Free Tuition Scholarships, one for each county and for the city of Baltimore, with the free use of all necessary text books.

For students not enjoying one of these free scholarships, the tuition fees vary from \$8 to \$15 per quarter, according to proficiency and advancement.

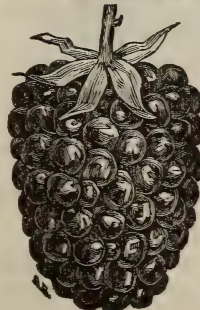

Board at the private residence of the Principal is \$20 per month, or \$180 for the academic year, with no extras. For circulars and full particulars apply to:

The Roland Chilled Plow.

There is no farm implement which has been so greatly improved during the past five years as THE PLOW, and the Roland Chilled stands pre-eminent amongst the best, as

THE BEST PLOW IN AMERICA.

Its superiority over common cast plows is so great that hundreds of farmers have thrown aside their entire stock of old fashioned Plows, being convinced that they would save money by doing this and replacing with the "Roland Chilled." Send for description circular, setting forth the reasons why we claim so much, and giving full description of the various sizes, with prices, &c.

The Poet says—

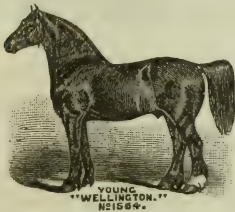

Would you have flowers in place of weeds?
 Give to your garden O. K. seeds;
 Your fields will blossom as the rose,
 If "O. K. Seeds" the farmer sows.
 Your fruitage thrive beneath the rain,
 That comes to kiss the golden grain,
 And prove how wise is he who heeds
 Our song in praise of O. K. Seeds,
 Your toils will not have been in vain,
 A rich reward will be your gain,
 In comfort, ease and well earned rest,
 If O. K. Seeds your fields have blest.
 Thus, when Autumn comes and goes,
 And brings bleak winter's winds and snows,
 Plenty will crown the closing year,
 And fill your days with grateful cheer.

KENDALL'S SPAVIN CURE!

It cures Spavins, Splints, Ringbones, Curbs and all similar blemishes and re-
moves the bunch without
blistering. For man it is
now known to be one of
the best if not the best lin-
iment ever discovered.

THE MOST SUCCESSFUL REMEDY ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

KENDALL'S SPAVIN CURE.

HAMILTON, MO., June 14th, 1881.

B. J. KENDALL & Co.,—Gents:—This is to certify that I have used Kendall's Spavin Cure and have found it to be all it is recommended to be, and in fact more too; I have removed by using the above, Callous, Bone Spavins, Ring Bones, Splints, and can cheerfully testify and recommend it to be the best thing for any bony substance I have ever used, and I have tried many, as I have made that my study for years.

Respectfully yours,

P. V. CRIST.

KENDALL'S SPAVIN CURE.

The following letter was written to our agent in Louisville, Kentucky, by the owner of the stag route from Lebanon, Ky., to Campbellsville, who is well known throughout the State,

CAMPBELLVILLE, KY., Jan. 30th, 1878.

J. W. Morrill & Co., Louisville, Ky.—Gents:—The Kendall's Spavin Cure you sent me some time ago has proved invaluable in all cases for which I used it: sprains, sore back, galled shoulders, windgalls and scratches. Fortunately, I did not have any stock with spavins at the time.

Yours respectfully,

GEORGE BORDERS.

KENDALL'S SPAVIN CURE.

SAVANNAH, GA., Dec. 23, 1880.

Dr. B. J. KENDALL & Co.,—Gents:—Enclosed please find 25 cents for which send me one of your new horse books and oblige. I have tried your Kendall's Spavin Cure in a case of Rheumatic Gout and find it an excellent remedy.

Yours, &c., &c.,

J. W. HUNT.

KENDALL'S SPAVIN CURE.

WILTON, MINN., Jan. 11th, 1881.

B. J. KENDALL & Co.,—Gents:—Having got a horse book of you, by mail, a year ago, the contents of which persuaded me to try Kendall's Spavin Cure on the hind leg of one of my horses, which was badly swollen and could not be reduced by any other remedy. I got two bottles of Kendall's Spavin Cure, of Preston & Luddeth, druggists of Waseca, which completely cured my horse. About five years ago I had a three year old colt sweenied very bad, I used your remedy as given in your book, without rowelling, and I must say to your credit that the colt is entirely cured, which is a surprise not only to myself, but also to my neighbors. You sent me the book for the trifling sum of 25 cents, and if I could not get another like it, I would not take twenty five dollars for it.

Yours truly,

GEO. MATHEWS.

KENDALL'S SPAVIN CURE ON HUMAN FLESH.

WEST ENOSBURGH, VT., Feb. 15th, 1881.

Dr. B. J. KENDALL & Co.,—Gents:—Several months ago I injured my knee joint, which caused an enlargement to grow, the size of a large walnut, and caused me very severe pain all the time for four or five weeks, when I began to use Kendall's Spavin Cure, with the most satisfactory results. It has completely removed the enlargement and stopped the lameness and pain. I have long known it to be excellent for horses, but now I know it to be the best liniment for human flesh that I am acquainted with.

Yours truly,

T. P. LAWRENCE.

Send address for Illustrated Circular, which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

The Railroads of the United States and Canadas put in more ECLIPSE MILLS than all others put together. We export more than all others combined. Our Mill is not sold as a cheap Mill, but as the best Mill in the world. For the last six years I have never received a cent for repairs of any of my Mills that I have put up, and have replaced several other mills by the ECLIPSE. We make 18 sizes from 8½ to 60 feet in diameter, from two-man to forty-horse power, and used for pumping from wells, springs, brooks and rivers. Also have POWER MILLS for grinding grain, shelling corn, sawing wood, cutting fodder, &c. I furnish Mills separate, or will contract for a whole job, including tower, pumps, piping, &c., plain or ornamental, and will guarantee to give satisfaction. TO WHEAT GROWERS.

The undersigned, PIONEER in the manufacture of Fertilizers in this city, and ORIGINATOR in 1858 of the Formulas and processes of manufacture of

"EXCELSIOR" AND AMMONIATED PHOSPHATE,

So well and favorably known by the Agricultural public, relying upon his experience and personal reputation hitherto acquired in the uniform excellence of these Fertilizers, as manufactured by him, continues to offer them to the Farmers and Planters of Maryland and Virginia, with the assurance that the high standard quality of each will be maintained as heretofore.

For growing Wheat, it is the universal opinion of the farmers of Maryland and Virginia, after over twenty years experience in the use of these FERTILIZERS, that an application of 100 pounds is equal in its effects to 200 pounds of any other fertilizer or Guano, therefore fully 50 per cent. cheaper.

With my present advantages and superior facilities for manufacturing, I challenge competition with any Fertilizer sold in the United States, in Quality, Mechanical Condition and Price.

By strictly adhering to my Original Formulas, using only the most concentrated materials, and superintending in person their manufacture—as for the past

TWENTY FOUR YEARS

Uniform Quality is Guaranteed.

☞ Farmers, to secure the ONLY GENUINE EXCELSIOR and PHOSPHATE, should see that every bag is branded as above, with the ANALYSIS and MY NAME IN RED LETTERS.

KIRKWOOD'S MILL

—FOR—

Private Water Supply and Stock Pumping,

MANUFACTURED BY

R. G. KIRKWOOD,

Ellicott City, Md.

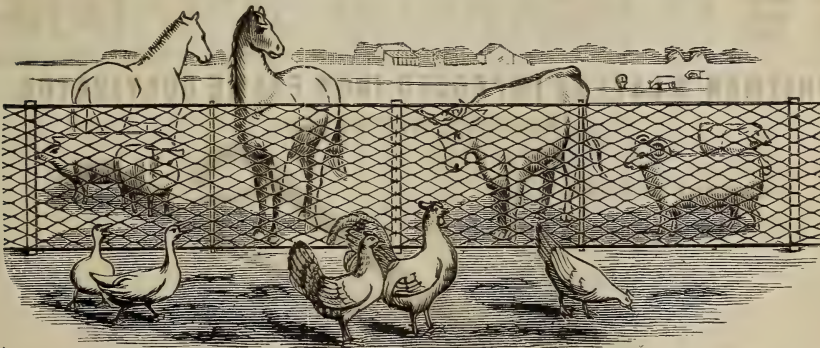

I wish to call your attention to the superior merits of the Kirkwood Iron Wind Mill. I claim the following advantages over other mills now in use:

1st. The construction of the wheel is superior in points of durability and strength and symmetry than any other, as it is composed entirely of Iron and Steel, which cannot shrink warpe or shake loose, by exposure to weather, as wooden wheels will do. 2nd. It is the most powerful, as it has more wind surface, having no arms, the vanes covering the entire face of the wheel and shaped so as to receive the wind to the best advantage. 3rd. It is the safest, as it has a very narrow edge, being less than 6 inch in a 10 feet wheel, and presenting less resistance than any other Iron Wheel in a storm.

4th. RATE OF SPEED. Owing to the principle of construction it can be built lighter, and run with less wind and at greater speed, without injury, than any other wheel in use. 5th. Capacity for pumping, being lighter, requiring less wind and running at a greater rate of speed, it will pump more water than any other wheel in use.

The Mill is governed automatically and will take care of itself in any storm. It has long bearing surface, and the very best material is used in its construction, thus making it a Wind engine of unequalled durability, power, safety and beauty. For price and other particulars, address the manufacturer. R. G. KIRKWOOD, Ellicott City, Md.

SEDGWICK STEEL WIRE FENCE.

It is the only general purpose Wire Fence in use, being a strong net work without barbs. It will turn dogs, pigs, sheep and poultry, as well as the most vicious stock without injury to either fence or stock. It is just the fence for farms, gardens, stock ranges and railroads, and very neat for lawns, parks, school lots and cemeteries. Covered with rust proof paint, (or galvanized,) it will last a life-time. It is superior to boards or barbed wire in every respect. We ask for a fair trial, knowing it will wear itself into favor. The SEDGWICK GATES, made of wrought iron pipe and steel wire, defy all competition in neatness, strength and durability. We also make the best and cheapest All Iron Automatic or Self-opening Gate, also cheapest and neatest all iron fence. Best Wire Stretcher and Post Augur. For prices and particulars, ask hardware dealers, or address, mentioning paper,

FOR SPRING OF 1883.

HAMILTON EASTER & SONS,

OF BALTIMORE.

Desire to call the attention of the readers of this paper to the advantage which they can present, as an inducement to parties to make their purchases from them.

First.—They have had an experience of over 50 years in business, in which time, from a small concern they have built up their present large trade by fair dealing, without misrepresenting and without urging any one to buy. One price, and that price marked in plain figures on every article.

Next.—We keep on hand a Very Large and Varied Stock, embracing Goods of every class, from Low-Priced to the most expensive; but no article that would be "dear at any price"—only such as we believe will prove of good value for the price paid.

Our various departments include Low-Priced Medium and Fine Dressed Goods, Black Silks, Colored Silks, Mourning Goods, Linen Goods, Quilted Houses, Dry Goods, Blankets, Quilted Comforts, Dressing Machines, Domestic Cotton Goods, and Domestic Fabrics of all kinds.

The Woollen Department

Includes Goods for Men's and Boys' Wear, in all the New Styles of Suits—Cheviots, Cloths, Cassimeres, and also White and Colored Flannels.

Hosiery, Gloves and Merino Underwear in all sizes, for Ladies, Misses, Boys and Men of any kind and description.

Ladies' and Misses' Wraps and Shawls, Ladies' Muslin Underwear, Laces, Edgings, Ruffings, Scarfs, Ribbons, Nets, &c.

Ginghams, Calicoes, Chintzes, Cretannes, Satins, White Muslin Dress Goods, Nainsook, Swiss and Cambric Embroideries, Buttons, Notions, &c.

Samples will be sent to parties who give us plain and full directions of about the price wanted, colors preferred, &c. my

FOUR POINTED STEEL BARB WIRE.

THE BEST AND THE CHEAPEST.

MERITS OF BARB FENCE

It is the cheapest fence made; the most durable; is not affected by fire, wind or flood; does not cause snow drifts; takes fewer fence posts; stock cannot push it down; it protects itself—acts on the defensive; it takes but little room; you can cultivate close to it; weeds are easily kept out of it; requires but little labor to put it up; you can draw at one load enough to fence a farm; and can fence a good sized farm in a day; it is the greatest practical invention of the age, and has come to be the farm and railroad fence of the country.

Sheep culture presents a striking example of the inefficiency of the fencing now in use. No branch of farming is more profitable if sheep could be protected. But no fence heretofore tried, except this, will keep sheep in, and dogs and wolves out.

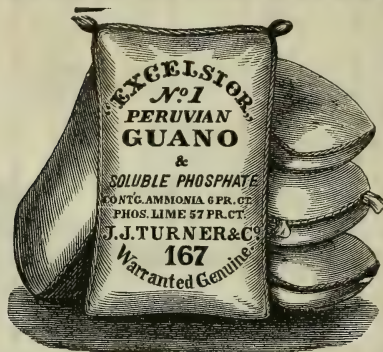

It is easily seen, thus overcoming one of the main objects to plain fence wire. Its length is not effected by heat or cold.

The wire is put up on spools in lengths of about one hundred rods, weighing 100 to 110 lbs., so as to be easily handled. One pound measures 15 feet in length; 352 lbs. measures a mile. Send for circulars and special prices.

TO WHEAT GROWERS. J. J. TURNER & CO., "EXCELSIOR,"

1858

1883

Forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvian Guano, and the ever durable fertilizing properties of Bones. In fine dry powder, prepared expressly for drilling.

After twenty-five Years' experience by the Planters of Maryland and Virginia in the use of "EXCELSIOR," it is their unanimous opinion that an application of 100 pounds of "EXCELSIOR" is equal to from 200 to 300 pounds of any other fertilizer or guano, and, therefore, fully 100 per cent cheaper.

Farmers should see that every bag is branded with the Analysis, and our name, in red letters, which we hope will prove sufficient protection against counterfeit articles. All further abuse of our name being disclaimed for the future. A large supply of Peruvian Guano for sale, Feb-17

To Wheat Growers. J. J. TURNER & CO., AMMONIATED BONE SUPER PHOSPHATE,

Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other Fertilizer sold, except our "Excelsior," and is made with the same care and supervision; uniform quality guaranteed; in excellent order for drilling.

Farmers should see that every Bag is branded with the analysis and our name in red letters, which we hope will prove sufficient protection against counterfeit articles. ALL FURTHER ABUSE OF OUR NAME BEING DISCLAIMED FOR THE FUTURE.

HALLOCK'S IMPROVED SEED DRILL.

This machine will sow in drills all kinds of seeds from beet down to the smallest seeds, without regard to weight, shape or size, with regularity, and without failure, as long as there is seed in the hopper, and will do the work with one man, that would take a half dozen men a given time. It can be sent anywhere by R. R. or Express, on receipt of the price, which is only \$5.00.

It is upon the principle of the old English hand seed drills, with the revolving brush used for many years in England. Address.

PROPRIETORS.

This RESTAURANT is the oldest and most extensive in its accommodations of any in the city.

The BAR is filled with the finest of all kinds of LIQUORS. The TABLES are covered with the best substantial food the markets afford, besides, at the earliest moment they can be procured in the different seasons, every variety of delicacy that land and water furnish, in

BIRDS, GAME, FISH, FRUITS & VEGETABLES.

Prices moderate. The crowds, which lunch and dine daily, attest public approbation of the superior management of the house.

It is a convenient place for travellers, who stop only a few hours or a day in the city, to get their meals. It is the popular resort of country gentlemen from the counties, particularly from Southern Maryland, being convenient to Railroads and Steamboats, and in the midst of the business portion of the city.

The Proprietors will be grateful for the continuance of the extensive patronage they now enjoy, and will do their best to give entire satisfaction to all visitors.

The New Bag for Fertilizers!

HORNER & HYDE'S PATENT BAG

Prepared by the Baltimore Non-Corrosive Bag Co.,

46 NORTH HOLIDAY STREET,

Has established itself throughout the country as the best Bag ever used for *holding, shipping or storing strong phosphates* and other fertilizers. Over 100,000 of them have already been ordered by the trade, and very strong testimonials from manufacturers of fertilizers, shippers and consumers, have been given of this Patent Bag's merit and power over all other bags.

The bag referred to is precisely the same kind as now used, only *it is made to resist the acids and strong ingredients contained in the various fertilizers* which eat up and destroy so many bags annually, at the same time it is much tougher, stronger and more durable otherwise than the plain Burlap Bag and costs but a trifle more. It will safely carry strong merchantable fertilizers to country stations, allow storing them from season to season in the South or elsewhere, and when empty of fertilizers, be of great value to farmers for other uses. This Patent Bag is well known to all manufacturers of fertilizers and many of the leading houses are using them in large quantities in this and other markets. may

 *Ask your shipper* to send your fertilizers in Horner & Hyde's Patent Bag and *insist on getting them*. An old Maryland Farmer says they are worth 10 or 12 cents to him for long farm use after he gets them and empties the fertilizer. WM. H. HORNER, of Baltimore, is the Gen'l Agent for this bag.

“SPRINGFIELD,”

THE MODEL FARM OF MARYLAND.

2,000 ACRES. Formerly owned by the late George Patterson. In the highest state of cultivation ; large mansion, with all modern conveniences, beautifully situated, overlooking 1,500 acres of cleared land belonging to the farm ; span grapery, green houses, and all necessary outbuildings, reservoir supplying bath-rooms, watering garden, grapery, and green houses. Four other main dwellings, with stabling and other outbuildings for each. Fifteen smaller houses for employees. Frame grist and saw mill, one of the best in the State, situated on a fine stream, running the entire length of the estate. Stabling for 300 head of cows and horses, together with sheep sheds, &c.; 40 hay barracks or barns situated in the different fields. Almost the entire farm is fenced with post and rail. Scarcely any waste land ; several hundred acres of meadow land ; sufficient chestnut to keep farm fenced. Within $\frac{1}{2}$ a mile of B. & O. R. R., and same distance from Liberty and Balto. Turnpike, 20 miles from Balto. In addition to being the finest grazing farm in the State, (if not the finest east of the Alleghanies,) its average yield of crops last year was as follows—33 bushels of wheat 50 to 60 bushels of corn, 40 bushels of oats, and 2 to 2 $\frac{1}{2}$ tons of hay to the acre. The farm, besides the cropping and grazing, is used as a dairy farm, and milk shipped to Baltimore daily. It needs but a visit to verify the above. Will be sold as one farm, or in small tracts to suit purchasers. Address the owner,

Sawing Made Easy

Monarch Lightning Sawing Machine!

Sent on 30 Days Test Trial.

A Great Saving of Labor & Money.

A boy 16 years old can saw logs FAST and EASY. MILES MURRAY Portage, Mich. writes: "Am much pleased with the MONARCH LIGHTNING SAWING MACHINE. I sawed off a 20-inch log in 2 minutes. For sawing logs into suitable lengths for family stove-wood, and all sorts of log-cutting, it is peerless and unrivalled. Illustrated Catalogue, Free. AGENTS WANTED. Mention this paper. ROLAND**CHILLED PLOWS.**

Every farmer in Maryland should use the "Roland." The Mouldboard is harder than steel. They will do more work than any other Plow with the same amount of draft. They run level and easy to the plowman. They will scour in any soil. Having the reversible slip point, sloping landside and chilled shares, they cost less for repairs than any other plow in the market. Made in Baltimore, the repairs can always be obtained without delay. The workmanship, material and finish is of the best. There are fourteen sizes and kinds, and they are suited to all kinds of soil. Send for descriptive circular.

CHAMPION**GRAIN DRILL.**

This Drill has force feed distributors for both wheat and grass seed, and has the only fertilizer distributor that will not clog, and will evenly distribute wet and sticky phosphate. It will sow grain, grass seed, and fertilizer more satisfactorily than any other drill in America. It is the simplest and strongest drill made. It is more easily managed and less liable to get out of order than any drill in the market. As it is the leading drill in this market, and several thousands have been sold during the past few years, a large stock of repairs is always on hand. Send for circular.

BRITISH MIXTURE.

The popularity of this celebrated fertilizer is not due alone to the price, but to the fact that its effects are uniformly good, and that it has been found the equal of the highest priced and best phosphates in the market. It gives more value for each dollar paid than any other fertilizer in the land. Send for circular and price list.

FAST POTATO DIGGING!

Sent on 30 Days'

600 Bushels a Day.

TEST TRIAL.

It Digs Irish and
Sweet Potatoes
Equally Well.

**The Monarch Lightning
Potato Digger.**

It will save its cost yearly to every farmer. We guarantee it will dig 600 bushels a day. One man with a team can dig as fast as fifteen persons can pick up. The potatoes are gathered without being cut or bruised, and cleaner than is usually done with a hoe. Every Digger is sent on 30 days' trial so that there is absolutely no risk in buying. We want an agent in every County in United States and Canada to exhibit our Digger this fall at the State and County Fairs. We will furnish circulars free, and pay your newspaper advertising bills in your County. Don't fail to mention this paper, and write quick for illustrated circulars giving prices, terms, &c.

Read These Fresh Testimonials and Notice the Late Dates.

Monarch Mfg. Co., Chicago, Ill.—Dear Sirs: The Monarch Lightning Potato Digger has been received. *Have tested it and am very much pleased with it.* I think it will suit the people very well, at least those who have seen it like it very much. If I should order twenty-five Diggers, would the freight be cheaper in proportion than on a single Digger? How many will a car hold?
Yours, &c.,

TURIN, N. Y., Aug. 20, 1883.

FRANK J. BARNES.

Monarch Mfg. Co.—Gentlemen: The Monarch Lightning Potato Digger arrived in good order. I have tried it and it works tip-top! Enclosed please find P. O. money-order for \$30, for which send me two more Diggers as soon as possible. In regard to advertising you might advertise in the "Conservative" and "Advertiser" papers at "Ligon. Send me some circulars for advertising.
Yours truly,

LOUDEN, Iowa, Aug. 13, 1883.

H. D. KEMMANN, Agent.

Monarch Mfg. Co.—Dear Sirs: I just write you a few lines to let you know what success I have had with the Monarch Lightning Potato Digger. I received it to-day at 1:40 o'clock and thoroughly tested it in the potato field, and sold 3 Diggers in 3 hours. I will give the agency my whole time, and travel around the County with a wagon-load of Diggers. Please to have an advertisement put in the Rockport "Sentinel." I want to tell you that the Digger exceeded by far my anticipations, after giving it a hard test. The ground was very hard and dry and covered all over with grass, and the Digger worked splendid. I would not take \$30 for it and do without it. Ten men can't pick up the potatoes fast enough. I have sent money by express. Ship 3 Diggers right away.
Yours Respectfully,

NEW WATERFORD, Ohio, Aug. 23, 1883.

Monarch Mfg. Co., Chicago—Dear Sirs: I got your Digger and have been digging some potatoes with it. It digs well, although the ground is grassy. We are going to have a fair in two weeks and it will be a good place to sell.
Yours truly,

HIRAM METZ.

The Monarch Lightning Potato Digger has been in use for the past five years, and we have been reliably informed that so great is the demand for this important farm implement that the factory is taxed to its utmost capacity.—From *Indiana Farmer*, Indianapolis, Ind., July 14, 1883.

COMPETENT AGENTS WANTED AT \$1,000 SALARY AND COMMISSION.

Domestic Recipes.

DELICIOUS FRENCH PICKLES.—Here is a recipe for pickles; delicious; one colander of sliced green tomatoes, one quart sliced onions, one colander pared and sliced cucumbers, two handfuls salt; let all stand twenty-four hours, then drain through a sieve; add one-half ounce of celery seed, one-half ounce all-spice, one teaspoon pepper, one tablespoon of tumeric, one pound brown sugar, two tablespoons mustard and one gallon vinegar.

CHOW CHOW.—One peck of green tomatoes, one dozen of onions, one pepper, two tablespoonsful of celery seed, one quarter of pound of white mustard seed, and two cents worth of cloves. Chop and salt over night. Put a pint of salt in the tomatoes and onions over night. In the morning draw off the water through a colander. Put all the ingredients in with the tomatoes and onions.—Pour on good cold vinegar to cover them, with a teacupful of good sugar.

CANDIED FRUITS.—Boil peaches, pears, apricots or almost any fruit, dressed in a thick syrup made with a teacupful of water to each pound of sugar, until tender—no longer. Let them remain two days in the syrup, then take them out, drain them, and sprinkle sugar over each piece separately. Dry them slowly in the sun or in an oven not too warm.

How to Use Apples.

Ten good-sized apple, the rind of half a lemon, six ounces pounded sugar, half pint of milk, half a pint of cream, whipped, two eggs. Peel, core, and cut the apples into thin slices, and put them into a saucepan with two tablespoonsful of water, the sugar, and minced lemon rind. Boil all together until quite tender, and pulp the apples through a sieve; if they should not be quite sweet enough, add a little more sugar, and put them at the bottom of the dish to form a thick layer. Stir together the milk, cream and eggs, with a little sugar, over the fire, and let the mixture thicken, but do not allow it to reach the boiling point. When thick, take it off the fire; let it cool a little, then pour it over the apples. Whip some cream with sugar, lemon juice, &c., the same as for other trifles; heap it high over the custard, and the dish is ready for table. It may be garnished, as fancy dictates, with strips of bright apple-jelly, slices of citron, &c.

“SPRINGFIELD,”

THE MODEL FARM OF MARYLAND.

2,000 ACRES. Formerly owned by the late George Patterson. In the highest state of cultivation; large mansion, with all modern conveniences, beautifully situated, overlooking 1,500 acres of cleared land belonging to the farm span grapery, green houses, and all necessary outbuildings, reservoir supplying bath-rooms, watering garden, grapery, and green houses. Four other main dwellings, with stabling and other outbuildings for each. Fifteen smaller houses for employees. Frame grist and saw mill, one of the best in the State, situated on a fine stream, running the entire length of the estate. Stabling for 300 head of cows and horses, together with sheep sheds, &c.; 40 hay barracks or barns situated in the different fields. Almost the entire farm is fenced with post and rail. Scarcely any waste land; several hundred acres of meadow land; sufficient chestnut to keep farm fenced. Within $\frac{1}{2}$ a mile of B. & O. R. R., and same distance from Liberty and Balto. Turnpike, 20 miles from Balto. In addition to being the finest grazing farm in the State, (if not the finest east of the Alleghanies,) its average yield of crops last year was as follows—33 bushels of wheat 50 to 60 bushels of corn, 40 bushels of oats, and 2 to 2 $\frac{1}{2}$ tons of hay to the acre. The farm, besides the cropping and grazing, is used as a dairy farm, and milk shipped to Baltimore daily. It needs but a visit to verify the above. Will be sold as one farm, or in small tracts to suit purchasers. Address the owner,

The Poet says—

Would you have flowers in place of weeds?
 Give to your garden O. K. seeds;
 Your fields will blossom as the rose,
 If "O. K. Seeds" the farmer sows.
 Your fruitage thrive beneath the rain,
 That comes to kiss the golden grain,
 And prove how wise is he who heeds
 Our song in praise of O. K. Seeds,
 Your toils will not have been in vain,
 A rich reward will be your gain,
 In comfort, ease and well earned rest,
 If O. K. Seeds your fields have blest.

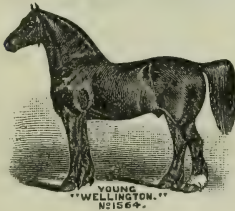

Thus, when Autumn comes and goes,
 And brings bleak winter's winds and snows,
 Plenty will crown the closing year,
 And fill your days with grateful cheer.

ROLAND CHILLED PLOWS.

Every farmer in Maryland should use the "Roland." The Mouldboard is harder than steel. They will do more work than any other Plow with the same amount of draft. They run level and easy to the plowman. They will scour in any soil. Having the reversible slip point, sloping landside and chilled shares, they cost less for repairs than any other plow in the market. Made in Baltimore, the repairs can always be obtained without delay. The workmanship, material and finish is of the best. There are fourteen sizes and kinds, and they are suited to all kinds of soil. Send for descriptive circular.

CHAMPION GRAIN DRILL.

This Drill has force feed distributors for both wheat and grass seed, and has the only fertilizer distributor that will not clog, and will evenly distribute wet and sticky phosphate. It will sow grain, grass seed and fertilizer more satisfactorily than any other drill in America. It is the simplest and strongest drill made. It is more easily managed and less liable to get out of order than any drill in the market. As it is the leading drill in this market, and several thousands have been sold during the past few years, a large stock of repairs is always on hand. Send for circular.

BRITISH MIXTURE.

The popularity of this celebrated fertilizer is not due alone to the price, but to the fact that its effects are uniformly good, and that it has been found the equal of the highest priced and best phosphates in the market. It gives more value for each dollar paid than any other fertilizer in the land. Send for circular and price list.

The Railroads of the United States and Canadas put in more ECLIPSE MILLS than all others put together. We export more than all others combined. Our Mill is not sold as a cheap Mill, but as the best Mill in the world. For the last six years I have never received a cent for repairs of any of my Mills that I have put up, and have replaced several other mills by the ECLIPSE. We make 18 sizes from 8½ to 60 feet in diameter, from two-man to forty-horse power, and used for pumping from wells, springs, brooks and rivers. Also have POWER MILLS for grinding grain, shelling corn, sawing wood, cutting fodder, &c. I furnish Mills separate, or will contract for a whole job, including tower, pumps, piping, &c., plain or ornamental, and will guarantee to give satisfaction. SEDGWICK STEEL WIRE FENCE.

It is the only general purpose Wire Fence in use, being a strong net work without barbs. It will turn dogs, pigs, sheep and poultry, as well as the most vicious stock without injury to either fence or stock. It is just the fence for farms, gardens, stock ranges and railroads, and very neat for lawns, parks, school lots and cemeteries. Covered with rust proof paint, (or galvanized,) it will last a life-time. It is superior to boards or barbed wire in every respect. We ask for a fair trial, knowing it will wear itself into favor. The SEDGWICK GATES, made of wrought iron pipe and steel wire, defy all competition in neatness, strength and durability. We also make the best and cheapest All Iron Automatic or Self-opening Gate, also cheapest and neatest all iron fence. Best Wire Stretcher and Post Augur. **HAMILTON EASTER & SONS,
OF BALTIMORE,**

Desire to call the attention of the readers of this paper to the advantage which they can present, as an inducement to parties to make their purchases from them.

First.—They have had an experience of over 30 years in business, in which time, from a small concern they have built up their present large trade by fair dealing, without misrepresenting and without urging any one to buy. One price, and that price marked in plain figures on every article.

Next.—We keep on hand a Very Large and Valuable Stock of embracing Goods of every class, from Low Price to the most expensive; but no article that would be "dear" at any price,—only such as we believe will prove of good value for the price paid.

Our various departments include Low-Priced Medium and Fine Dressed Goods, Black Silks, Colored Silks, Mourning Goods, Linen Goods, and all Housekeeping Dry Goods. Blankets, Quilts, Comforts, Druggets, Mattings, Domestic Cotton Goods, and Domestic Fabrics of all kinds.

The Woollen Department

Includes Goods for Men's and Boys' Wear, in all the New Styles of Suits—Cheviots, Cloths, Cassimeres, and also White and Colored Flannels.

FOUR POINTED STEEL BARB WIRE.

THE BEST AND THE CHEAPEST.

MERITS OF BARB FENCE

It is the cheapest fence made; the most durable; is not affected by fire, wind or flood; does not cause snow drifts; takes fewer fence posts; stock cannot push it down; it protects itself—acts on the defensive, it takes but little room; you can cultivate close to it; weeds are easily kept out of it; requires but little labor to put it up; you can draw at one load enough to fence a farm; and can fence a good sized farm in a day; it is the greatest practical invention of the age, and has come to be the farm and railroad fence of the country.

Sheep culture presents a striking example of the inefficiency of the fencing now in use. No branch of farming is more profitable if sheep could be protected. But no fence heretofore tried, except this, will keep sheep in, and dogs and wolves out.

It is easily seen, thus overcoming one of the main objects to plain fence wire. Its length is not affected by heat or cold. One

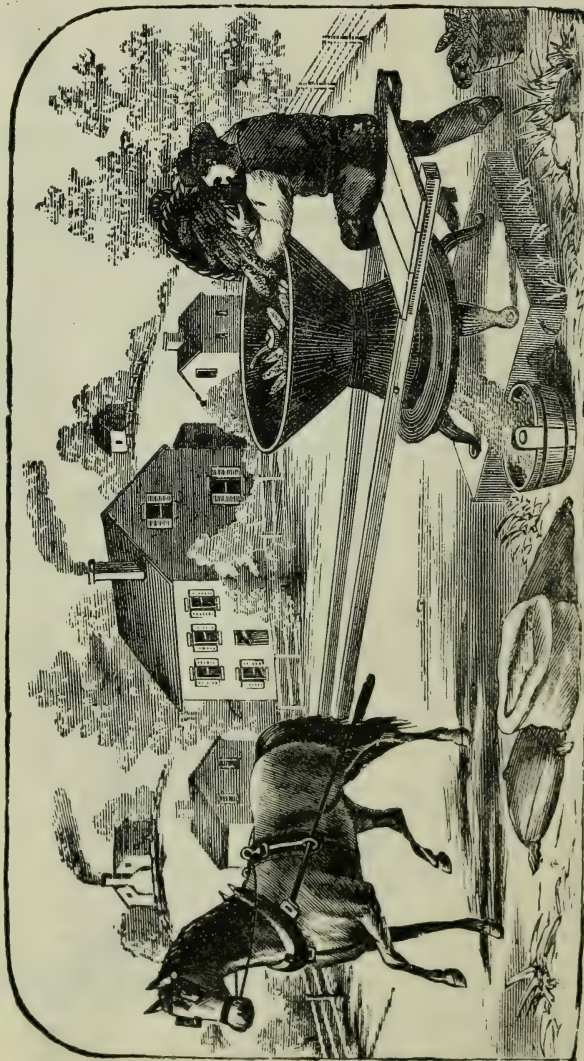

The wire is put up on spools in lengths of about one hundred rods, weighing 100 to 110 lbs., so as to be easily handled.

HALLOCK'S IMPROVED SEED DRILL.

This machine will sow in drills all kinds of seeds from beet down to the smallest seeds, without regard to weight, shape or size, with regularity, and without failure, as long as there is seed in the hopper, and will do the work with one man, that would take a half dozen men a given time. It can be sent anywhere by R. R. or Express, on receipt of the price, which is only \$5.00.

It is upon the principle of the old English hand seed drills, with the revolving brush used for many years in England. Address.

PROPRIETORS.

This RESTAURANT is the oldest and most extensive in its accommodations of any in the city.

The BAR is filled with the finest of all kinds of LIQUORS. The TABLES are covered with the best substantial food the markets afford, besides, at the earliest moment they can be procured in the different seasons, every variety of delicacy that land and water furnish, in

BIRDS, GAME, FISH, FRUITS & VEGETABLES.

Prices moderate. The crowds, which lunch and dine daily, attest public approbation of the superior management of the house.

It is a convenient place for travellers, who stop only a few hours or a day in the city, to get their meals. It is the popular resort of country gentlemen from the counties, particularly from Southern Maryland, being convenient to Railroads and Steamboats, and in the midst of the business portion of the city.

The Proprietors will be grateful for the continuance of the extensive patronage they now enjoy, and will do their best to give entire satisfaction to all visitors.

Barley Malt Whiskey,

Its qualities for family and medicinal use.

This whiskey has been manufactured by Mr.
WALTER P. DUFFY, of Rochester, N. Y. for nearly
half a century, the process of distillation known
only to himself, and by which all the impurities are ex-
tracted. The Medical Faculty prescribe DUF-

A NEW BOOK.

HORSES:

THEIR FEED

AND

THEIR FEET.

A manual of Horse Hygiene, invaluable for the veteran or the novice, pointing out the causes of "malaria," "glanders," "pink eye," "distemper," etc., and how to prevent and counteract them, by C. E. Page, M.D., with a treatise and notes on shoeing by Sir George Cox and Col. M. C. Weld. 150 pages 12mo, paper, 50 cents, extra cloth, 75 cents.

The value of the most of horses to their owners is measured by the amount and length of service that can be secured, and therefore all information relative to his care is very important. We have here in a condensed form much that is valuable on the care of horses, that has not before been published. The subject is considered from a new and original stand-point, and stated in a plain, practical, common-sense manner, showing how by proper care we may add many valuable years of life and usefulness to our horses. It discusses very fully the best means of putting horses in "condition" and keeping them so, the relation of feed to work, the best kinds of feed, and when and how to feed for the best results, including the care of work horses and of road horses. Tells how Mr. Bonner and others care for their valuable stock and keep them always in condition, and at less cost for feed than is usual with farmers and others. The causes of the various diseases to which he is subject, with methods of treatment, are given. The question of shoeing is fully considered, different ways are considered, and it is shown how under many conditions horses will do better service without shoes than with them, and Col. M. C. Weld, who is well-known authority, adds a valuable chapter giving his experience with barefoot horses. There is also an illustrated chapter on the "Signs of Character" and training of horses. It is safe to say that to every owner of a horse this book would prove invaluable. The price is only 50 cents in paper cover, or handsomely bound in extra cloth, 75 cents. By mail, post-paid. To Every Subscriber
TO THE PEOPLE'S
FIRESIDE JOURNAL

Free!

Watch

The PEOPLE'S FIRESIDE JOURNAL of NEW YORK, now in its SIXTH YEAR, is determined to lead the race in premiums, as it always has done, in giving the best paper for the money. In order to get the paper into every home in the land, we give an inducement which cannot fail to accomplish our object. We have decided to make the following princely and magnificent offer to each and every reader of this paper. It is the common practice of the gold and silver refiners of England and Switzerland to purchase from the pawnbrokers of their respective countries all the gold and silver watches which have been unredeemed, simply for the sake of the gold and silver cases. The works are then sold to a celebrated watch firm who have made a specialty of this business. The firm places the works in the hands of skillful workmen, who set to work and put them in as good condition as possible. These works embrace every variety of movement, some of them being very fine and perfect timekeepers, all handsomely cased. WE HAVE JUST PURCHASED THE ENTIRE STOCK (25,000) of a bankrupt concern of the above described watches at less than the first cost of the raw material.

ON RECEIPT OF \$2.50 we will send THE PEOPLE'S FIRESIDE JOURNAL for one year, and one of these watches, prepaid to any address in the United States or Canada. WATCHES AND PAPER MAILED SAME DAY AS ORDER IS RECEIVED. These watches are not sun dials or solar watches, but GENUINE, GOOD TIME-KEEPING WATCHES, and they will only be supplied to subscribers to the FIRESIDE JOURNAL. Only ONE WATCH TO EACH SUBSCRIBER, and you must cut out this advertisement and send it to us as a voucher that you are entitled to the same. If you send 50 cents extra, we will send you a handsome chain and charm. We have THOUSANDS OF TESTIMONIALS, but have no space to print them. Our reliability is undoubted, as the paper has been well and favorably known for six years. If you are not ENTIRELY SATISFIED when you get the paper and watch, we will RETURN YOU THE MONEY; or you can send 60 cents, and have the balance collected C. O. D. if you choose. If you will get us 15 subscribers at \$2.50 each, all of whom will get the above watch, we will in addition send you a HANDSOME GOLD WATCH for your trouble, either for lady or gent.

Our profit in this transaction is not going to come from this trade, as we lose money on it; but when we get subscribers to our paper they like it so well they will always take it. Send postal note. Address,

"YOUNG AMERICA" GEARED CORN AND COB MILL.

PATENT APPLIED FOR.

The above cut represents a new geared corn and cob mill which can be run by water, steam or horse power. It is the "Young America Corn and Cob Mill," now so popular, with gearing instead of lever. There are no changes in the mill proper, and any one having the lever mill can get the gearing to fit it and then have a geared mill at a small cost.

The amount of power required to drive it is four horse power. It has about five revolutions to one of the lever mill, and therefore grinds about five times as fast. It is made with a special view to strength and durability, is well braced and made of the best material. Those who want a mill that can do more work than the lever mill, cannot fail to be pleased with this mill.

We invite those in search of an A No. 1 CORN AND COB MILL, to examine the merits of our Young America before purchasing.

Domestic Recipes.

PROSAIC KITCHEN RULES POETIZED.

Veal cutlets dipped in egg and bread-crumbs,
Fry till you see a brownish red come.

Roast pork, sans apple-sauce, past doubt,
Is Hamlet with the prince left out.

Your mutton chops with paper cover,
And make them amber-brown all over.

Broil lightly your beefsteak—to fry it
Argues contempt for Christian diet.

The cook deserves a hearty cuffing
Who serves roast fowls with tasteless stuffing.

Egg sauce—few make it right, alas!—
Is good with blue fish, or with bass.

Shad; stuffed and baked, is most delicious;
'Twould have electrified Apicius.

Roasted in paste, a haunch of mutton
Might make ascetics play the glutton.

CABBAGE FARCIE.—Take a small, hard head of cabbage, removing the two or three outer leaves. Have a pot of boiling water ready, with plenty of salt in it. Put in the cabbage and let it stay ten minutes, and then place it in cold water. Dry it. Take an apple-corer, and cut out in the middle a kind of well-like hole. Have any cold meat, which chop fine. Season this

with pepper and salt, a little grated nutmeg, and some thyme. To stiffen it, add the yolks of two egg to the farcie. Fill up the hole, which cover with a bit of leaf. Bind up the cabbage with twine; use plenty of twine, so that it will be secure. This is best boiled in stock, but if stock is not at hand, take some pieces of ham or bacon, and some beef bones, and put them in the water. Boil your cabbage thoroughly and serve dry.

TO HAVE excellently seasoned sausage meat, use for every one hundred pounds of meat twelve ounces of salt, six ounces of pepper, and four ounces of sage.

TO CURE A BOIL.—The skin of a boiled egg—peel it carefully—wet and apply it; it will relieve the soreness in a few hours.

A HINT.—White spots on varnished furniture may be removed by rubbing with a flannel cloth dipped in coal-oil.

With the first issue (January 6, 1883), of the third volume of

The American Angler

was published the first paper of a series of essays on the

Fresh and Salt Water Fishes

of the United States and Canada. These essays are from the pens of the best angling writers in America, and include

- An illustration of each fish.
- A description—scientific and popular.
- Coloration, structure, etc.
- Habits and habitat
- Description of tackle used in capture.
- Where, when and how to catch them.
- Incidents of capture, etc., etc.

These essays are now being published, and will be continued through the years 1883 and 1884.

THE AMERICAN ANGLER is published on Saturday of each week, and each issue contains essays on fish and fishing; notes and queries relative to fishing and fish life; reports of fishing from all parts of the Continent, and an engraving of a representative fish of American waters. Drawings of seventy-five of these fish have already appeared in the columns of THE ANGLER, which is the only paper published in America that is solely devoted to fishing and fish culture. In the highest state of cultivation; large mansion, with all modern conveniences, beautifully situated, overlooking 1,500 acres of cleared land belonging to the farm span grapery, green houses, and all necessary outbuildings, reservoir supplying bath-rooms, watering garden, grapery, and green houses. Four other main dwellings, with stabling and other outbuildings for each. Fifteen smaller houses for employees. Frame grist and saw mill, one of the best in the State, situated on a fine stream, running the entire length of the estate. Stabling for 300 head of cows and horses, together with sheep sheds, &c.; 40 hay barracks or barns situated in the different fields. Almost the entire farm is fenced with post and rail. Scarcely any waste land; several hundred acres of meadow land; sufficient chestnut to keep farm fenced. Within $\frac{1}{2}$ a mile of B. & O. R. R., and same distance from Liberty and Balto. Turnpike, 20 miles from Balto. In addition to being the finest grazing farm in the State, (if not the finest east of the Alleghanies,) its average yield of crops last year was as follows—33 bushels of wheat 50 to 60 bushels of corn, 40 bushels of oats, and 2 to $2\frac{1}{2}$ tons of hay to the acre. The farm, besides the cropping and grazing, is used as a dairy farm, and milk shipped to Baltimore daily. It needs but a visit to verify the above. Will be sold as one farm, or in small tracts to suit purchasers. Address the owner,

COLUMBIA BICYCLES

Are made as strong and durable as the best material and most skilled workmanship can produce. They are used by every trade and profession. They furnish the cheapest and best means of rapid transit, give the rider the healthiest of out-door exercise, and, in a word, are THE POPULAR STEEDS OF TO-DAY.

"Undoubtedly, the most perfect bicycle now made is the 'Columbia.'"—*Scientific American*.

Jul-1y

As I ride,
I hear the crowing cock, I hear the note
Of lark and linnet, and at every turn
Rise odors of ploughed field on every side.

The Columbia Tricycle is a new machine for general use by both sexes and all ages. By the addition of the Columbia Tricycle—The Pope Manufacturing Co. can claim to furnish wheels for THE WHOLE FAMILY. For grandfather, grandmother, father, mother, young man, young lady, and even to little Johnnie and sissie.

No one has ever dared show up any other Press, as Dederick's Press is known to be beyond competition, and will bale at less expense with twice the rapidity and load more in a car than any other. The only way inferior machines can be sold is to deceive the inexperienced by ridiculously false statements, and thus sell without sight or seeing, and swindle the purchaser. Working any other Press alongside of Dederick's always sells the purchaser a Dederick Press, and all know it too well to show up. The Roland Chilled Plow.

There is no farm implement which has been so greatly improved during the past five years as THE PLOW, and the Roland Chilled stands pre-eminent amongst the best, as

THE BEST PLOW IN AMERICA.

Its superiority over common cast plows is so great that hundreds of farmers have thrown aside their entire stock of old-fashioned Plows, being convinced that they would save money by doing this and replacing with the "Roland Chilled." Send for descriptive circular, setting forth the reasons why we claim so much, and giving full description of the various sizes, with prices, &c.

The Poet says—

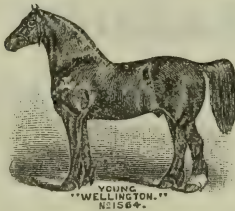

Would you have flowers in place of weeds?
 Give to your garden O. K. seeds:
 Your fields will blossom as the rose,
 If "O. K. Seeds" the farmer sows.
 Your fruitage thrive beneath the rain,
 That comes to kiss the golden grain,
 And prove how wise is he who heeds
 Our song in praise of O. K. Seeds,
 Your toils will not have been in vain,
 A rich reward will be your gain,
 In comfort, ease and well earned rest,
 If O. K. Seeds your fields have blest.
 Thus, when Autumn comes and goes,
 And brings bleak winter's winds and snows,
 Plenty will crown the closing year,
 And fill your days with grateful cheer.

ROLAND CHILLED PLOWS.

Every farmer in Maryland should use the "Roland." The Maryland plow is harder than steel. They will do more work than any other plow with the same amount of draft. They run level and easy to the plowman. They will scour in any soil. Having the reversible slip point, sloping landside and chilled shares, they cost less for repairs than any other plow in the market. Made in Baltimore, the repairs can always be obtained without delay. The workmanship, material and finish is of the best. There are fourteen sizes and kinds, and they are suited to all kinds of soil. Send for descriptive circular.

CHAMPION GRAIN DRILL.

This Drill has force feed distributors for both wheat and grass seed, and has the only fertilizer distributor that will not clog, and will evenly distribute wet and sticky phosphate. It will sow grain, grass seed and fertilizer more satisfactorily than any other drill in America. It is the simplest and strongest drill made. It is more easily managed and less liable to get out of order than any drill in the market. As it is the leading drill in this market, and several thousands have been sold during the past few years, a large stock of repairs is always on hand. Send for circular.

BRITISH MIXTURE.

The popularity of this celebrated fertilizer is not due alone to the price, but to the fact that its effects are uniformly good, and that it has been found the equal of the highest priced and best phosphates in the market. It gives more value for each dollar paid than any other fertilizer in the land. Send for circular and price list.

BALTIMORE, MD.**SEDGWICK STEEL WIRE FENCE.**

It is the only general purpose Wire Fence in use, being a strong net work without barbs. It will turn dogs, pigs, sheep and poultry, as well as the most vicious stock without injury to either fence or stock. It is just the fence for farms, gardens, stock ranges and railroads, and very neat for lawns, parks, school lots and cemeteries. Covered with rust proof paint, (or galvanized,) it will last a life-time. It is superior to boards or barbed wire in every respect. We ask for a fair trial, knowing it will wear itself into favor. The SEDGWICK GATES, made of wrought iron pipe and steel wire, defy all competition in neatness, strength and durability. We also make the best and cheapest All Iron Automatic or Self-opening Gate, also cheapest and neatest all iron fence. Best Wire Stretcher and Post Augur. For prices and particulars, ask hardware dealers, or address, mentioning paper,

FOR SPRING OF 1883.

**HAMILTON EASTER & SONS,
OF BALTIMORE,**

Desire to call the attention of the readers of this paper to the advantage which they can present, as an inducement to parties to make their purchases from them.

First.—They have had an experience of over 50 years in business, in which time, from a small concern they have built up their present large trade by fair dealing, without misrepresentation and without urging any one to buy. One price, and that price marked in plain figures on every article.

Next.—We keep on hand a Very Large and Varied Stock of all the Dry Goods of every class, from Low-Priced to the most expensive, but no article that would be "dear at any price"—only such as we believe will prove of good value for the price paid.

Our various departments include Low-Priced Medium and Fine Dressed Goods, Black Silks, Colored Silks, Mourning Goods, Linen Goods, and all Housekeeping Dry Goods. Blankets, Quilts, Comforts, Druggists, Mattings, Domestic Cotton Goods, and Domestic Fabrics of all kinds.

The Woolen Department

Includes Goods for Men's and Boys' Wear, in all the New Styles of Suitings—Cheviots, Cloths, Cassimeres, and also White and Colored Flannels.

Hosiery, Gloves and Merino Underwear in all sizes, for Ladies Misses, Boys and Men of any kind and description.

Ladies' and Misses' Wraps and Shawls, Ladies' Muslin Underwear, Laces, Edgings, Ruffings, Scarfs, Ribbons, Nets, &c.

Ginghams, Calicoes, Chintzes, Cretonnes, Satins, White Muslin Dress Goods, Nainsook, Swiss and Cambric Embroideries, Buttons, Notions, &c.

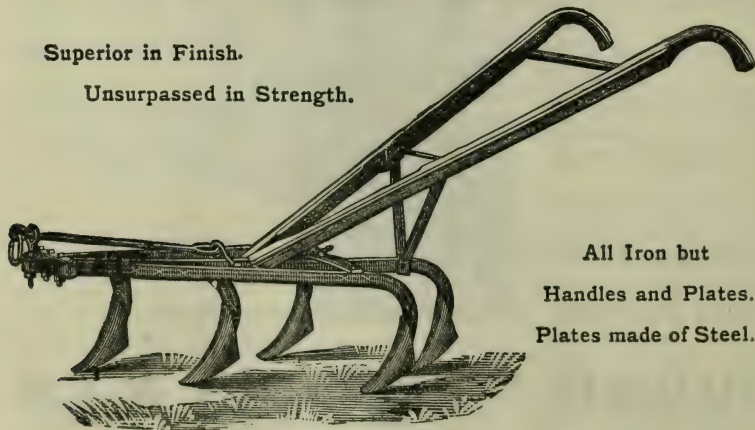

Samples will be sent to parties who give us plain and full directions of about the price wanted, colors preferred, &c.

FOUR POINTED STEEL BARB WIRE.

THE BEST AND THE CHEAPEST.

MERITS OF BARB FENCE

It is the cheapest fence made; the most durable; is not affected by fire, wind or flood; does not cause snow drifts; takes fewer fence posts; stock cannot push it down; it protects itself—acts on the defensive, it takes but little room; you can cultivate close to it; weeds are easily kept out of it; requires but little labor to put it up; you can draw at one load enough to fence a farm; and can fence a good sized farm in a day; it is the greatest practical invention of the age, and has come to be the farm and railroad fence of the country.

Sheep culture presents a striking example of the inefficiency of the fencing now in use. No branch of farming is more profitable if sheep could be protected. But no fence heretofore tried, except this, will keep sheep in, and dogs and wolves out.

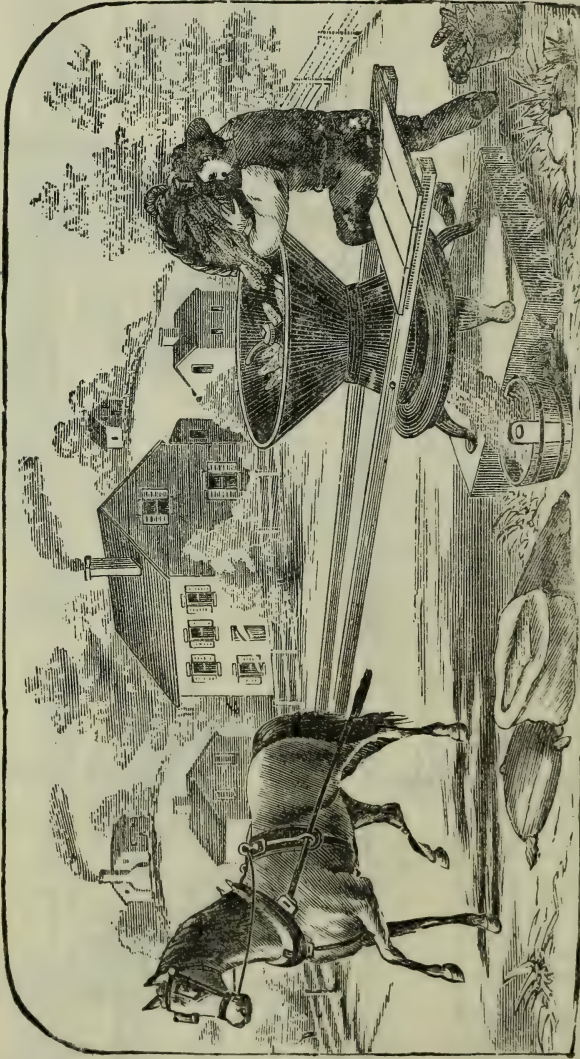

It is easily seen, thus overcoming one of the main objects to plain fence wire. Its length is not effected by heat or cold. One pound measures 15 feet in length; 352 lbs. measures a mile. Send for circulars and special prices.

SAMARITAN NEVER FAILS. NERVINE

"You claim too much for SAMARITAN NERVINE," says a skeptic. "How can one medicine be a specific for Epilepsy, Dyspepsia, Alcoholism,

Opium Eating, Rheumatism, Spermatorrhea, or Seminal Weakness, and fifty other complaints?" We claim it, a specific, simply, because the virus of all diseases arises from the blood. Its Nervine, Resolvent, Alterative and Laxative properties meet all the conditions herein referred to. It's known world wide as

THE GREAT

NERVE CONQUEROR

It quiets and composes the patient—not by the introduction of opiates and drastic cathartics, but by the restoration of activity to the stomach and nervous system, whereby the brain is relieved of morbid fancies, which are created by the causes above referred to.

To Clergymen, Lawyers, Literary men, Merchants, Bankers, Ladies and all those whose sedentary employment causes nervous prostration, irregularities of the blood, stomach, bowels or kidneys or who require a nerve tonic, appetizer or stimulant, SAMARITAN NERVINE is invaluable. Thousands proclaim it the most wonderful invigorant that ever sustained the sinking system. \$1.50. Sold by all Druggists. The DR. S. A. RICHMOND MED. CO., Proprietors, St. Joseph, Mo. Chas. H. PROPRIETORS.

This RESTAURANT is the oldest and most extensive in its accommodations of any in the city.

The BAR is filled with the finest of all kinds of LIQUORS. The TABLES are covered with the best substantial food the markets afford, besides, at the earliest moment they can be procured in the different seasons, every variety of delicacy that land and water furnish, in

BIRDS GAME, FISH, FRUITS & VEGETABLES

Prices moderate. The crowds, which lunch and dine daily, attest public approbation of the superior management of the house.

It is a convenient place for travellers who stop, only a few hours or a day in the city, to get their meals. It is the popular resort of country gentlemen from the counties, particularly from Southern Maryland, being convenient to Railroads and Steamboats and in the midst of the business portion of the city.

The Proprietors will be grateful for the continuance of the extensive patronage they now enjoy, and will do their best to give entire satisfaction to visitors.

A NEW BOOK.

HORSES:

THEIR FEED

AND

THEIR FEET.

A manual of Horse Hygiene, invaluable for the veteran or the novice, pointing out the causes of "malaria," "glanders," "pink eye," "distemper," etc., and how to prevent and counteract them, by C. E. Page, M.D., with a treatise and notes on shoeing by Sir George Cox and Col. M. C. Weld. 150 pages 12mo, paper, 50 cents, extra cloth, 75 cents.

The value of the most of horses to their owners is measured by the amount and length of service that can be secured, and therefore all information relative to his care is very important. We have here in a condensed form much that is valuable on the care of horses, that has not before been published. The subject is considered from a new and original stand-point, and stated in a plain, practical, common-sense manner, showing how by proper care we may add many valuable years of life and usefulness to our horses. It discusses very fully the best means of putting horses in "condition" and keeping them so, the relation of feed to work, the best kinds of feed, and when and how to feed for the best results, including the care of work horses and of road horses. Tells how Mr. Bonner and others care for their valuable stock and keep them always in condition, and at less cost for feed than is usual with farmers and others. The causes of the various diseases to which he is subject, with methods of treatment, are given. The question of shoeing is fully considered, different ways are considered, and it is shown how under many conditions horses will do better service without shoes than with them, and Col. M. C. Weld, who is well-known authority, adds a valuable chapter giving his experience with barefoot horses. There is also an illustrated chapter on the "Signs of Character" and training of horses. It is safe to say that to every owner of a horse this book would prove invaluable. The price is only 50 cents in paper covers, or handsomely bound in extra cloth, 75 cents. By mail, post-paid. HARPER'S BAZAR,

ILLUSTRATED.

HARPER'S BAZAR is at once the most brilliant and useful Household Journal in existence. It is the acknowledged arbiter of fashion in this country. Its fashion plates are the newest and most stylish; and its pattern sheet supplements and economic suggestions alone are worth many times the cost of subscription. Its illustrations of art needlework are from the best sources. Its literary and artistic merits are of the highest order. Its stories, poems, and essays are by the first American and European authors. Its choice art pictures would fill portfolios, and its humorous cuts are the most amusing to be found in any journal in America. A host of brilliant novelties are promised for 1884.

I CURE FITS!

When I say cure I do not mean merely to stop them for a time and then have them return again, I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a free Bottle of my infallible remedy. Give Express and Post Office. It costs you nothing for a trial, and I will cure you. Address Dr. H. G. ROOT, 183 Pearl St., New York.

1884.

HARPER'S MAGAZINE, ILLUSTRATED.

HARPER'S MAGAZINE begins its sixty-eighth volume with the December number. It is the most popular illustrated periodical in America and England, always fully abreast of the times in its treatment of subjects of current social and industrial interest, and always advancing its standard of literary, artistic, and mechanical excellence. Among its attractions for 1884 are: a new serial novel by William Black, illustrated by Abbey; a new novel by E. P. Roe, illustrated by Gibson & Dielman; descriptive illustrated papers by Geo. H. Boughton, Frank D. Millet, C. H. Farnham, and others; important historical and biographical papers; short stories by W. D. Howells, Charles Reade, &c.

Harper's Weekly, ILLUSTRATED.

HARPER'S WEEKLY stands at the head of American illustrated weekly journals. By its unpartisan position in politics, its admirable illustrations, its carefully chosen serials, short stories, sketches, and poems, contributed by the foremost artists and authors of the day, it carries instruction and entertainment to thousands of American homes.

It will always be the aim of the publishers to make HARPER'S WEEKLY the most popular and attractive family newspaper in the world, and, in the pursuance of this design, to present a constant improvement in all those features which have gained for it the confidence, sympathy, and support of its large army of readers.

NEW SEED ROOMS.

In re-modeling and enlarging our store, we have placed the **Seed Department** on the second floor, and devoted the entire room to this branch of our business; we are now receiving from the best growers in this country and Europe, a full and complete assortment of **Seeds** which we recommend as pure and genuine.

In making this change, we have disposed of all our old stock, and now invite ladies and gentlemen who want to purchase *new* and *fresh seeds* to call at our seed rooms, which they will find pleasant and quiet, without being disturbed by the other branches of our business. The stock will consist of
